Seership The Magnetic Mirror 1896:

Seership! the Magnetic Mirror Paschal Beverly Randolph, 2014-03-29 This Is A New Release Of The Original 1896 Edition Hoodoo, Voodoo, and Conjure Jeffrey E. Anderson, 2008-10-30 Hoodoo voodoo and conjure are part of a mysterious world of African American spirituality that has long captured the popular imagination These magical beliefs and practices have figured in literary works by such authors as Toni Morrison Alice Walker and Ishmael Reed and they have been central to numerous films such as The Skeleton Key Written for students and general readers this book is a convenient introduction to hoodoo voodoo and conjure The volume begins by defining and classifying elements of these spiritual traditions It then provides a wide range of examples and texts which illustrate the richness of these beliefs and practices It also examines the scholarly response to hoodoo voodoo and conjure and it explores the presence of hoodoo voodoo and conjure in popular culture The volume closes with a glossary and bibliography Students in social studies classes will use this book to learn more about African American magical beliefs while literature students will enjoy its exploration of primary sources and literary works **Voodoo** Jeffrey E. Anderson, 2024-03-20 Despite several decades of scholarship on African diasporic religion Voodoo remains underexamined and the few books published on the topic contain inaccuracies and outmoded arguments In Voodoo An African American Religion Jeffrey E Anderson presents a much needed modern account of the faith as it existed in the Mississippi River valley from colonial times to the mid twentieth century when he argues it ceased to thrive as a living tradition Anderson provides a solid scholarly foundation for future work by systematizing the extant information on a religion that has long captured the popular imagination as it has simultaneously engendered fear and ridicule His book stands as the most complete study of the faith yet produced and rests on more than two decades of research utilizing primary source material alongside the author's own field studies in New Orleans Haiti Cuba Senegal Benin Togo and the Republic of Congo The result serves as an enduring resource on Mississippi River valley Voodoo Louisiana and the greater African Diaspora Inhaling Spirit Anya P. Foxen, 2020-03-02 Recent scholarship has shown that modern postural yoga is the outcome of a complex process of transcultural exchange and syncretism This book doubles down on those claims and digs even deeper looking to uncover the disparate but entangled roots of modern yoga practice Anya Foxen shows that some of what we call yoga especially in North America and Europe is genealogically only slightly related to pre modern Indian yoga traditions Rather it is equally if not more so grounded in Hellenistic theories of the subtle body Western esotericism and magic pre modern European medicine and late nineteenth century women's wellness programs The book begins by examining concepts arising out of Greek philosophy and religion including Pythagoreanism Stoicism Neo Platonism Galenic medicine theurgy and other cultural currents that have traditionally been categorized as Western esotericism as well as the more recent examples which scholars of American traditions have labeled metaphysical religion Marshaling these under the umbrella category of harmonialism Foxen argues that they represent a history of practices that were gradually

subsumed into the language of yoga Orientalism and gender become important categories of analysis as this narrative moves into the nineteenth century Women considerably outnumber men in all studies of yoga except those conducted in India and modern anglophone yoga exhibits important continuities with women s physical culture feminist reform and white women s engagement with Orientalism Foxen s study allows us to recontextualize the peculiarities of American yoga its focus on aesthetic representation its privileging of bodily posture and unsystematic incorporation of breathwork and above all its overwhelmingly white female demographic In this context it addresses the ongoing conversation about cultural appropriation within the yoga community

Borderland William Thomas Stead,1896 *The Routledge Research Companion to Nineteenth-Century British Literature and Science* John Holmes,Sharon Ruston,2017-05-18 Tracing the continuities and trends in the complex relationship between literature and science in the long nineteenth century this companion provides scholars with a comprehensive authoritative and up to date foundation for research in this field In intellectual material and social terms the transformation undergone by Western culture over the period was unprecedented Many of these changes were grounded in the growth of science Yet science was not a cultural monolith then any more than it is now and its development was shaped by competing world views To cover the full range of literary engagements with science in the nineteenth century this companion consists of twenty seven chapters by experts in the field which explore crucial social and intellectual contexts for the interactions between literature and science how science affected different

genres of writing and the importance of individual scientific disciplines and concepts within literary culture Each chapter has its own extensive bibliography The volume as a whole is rounded out with a synoptic introduction by the editors and an afterword by the eminent historian of nineteenth century science Bernard Lightman **Subject Index of the Modern**
