See It Made Pop Videos:

Digital Music Videos Steven Shaviro, 2017-04-15 Music videos today sample and rework a century's worth of movies and other pop culture artifacts to offer a plethora of visions and sounds that we have never encountered before. As these videos have proliferated online they have become more widely accessible than ever before. In Digital Music Videos Steven Shaviro examines the ways that music videos interact with and change older media like movies and gallery art, the use of technologies like compositing, motion control, morphing software, and other digital special effects in order to create a new organization of time and space, how artists use music videos to project their personas, and how less well-known musicians use music videos to extend their range and attract attention. Surveying a wide range of music videos, Shaviro highlights some of their most striking innovations while illustrating how these videos are creating a whole new digital world for the music industry.

Music/Video Gina Arnold, Daniel Cookney, Kirsty Fairclough, Michael Goddard, 2017-08-30 This book is a lively, comprehensive and timely reader on the music video, capitalising on cross-disciplinary research expertise which represents a substantial academic engagement with the music video, a mediated form and practice that still remains relatively under-explored in a 21st-century context. The music video has remained suspended between two distinct poles. On the one hand, the music video as the visual sheen of late capitalism at the intersection of celebrity studies and postmodernism. On the other hand, the music video as art, looking to a prehistory of avant-garde film-making while perpetually pushing forward the digital frontier with a taste for anarchy, controversy, and the integration of special effects into a form designed to be disseminated across digital platforms. In this way, the music video virally re-engenders debates about high art and low culture. This collection presents a comprehensive account of the music video from a contemporary 21st-century perspective. This entails revisiting key moments in the canonical history of the music video, exploring its articulations of sexuality and gender, examining its functioning as a form of artistic expression between music, film, and video art, and following the music video's dissemination into the digital domain, considering how digital media and social media have come to re-invent the forms and functions of the music video well beyond the limits of music television.

Theorizing Music Videos of the Late 2010s Leo Feisthauer, 2022-03-30 The work formulates a status quo of the music video medium in the late 2010s and shows which trends, aesthetics, and new standards have established themselves. Particularly, the role of the prosumer amidst evolved technical conditions is highlighted in this context, which strongly influences the evolution of music video in this period. Moreover, the author understands music videos as socio-political actors and examines the resulting questions of their interaction with culture.

The Oxford Handbook of Film Music Studies David Neumeyer, 2014 The Oxford Handbook of Film Music Studies gathers two dozen original essays that chart the history and current state of interdisciplinary scholarship on music in audiovisual media, focusing on four areas: history, genre, and medium analysis, and criticism and interpretation.
