

Alternative Politics, Political Alternatives, and Innovative Social Change in Nigeria

Being Text of a Keynote Address Delivered by HE Dr Kayode Fayemi, CON, at the Conference on Redesigning Democracy Held at the University of Oxford on Thursday 20 October, 2022.

Protocols

Let me first and foremost thank the organisers of this conference for the kind invitation extended to me to be part of the proceedings. In effect, this will be my first substantive engagement in the few days since I handed over the baton of leadership in Ekiti State and the Nigeria Governors' Forum. Although much more time is needed for me to process the totality of my experience for the purpose of informing our collective understanding of power and politics in contemporary Nigeria, and despite my urgent personal need for a quality holiday, I welcomed your invitation as an early opportunity to contribute to ongoing reflections about the need to rethink democracy generally and, more specifically, our framing of alternatives in the administration of public affairs in Nigeria and, indeed, around the world.

My point of departure is to suggest that while there is no doubt that alternatives are a necessary, and even an inevitable component, of any living political system, it is important that as scholars and practitioners, we strive also at all times to demystify them from the excessive air of drama and circumstance in which they tend to be wrapped in scholarly discourses. This is for the simple reason that alternatives exist and are mobilised everyday and at all levels as part of our experiences of governance. In other words, alternatives, understood generally as encompassing forward-looking vision and practice that depart from a dominant but problematic and/or contested norm, are an integral part of everyday politics - and, indeed, all spheres of human endeavour.

Although they are fired by an admixture of vision, passion, and necessity, and, in highly repressive political contexts, would require to be pursued with courage and sacrifice, alternatives are also played out simultaneously at multiple levels - micro, meso, and macro. Additionally, they are carried by different actors - big and small, formal and informal, and domestic and external. Alternatives also manifest and are

Seeing Beyond Personal Social And Political Alternatives:

Seeing Beyond--personal, Social, and Political Alternatives, 1971 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1973 **Socialism the Active Utopia (Routledge Revivals)** Zygmunt Bauman, 2009-11-18 Rather than contributing to the long standing discussion about the characteristics of the society that socialism proposes to establish this Routledge Revival initially published in 1976 aims to explore the impact of the living utopia of socialism on the development of modern society It begins with an analysis of the role of utopia in general and of the socialist utopia in particular Bauman considers the opposition between utopian and scientific social thought He presents socialism as the counter culture of capitalist society The book finally examines the reasons for the failure of socialism in its application to the peasant revolution in Russia It then explores some possible forms that the socialist utopia might take in the industrial societies of the late twentieth century Professor Bauman writes for those who want to understand the logic of the historical fate of socialism in the present century who are concerned about the validity and vitality of socialist ideas on the development of modern society and who are interested and perhaps confused by the cultural and ideological conflicts of the last few decades *Societal Directions and Alternatives* Michael Marien, 1976 **Planning Alternative World Futures** Louis René Beres, Harry R. Targ, 1975 Addresses the concept and design of alternative futures for such urgent world problems as international and national security systems populations diminishing natural resources environmental deterioration and the widening gap between rich and poor Cover 4 The Social Brain Sal Restivo, 2023-01-09 The Social Brain Sociological Foundations introduces the concept of the social brain including a detailed conceptual model of the social brain networked in the world The idea that our brains are social has its roots in nineteenth century social thought and primate research initiated in the 1950s It was introduced into the neuroscience literature in 1990 as a challenge to the traditional view of the isolated bio medical brain a view that still dominates the scientific media and public imaginations Sal Restivo s foundational thesis is that humans arrive on the evolutionary stage always already and everywhere social We have social selves social brains and social genes He argues the I is a grammatical illusion reflecting the myth of individualism The unique feature of this book is the amount of space devoted to constructing the sociological scaffolding needed to understand what the author means by the social self the social mind and the social brain The approach leads to new ways of thinking about socialization consciousness and creativity as networked phenomena The result is a novel way of integrating the social self the biological self and the neurological self and erasing the classical boundaries between brain mind and body **Iran's Struggles for Social Justice** Peyman Vahabzadeh, 2016-12-20 This interdisciplinary volume offers a range of studies spanning the various historical political legal and cultural features of social justice in Iran and proposes that the present day realities of life in Iran could not be farther from the promises of the Iranian Revolution The ideals of social justice and participatory democracy that galvanized a resilient nation in 1979 have been abandoned as an avaricious ruling elite has

privatized the economy abandoned social programs and subsidy payments for the poor and suppressed the struggles of women workers students and minorities for equality At its core Iran's Struggles for Social Justice seeks to educate and to develop a new discourse on social justice in Iran *The Winter of Discontent* Tara Martin López, 2014 A reassessment of the myth of the British Winter of Discontent 1978-79 from the perspective of those involved in particular grassroots activists and the growing number of female activists

