Boursier, 2019-11-19 Told through heart wrenching testimonies photographs and artwork of refugees fleeing their homelands Desperately Seeking Asylum

describes firsthand accounts of the harrowing and dangerous journey immigrants are willing to endure knowing that they might not even make it onto US soil. *Desperately Seeking Asylum* prioritizes the testimonies of refugee families and unaccompanied children who are seeking asylum in the United States from Central America primarily Guatemala, El Salvador and Honduras. Their desperate and heart wrenching stories disclose why they fled their homelands, their experiences along the treacherous overland journey and the harsh reality of how the United States treats these families and children upon arrival to the United States. It critiques US complicity to the violence they are fleeing and discloses how national leadership shapes US immigration policies and practices, including the blatant documented violations against asylum seekers at the US Mexico border. Most notably, it offers transparency on US immigration practices at the US Mexico border which violate existing US and international laws that are intended to protect asylum seekers, including the current official practice of blocking bridges with turnbacks to prevent inadmissibles from applying for asylum in the United States. It explains protections mandated by US law for unaccompanied children who are in US custody and discloses violations which keep these children detained excessive lengths of time in substandard for-profit facilities which are overseen by the government and funded by taxpayers. Boursier also deconstructs the complicated asylum process, including examining the credible fear for asylum procedure, showing how technical terms and language are used to justify injustice at the border. *Desperately Seeking Asylum* offers hope for a new vision with alternative options and practical actions which assist migrants through humanitarian aid on both sides of the border. The witness for compassionate and responsible response by people of conscience becomes an antidote to injustice against asylum seekers. Instead of the current administration manipulating US laws to support its ulterior motives and political agenda, Boursier asks readers to hold US elected officials accountable to the same Rule of Law that the United States demands of refugees. Ultimately, Boursier suggests a spectrum of options for practical ways to make the political personal through public witness and civic engagement to transform the broken immigration process for refugees who are desperately seeking asylum.

Seeking Asylum in the European Union Céline Bauloz, Meltem Ineli-Ciger, Sarah Singer, Vladislava Stoyanova, 2015-05-19. Seeking asylum in the European Union. EU today is as complex as the EU asylum system itself; the different forms of protection that exist do not remain easily accessible and are sometimes not tailored to the specific protection needs of asylum seekers. The aim of this volume is to provide critical analyses of selected problems that scholars and policy makers will have to address in the second phase of the Common European Asylum System. A broad range of issues are examined relating to access to and qualification for international protection and the further problems raised by this amended set of asylum instruments which continue to impede asylum seekers from benefiting from effective protection in EU Member States. With a foreword by Professor H. L. Lambert.

Seeking Asylum Alone Mary Crock, 2006. Unaccompanied and separated children continue to be caught up in programs to deflect unauthorised Australian boat arrivals to offshore processing centres. If such children do make it to Australia, the processes for identifying children

travelling alone are inadequate with too much reliance placed on the self identification of such children No child victim of trafficking has been identified in Australia since 1994 Australia s refugee status determination system was established with adult asylum seekers as the norm Children face obvious disadvantage in both articulating their story and in being heard At the crucial first point of contact with authorities children are required to articulate their need for protection without either an advisor or an effective guardian Case studies of children within the asylum process also suggest that immigration officials and officials at appellate level have been poorly trained and have lacked the skills to deal with child asylum seekers with appropriate sensitivity Another barrier faced by these children is legal questions remain as to how well the international definition of refugee has been read to accommodate the particular experiences of children It is hoped that this report will encourage Australian officials to think seriously about children as refugees in their own right most particularly when the children are travelling alone This Report was funded by the MacArthur Foundation Chicago the Australian Research Council and the Myer Foundation Also available Seeking Asylum Alone A Comparative Study Unaccompanied and Separated Children and Refugee Protection in Australia the UK and the US by Jacqueline Bhabha and Mary Crock

Impoverishment and Asylum Lucy Mayblin, 2019-11-27 Impoverishment and Asylum argues that a shift has taken place in recent decades towards construing asylum as primarily a political and or humanitarian phenomenon to construing it as primarily an economic phenomenon and that this shift has had led to the purposeful impoverishment by the state of people seeking asylum in the UK This shift has far reaching consequences for people seeking asylum who have been systematically impoverished as part of the effort to strip out any possibility of an economic pull factor leading to more arrivals but also for those administering their support system and for civil society organisations and groups who seek to ameliorate the worst effects of the resulting asylum regimes This book argues that within this context asylum support policies in the UK which are meant to help and protect in fact do serious harm to their recipients It argues that the shift from construing asylum seekers as economically rather than politically motivated migrants across the West is part of a much broader set of historical and philosophical worldviews than has previously been articulated The book offers a rigorously researched and richly theorised analysis drawing on postcolonial and decolonial perspectives in making sense of the purposeful impoverishment by the state of a particular group of people and why this continues to be tolerated in the fourth richest country in the world
