Seguridad Nacional Hoy:

Borderlands Emmanuel Brunet-Jailly, 2007-05-05 Border security has been high on public policy agendas in Europe and North America since the September 11 2001 attacks on the World Trade Centre in New York City and on the headquarters of the American military in Washington DC Governments are now confronted with managing secure borders a policy objective that in this era of increased free trade and globalization must compete with intense cross border flows of people and goods Border security policies must enable security personnel to identify or filter out dangerous individuals and substances from among the millions of travelers and tons of goods that cross borders daily particularly in large cross border urban regions This book addresses this gap between security needs and an understanding of borders and borderlands Specifically the chapters in this volume ask policy makers to recognize that two fundamental elements define borders and borderlands first human activities the agency and agent power of individual ties and forces spanning a border and second the broader social processes that frame individual action such as market forces government activities law regulations and policies and the regional culture and politics of a borderland Borders emerge as the historically and geographically variable expression of human ties exercised within social structures of varying force and influence and it is the interplay and interdependence between people's incentives to act and the surrounding structures i.e. constructed social processes that contain and constrain individual action that determine the effectiveness of border security policies This book argues that the nature of borders is to be porous which is a problem for security policy makers It shows that when for economic cultural or political reasons human activities increase across a border and borderland governments need to increase cooperation and collaboration with regard to security policies if only to avoid implementing mismatched security policies Published in English **El rompecabezas de la violencia política** Daniel Sansó-Rubert Pascual, 2024-01-11 *Historiofagia* Damian Arias - Matos, 2012-05 Esta compilación de artículos que fueron publicados por el autor en los diarios La Información de Santiago Diario Libre y en Clave Digital entre Julio de 2007 hasta la desaparición de este último en Agosto de 2010 contiene una selección de temas nacionales e internacionales **LatinoLand (Spanish Edition)** Marie Arana, 2025-01-21 Perfecta representación de la diversidad latina The Washington Post LatinoLand se nutre de cientos de entrevistas y de una prodigiosa investigación para ofrecernos tanto un vibrante retrato como la poco conocida historia de nuestra minoría más numerosa y de más rápido crecimiento en una obra de profecía simpática y coraje Junot Díaz autor ganador del Premio Pulitzer LatinoLand constituye una excepcional y completa panorámica de la América hispana basada en entrevistas personales una profunda investigación y la experiencia vital de Marie Arana como latina Hoy en día los latinos representan el veinte por ciento de la población de Estados Unidos cifra que sigue en aumento Para 2050 los informes del censo prevén que uno de cada tres estadounidenses ser de ascendencia latina Pero los latinos no son un monolito No representan a un único grupo Los más numerosos son los mexicanos puertorriqueños dominicanos salvadoreños y cubanos Cada uno tiene un trasfondo cultural y político diferente Los

puertorriqueos por ejemplo son ciudadanos estadounidenses mientras que algunos mexicanos estadounidenses nunca emigraron debido a que la frontera entre Estados Unidos y México se desplazó tras la invasión estadounidense de 1848 incorporando lo que hoy es todo el suroeste de Estados Unidos. Los cubanos llegaron en dos grandes oleadas: la de quienes escaparon del comunismo en los primeros años de Castro, muchos de los cuales eran profesionales y ricos, y la de los que salieron con permiso en el exodo del Mariel, veinte años después que representaban a algunos de los cubanos más pobres, incluso los presos. Como lo muestra LatinoLand, los latinos fueron de los primeros inmigrantes que llegaron a lo que hoy es Estados Unidos, algunos en el siglo XVI. Racialmente son diversos, una mezcla aleatoria de blancos, negros, indígenas y asíáticos. Algunas veces abrumadoramente católicos, entre ellos hay cada vez más protestantes y evangélicos. Abarcan desde empleadas domésticas y jornaleros hasta artistas de éxito, directivos de empresas y senadores estadounidenses. Antes demócratas en su mayoría, ahora votan cada vez más por los republicanos. En lo cultural son tan variados como cualquier inmigrante de Europa o Asia.
