For Out of Babylonia Shall Come Torah and the Word of the Lord from Nehar Pegod Barak S. Cohen, 2017-05-08

In *For Out of Babylonia Shall Come Torah and the Word of the Lord from Nehar Pegod* Barak S. Cohen reevaluates the evidence in Tannaitic and Amoraic literature of an independent Babylonian Mishnah which originated in the proto talmudic period. The book focuses on an analysis of the most notable halakhic corpora that have been identified by scholars as originating in the Tannaitic period or at the outset of the amoraic. If indeed such an early corpus did exist, what are its characteristics and what if any connection does it have with the parallel Palestinian collections? Was this Babylonian Mishnah created in order to harmonize the Palestinian Mishnah with a corpus of rabbinic teachings already existent in Babylonia? Was this corpus one of the main contributors to the forced interpretations and resolutions found so frequently in the Bavli?

Rabbinic Narrative Jacob Neusner, 2003. This detailed systematic classification of Rabbinic narrative supplies these facts concerning the classification of narratives and their regularities: 1. what are the types and forms of narrative in a given document; 2. how are these distinctive types and forms of narrative distributed across the canonical documents of the formative age, the first six centuries C.E. The answers for the documentary preferences are in Volumes One through Three for the Mishnah, Tosefta, the Tannaite Midrash compilations, and Rabbah Midrash compilations respectively. Volume Four then takes up the types of Rabbinic narratives and shows the documentary history of each of them, including the authentic narrative, the *ma'aseh* and the *meshal*. Catalogue of Books Printed in the XVth Century now in the British Library (BMC). Part XIII: Hebraica, 2021-10-25. The Catalogue of Books Printed in the XVth Century Now in the British Museum. The British Library, generally referred to as BMC, is a monument in the history of the book. BMC followed on from the rearrangement of the Museum's incunabula begun by Robert Proctor on the basis of the comprehensive survey of printing types and presses of the fifteenth century that he had published in 1898 as an Index of the incunabula in the Museum and the Bodleian Library. The Index represented a working out of the system he had developed for the identification of printers of the incunabula period on the basis of typographical material. The volumes of BMC extend Proctor's principles by providing full descriptions of the incunabula in the collections of the British Museum and making revisions where necessary. The first part appeared in 1908, prepared by A. W. Pollard after Proctor's death in 1903. The most recent part was published in 1985.