The Routledge Companion to Alternative and Community Media Chris Atton, 2015-05-15 The Routledge Companion to Alternative and Community Media provides an authoritative and comprehensive examination of the diverse forms practices and philosophies of alternative and community media across the world The volume offers a multiplicity of perspectives to examine the reasons why alternative and community media arise how they develop in particular ways and in particular places and how they can enrich our understanding of the broader media landscape and its place in society The 50 chapters present a range of theoretical and methodological positions and arguments to demonstrate the dynamic challenging and innovative thinking around the subject locating media theory and practice within the broader concerns of democracy citizenship social exclusion race class and gender In addition to research from the UK the US Canada Europe and Australia the Companion also includes studies from Colombia Haiti India South Korea and Zimbabwe enabling international comparisons to be made and also allowing for the problematisation of traditional often Western approaches to media studies By considering media practices across a range of cultures and communities this collection is an ideal companion to the key issues and debates within alternative and community media

The Political Power of Economic Ideas Peter A. Hall, 2020-11-10 John Maynard Keynes once observed that the ideas of economists and political philosophers both when they are right and when they are wrong are more powerful than is commonly understood The contributors to this volume take that assertion seriously In a full scale study of the impact of Keynesian doctrines across nations their essays trace the reception accorded Keynesian ideas initially during the 1930s and then in the years after World War II in a wide range of nations including Britain the United States France Germany Italy Japan and Scandinavia The contributors review the latest historical evidence to explain why some nations embraced Keynesian policies while others did not At a time of growing interest in comparative public policy making they examine the central issue of how and why particular ideas acquire influence over policy and politics Based on three years of collaborative research for the Social Science Research Council the volume takes up central themes in contemporary economics political science and history The contributors are Christopher S Allen Marcello de Cecco Peter Alexis Gourevitch Eleanor M Hadley Peter A Hall Albert O Hirschman Harold James Bradford A Lee Jukka Pekkarinen Pierre Rosanvallon Walter S Salant Margaret Weir and Donald Winch

Honoring Identities Donna L. Miller, 2021-02-15 Honoring Identities argues that creating culturally responsive learning communities is a process which begins with building community cultivating certain student and teacher dispositions nurturing social justice leveraging

the power of talk and dialogic exchange using Cultural Identity Literature CIL to build bridges and to normalize difference and fostering a culture of civil discourse Honoring Identities provides both theory and practice to advance the important mission of building culturally responsive mindsets and to ensure that all students feel like they have a place at the learning table CIL reflects and honors the lives of all young people and GREEN APPLE questions focus their reading on key facets of identity multiplying the effectiveness of the reading experience GREEN APPLE questions also provide a lens for anyone else wishing to select CIL The questions not only illuminate different perspectives of a text but make readers aware that individual experiences color the reading of a text

Challenging the Politics of Early Intervention Gillies, Val, Edwards, Rosalind, Nicola Horsley, 2017-08-23 So often the ills of society are blamed on negligent parenting leading to the development of social service policies built around the concept of early intervention Interrogating this concept this book explores the history of our understanding of children family and parenting and its implications for society With a particular focus on the intersection of brain science and social policy the authors challenge our long held consensus on early intervention Accessibly written and highly topical *Challenging the Politics of Early Intervention* is a comprehensive and critical essay of our contemporary belief that so called bad parents raise substandard future citizens unfit for the new capitalism

Alternative Leadership Strategies in the Prehispanic Southwest Barbara J. Mills, 2015-09-01 In considerations of societal change the application of classic evolutionary schemes to prehistoric southwestern peoples has always been problematic for scholars Because recent theoretical developments point toward more variation in the scale hierarchy and degree of centralization of complex societies this book takes a fresh look at southwestern prehistory with these new ideas in mind This is the first book length work to apply new theories of social organization and leadership strategies to the prehispanic Southwest It examines leadership strategies in a number of archaeological contexts from Chaco Canyon to Casas Grandes from Hohokam to Zuni to show striking differences in the way that leadership was constructed across the region These case studies provide ample evidence for alternative models of leadership in middle range societies By illustrating complementary approaches in the study of political organization they offer new insight into power and inequality They also provide important models of how today's archaeologists are linking data to theory providing a basis for comparative analysis with other regions
