Seeds of Famine Richard W. Franke,1992-12-03 SCOTT copy 2 From the John Holmes Library Collection *Seeds of Exchange* Maria Fedorova,2025-08-15 *Seeds of Exchange* examines the US and Soviet exchange of agricultural knowledge and technology during the interwar period Maria Fedorova challenges the perception of the Soviet Union as a passive recipient of American technology and expertise She reveals the circular nature of this exchange through official government bureaus amid anxious farmers in crowded auditoriums in cramped cars across North Dakota and Montana and by train over the once fertile steppes of the Volga Amid the post World War I food insecurity Soviet and American agricultural experts relied on transnational networks bridging ideological differences As Soviets traveled across the US agricultural regions and Americans plowed steppes in the southern Urals and the lower Volga both groups believed that innovative solutions could be found beyond their own national borders Soviets were avidly interested in American technology and American agricultural experts perceived the Soviet Union to be an ideal setting for experimenting with and refining modern farm systems and organizational practices As *Seeds of Exchange* shows agricultural modernization was not the exclusive domain of Western countries Censored 2001 Peter Phillips,Project Censored,2001-04-03 The yearly volumes of *Censored* in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories Beyond the Top 25 stories additional chapters delve further into timely media topics The *Censored News and Media Analysis* section provides annual updates on Junk Food News and News Abuse *Censored* D j Vu signs of hope in the alternative and news media and the state of media bias and alternative coverage around the world In the *Truth Emergency* section scholars and journalists take a critical look at the US NATO military industrial media empire And in the *Project Censored International* section the meaning of media democracy worldwide is explored in close association with *Project Censored* affiliates in universities and at media organizations all over the world A perennial favorite of booksellers teachers and readers everywhere *Censored* is one of the strongest life signs of our current collective desire to get the news we citizens need despite what Big Media tells us **The Tropical Agriculturalist** ,1908 **The Oxford Companion to Global Change** David J. Cuff,2008 In recent years global change has become increasingly important in technological ecological and political spheres This companion examines the environmental events of recent times and investigates long term trends as well as broader issues of global change **Seeds** Carolyn Fry,2016-04-05 From the magnificence of a towering redwood to the simple elegance of a tiny dandelion seed bearing plants abound on planet Earth The sheer diversity of plants thriving today is largely thanks to the evolution of the seed as this made plants resilient to environmental changes by enabling them to await optimum conditions for growth before

springing to life In a time of declining biodiversity studying seeds is now helping scientists preserve this plant diversity for future generations With *Seeds* Carolyn Fry offers a celebration of these vital but unassuming packages of life She begins with a sweeping tour through human history designed to help us understand why we should appreciate and respect these floral parcels Wheat corn and rice she reminds us supply the foundations of meals eaten by people around the world Countless medicines oils clothing materials and building supplies are available only because of the versatility and variety of seed bearing plants Fry then provides a comprehensive history of the evolution of seeds explaining the myriad ways that they have adapted survived and thrived across the globe Delving deeper into the science of seeds she reveals the fascinating processes of dormancy reproduction germination and dispersal and showcases the estimable work conservationists are doing today to gather and bank seeds in order to prevent species from going extinct Enriched by a stunning array of full color images *Seeds* offers a comprehensive exploration of some of the most enduring and essential players in the natural world **The**

**Accidental Seed Heroes** Adam Alexander, 2025-09-02 A special important book of hope action and integrity Mark Diacono food and garden writer After reading Adam's book I won't look at a handful of seed the same way again Joe Swift garden designer writer presenter BBC's *Gardeners World* Across the world chefs farmers plant scientists and backyard growers are doing something extraordinary creating new generations of fruit vegetables and cereals all bred specifically to flourish locally taste delicious and contribute to our food future In *The Accidental Seed Heroes* Adam Alexander dons his seed detective homburg to meet these twenty first century seed heroes who are not only championing traditional varieties but also breeding delicious new ones that will help create a sustainable future for our planet We don't all need to become backyard breeders or even like Adam accidental ones We don't even need to eschew as growers the modern hybrid cultivars our seed catalogues are stuffed with or as consumers boycott those same uninspiring specimens that populate our supermarket shelves Adam just wants that choice to be better informed and infinitely more diverse and enjoyable This story is a celebration of the locally and sustainably grown produce whether traditional or innovative that is at the heart of all our food cultures and empowers our rural communities and farmers Adam believes these new varieties of fruits vegetables and even grains will not just offer us all nutritious and delicious food but also be part of the solution to combating climate change and returning fertility to our soils and biodiversity to our land Seeds, 1946 **An Economic History of Famine Resilience** Jessica Dijkman, Bas van Leeuwen, 2019-09-18 Food crises have always tested societies This volume discusses societal resilience to food crises examining the responses and strategies at the societal level that effectively helped individuals and groups to cope with drops in food supply in various parts of the world over the past two millennia Societal responses can be coordinated by the state the market or civil society Here it is shown that it was often a combined effort but that there were significant variations between regions and periods The long term comparative perspective of the volume brings out these variations explains them and discusses their effects on societal resilience This book will be of interest to advanced students and researchers across
