Representations of Early Byzantine Empresses A. McClanan,2016-04-30 This book reconsiders a wide array of images of Byzantine empresses on media as diverse as bronze coins and gold mosaic from the fifth through to the seventh centuries A D The representations have often been viewed in terms of individual personas but strong typological currents frame their medieval context Empress Theodora the target of political pornography has consumed the bulk of past interest but even her representations fit these patterns Methodological tools from fields as disparate as numismatics as well as cultural and gender studies help clarify the broader cultural significance of female imperial representation and patronage at this time

Bird Migration Eberhard Gwinner,2012-12-06 E GWINNER The phenomenon of bird migration with its large scale dimensions has attracted the attention of naturalists for centuries Worldwide billions of birds leave their breeding grounds every autumn to migrate to areas with seasonally more favorable conditions Many of these migrants travel only over a few hundred kilo meters but others cover distances equivalent to the circumference of the earth Among these long distance migrants are several billion birds that invade Africa every autumn from their West and Central Palaearctic breeding areas In the Americas and in Asia the scope of bird migration is of a similar magnitude Just as impressive as the numbers of birds are their achievements They have to cope with the enormous energetic

costs of long distance flying particularly while crossing oceans and deserts that do not allow replenishment of depleted fat reserves They have to appropriately time the onset and end of migrations both on a daily and annual basis And finally they have to orient their migratory movements in space to reach their species or population specific wintering and breeding grounds irrespective of the variable climatic conditions along their migratory routes **Walker Evans** Judith

Keller,1995-11-02 Walker Evans is widely recognized as one of the greatest American photographers of the twentieth century and the J Paul Getty Museum owns one of the most comprehensive collections of his work including more of his vintage prints than any other museum in the world This lavishly illustrated volume brings together for the first time all of the Museum s Walker Evans holdings Included here are familiar images such as Evans s photographs of tenant farmers and their families made in the 1930s and later published in *Let Us Now Praise Famous Men* and images that are much less familiar such as the photographs Evans made in the 1940s of the winter quarters of the Ringling Brothers circus or his very late Polaroids made in the 1970s In addition many previously unpublished Evans photographs and variant croppings of classic images appear here for the first time Author Judith Keller has written a lively informative text that places these photographs in the larger context of Evans s life and career and the culture especially the popular culture of the time In so doing she has produced an indispensable volume for anyone interested in the history of photography or American culture in the twentieth century Also included is the most comprehensive bibliography on Walker Evans published to date **Billboard** ,1958-04-21 In its 114th
