Seeing And Believing

Norah McClintock

Seeing And Believing:

Seeing Is Believing Gregory A. Boyd, 2004-04-01 One of the most common problems with Christians in our modern secularized world is that they don't feel the reality of Jesus. Sure they believe in him and love him but he somehow doesn't seem to enter their daily lives in a real sense. Some might say You ought to pray more. Others would advise You ought to witness more. While this may be true we don't get closer to God just because we ought to. Boyd believes that the way to true spiritual transformation and feeling the presence of God in your life comes from a little R and R rest and reality. Boyd encourages readers to stop striving and learn to rest in an experience of Jesus as real. The best way to do this he says is through imaginative prayer. Experiencing Jesus will teach readers how to use God's gracious gift of creative imagination to know him better and feel his presence in their daily lives.

Seeing and Believing Margaret Ruth Miles, 1997-09-04 Enriched by a cultural studies approach, a deep understanding of religion and history, and a love for the movies, *Seeing and Believing* explores what popular films of the 1980s and 1990s say about religion and the values by which we live.

Seeing and Believing Ellen T. Armour, 2023-07-04 Social media platforms are often denounced as bubbles or echo chambers. In this view, what we see tends to reinforce what we already believe, and what we already believe shapes what we see. Yet social movements such as Black Lives Matter rely heavily on the widespread dissemination of digital photographs and videos through social media. In at least some cases, visual images can challenge normative and normalized ways of grasping the world and prompt their viewers to see differently and even bring people together. *Seeing and Believing* marshals religious resources to recast the significance of digital images in the struggle for social justice. Ellen T. Armour examines what distinguishes digital photography from its analogue predecessor and places the circulation of digital images in the broader context of virtual visual cultures. She explores the challenges and opportunities that visually saturated social media landscapes present for users and organizers. Despite the power of digital platforms and algorithms, possibilities for disruption and resistance emerge from how people engage with these systems. Armour offers ways of seeing drawn from Christianity and found in other religious traditions to help us break with entrenched habits and rethink how we engage with the images that grab our attention. Developing theological perspectives on the power and peril of photography and technology, *Seeing and Believing* provides suggestions for navigating the new media landscape that can spark what Armour calls photographic insurrection.

Seeing and Believing Norah McClintock, 2024-11-01 Vin swears he had nothing to do with the robbery or the two people who were shot. But Sal saw Vin running from the scene. Even after Vin is arrested, Mike isn't sure who to believe. He's caught between his two friends and believing one might mean losing the other.

Seeing Is Believing Richard Vance Goodwin, 2022-07-19 In this study in IVP Academic's STA series, theologian Richard Goodwin considers how the images that constitute film might be a conduit of God's revelation. By considering works by Stanley Kubrick, Martin Scorsese, Terrence Malick, and more, Goodwin argues that by inviting emotional responses, film images can be a medium of divine revelation.

Seeing and Believing Stuart C. Devenish, 2012-05-23 In a cinematic culture where multiple visions of reality play at the same time it is critical that Christian believers know how to confidently identify and discern among other stories the Jesus story that defines their most important commitment in life Using the optical metaphor of the eye of faith the author identifies the spiritual life as a visual life Through themes such as looking through Jesus eyes the bible as a visionary text and the church as a wide eyed people he builds a connecting bridge between the seeing soul in Christian spirituality and the twenty first century as the age of the eye The key words for this exploration are spirituality discipleship insight luminescence and optical therapy The author proposes the need for a catechism of the eye that will lead to the renewal of Christian ministry spirituality discipleship and identity

Believing Is Seeing Michael Guillen, PhD, 2021-09-07 Is your worldview enlightened enough to accommodate both science and God at the same time Dr Michael Guillen a best selling author Emmy award winning journalist and former physics instructor at Harvard used to be an Atheist until science changed his mind Once of the opinion that people of faith are weak small minded folks who just don t understand science Dr Guillen ultimately concluded that not only does science itself depend on faith but faith is actually the mightiest power in the universe In *Believing Is Seeing* Dr Guillen recounts the fascinating story of his journey from Atheism to Christianity pulling back the curtain on the mystery of faith as no one ever has by citing the latest discoveries in Neuroscience Physics Astronomy Mathematics Is it true that seeing is believing Or is it possible that reality can be perceived most clearly and logically through the eyes of faith and religion and that truth is bigger than proof Let Dr Guillen be your apologetics guide as he brilliantly argues for a large and enlightened worldview consistent with both God and modern science

The Matrix and Philosophy William Irwin,2002 Presents essays exploring the philosophical themes of the motion picture The Matrix which portrays a false world created from nothing but perceptions *Anatomy of Spirituality: Portrait of the Soul* Chander Behl,2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain s biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul
