Supreme Court. Records and Briefs California (State)., Number of Exhibits 1_x000D_ Court of Appeal Case s B033163 *Scapegoating* Maurizio Catino, 2023-06-15 A large cruise ship sinks after hitting some outcropping rocks near the shore Who is to blame In the face of negative events accidents corporate scandals crises and bankruptcies there are two organizational strategies for managing blame The first is to take full responsibility for the event and to implement adequate corrective measures The second is to create one or more scapegoats by transferring blame to some of the people directly involved in the event In this way the organization can appear blameless and avoid costly remedial interventions Reappraising the Costa Concordia shipwreck and other well known cases Catino analyzes the processes and mechanisms behind creating the organizational scapegoat In doing so Catino highlights the limits of explanations centered on guilt and individual solutions to organizational problems and underlines the need for a different civic epistemology *Historic Documents of 2015* Heather Kerrigan, 2016-06-24 For more than 40 years the *Historic Documents* series has made primary source research easy by presenting excerpts from documents on the important events of each year for the United States and the World Each volume includes 60 to 70 events with well over 100 documents from the previous year from official reports and surveys to speeches from leaders and opinion makers to court cases legislation testimony and much more *Historic Documents* is renowned for the well written and informative background history and context it provides for each document Each volume begins with an insightful essay that sets the year s events in context and each document or group of documents is preceded by a comprehensive introduction that provides background information on the event Full source citations are provided Readers have easy access to material through a detailed thematic table of contents and each event includes references to related coverage and documents from the last ten editions of the series Harper's Weekly John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton

McClellan Harvey, Norman Hapgood, 1903 **Bulletin** , 1899 *The Uncontrollability of the World* Hartmut Rosa, 2020-10-06 The driving cultural force of that form of life we call modern is the desire to make the world controllable Yet it is only in encountering the uncontrollable that we really experience the world only then do we feel touched moved and alive A world that is fully known in which everything has been planned and mastered would be a dead world Our lives are played out on the border between what we can control and that which lies outside our control But because we late modern human beings seek to make the world controllable we tend to encounter the world as a series of objects that we have to conquer master or exploit And precisely because of this life the experience of feeling alive and truly encountering the world always seems to elude us This in turn leads to frustration anger and even despair which then manifest themselves in among other things acts of impotent political aggression For Rosa to encounter the world and achieve resonance with it requires us to be open to that which extends beyond our control The outcome of this process cannot be predicted and this is why moments of resonance are always concomitant with moments of uncontrollability This short book the sequel to Rosa's path breaking work on social acceleration and resonance will be of great interest students and scholars in sociology and the social sciences and to anyone concerned with the nature of modern social life *Democracy's Think Tank* Brian S. Mueller, 2021-07-02 This book is an institutional history of the Institute for Policy Studies one of the first Washington DC think tanks and a model for other think tanks The founders intended IPS to be a clearinghouse of information for activists outside DC that would help them do their work **Congressional Record** United States. Congress, 1966 **The Saga of Grettir the Strong** , 2005-05-26 Composed at the end of the fourteenth century by an unknown author The Saga of Grettir the Strong is one of the last great Icelandic sagas It relates the tale of Grettir an eleventh century warrior struggling to hold on to the values of a heroic age becoming eclipsed by Christianity and a more pastoral lifestyle Unable to settle into a community of farmers Grettir becomes the aggressive scourge of both honest men and evil monsters until following a battle with the sinister ghost Glam he is cursed to endure a life of tortured loneliness away from civilisation fighting giants trolls and berserks A mesmerising combination of pagan ideals and Christian faith this is a profoundly moving conclusion to the Golden Age of the saga writing **The Ethics of Plea Bargaining** Richard L. Lippke, 2011 The practice of plea bargaining plays a hugely significant role in the adjudication of criminal charges and has provoked intense debate about its legitimacy This book offers the first full length philosophical analysis of the ethics of plea bargaining It develops a sustained argument for restrained forms of the practice and against the free wheeling versions that predominate in the United States In countries that have endorsed plea bargains such as the United States upwards of ninety percent of criminal defendants plead guilty rather than go to trial Yet trials which grant a presumption of innocence to defendants and place a substantial burden of proof on the state to establish guilt are widely regarded as the most appropriate mechanisms for fairly and accurately assigning criminal sanctions How is it that many countries have abandoned the formal rules and rigorous standards of public

trials in favor of informal and veiled negotiations between state officials and criminal defendants concerning the punishment to which the latter will be subjected More importantly how persuasive are the myriad justifications that have been provided for plea bargaining These are the questions addressed in this book Examining the legal processes by which individuals are moved through the criminal justice system the fairness of those processes and the ways in which they reproduce social inequality this book offers an ethical argument for restrained forms of plea bargaining It also provides a comparison between the different plea bargaining regimes that exist within the US where it is well established England and Wales where the practice is coming under considerable critique and the European Union where debate continues on whether it coheres with inquisitorial legal regimes It suggests that rewards for admitting guilt are distinguished from penalties for exercising the right to trial and argues for modest fixed sentence reductions for defendants who admit their guilt These suggestions for reform include discouraging the current practice of deliberate over charging by prosecutors and charge bargaining and require judges to scrutinize more closely the evidence against those accused of crimes before any guilty pleas are entered by them Arguing that the negotiation of charges and sentences should remain the exception not the rule it nevertheless puts forward a normative defense for the reform and retention of the plea bargaining system **The Moral World of the Law**
