From Tarzan to Homer Simpson Sócrates Nolasco,2017-06-09 Men have lower life expectancy than women they account for 90% of the incarcerated population they die more often in traffic accidents from alcohol and drug consumption and they commit more suicides than women Since that information has been accessible for a long time why is it not taken into account when campaigns are created and actions are defined Violence is not an entity it is male Confronted with that reality the author sought to formulate the question orientating towards the following working hypothesis this common knowledge should be forgotten given that the involvement of men in situations of violence plays an important role in the preservation of political ideation in contemporary societies During this study it

became clear that men are exposed to a more complex type of death than mere physical death but just as important which is relative to their social representation This insight led to understanding other aspects that could be associated with men s intense involvement in situations of violence Could it be that in contemporary culture a purpose is served by keeping men involved with situations of violence If so what might that be **Entre o palco e o porão** Andréia Delmaschio,2004

Unfinished gesture Cecilia Almeida Salles,2019-01-08 The book presents a discussion about the process of artistic creation in the diversity of its manifestations visual arts literature theater cinema etc The proposed reflections are supported by research dedicated to the study of these creative paths from the documents left by the artists such as diaries notes sketches drafts mock ups projects scripts and contacts Dialogues were established between the observation of recurrent aspects in a great diversity of processes and the thought of Charles S Peirce generating a possible theory of creation First the Unfinished Gesture discusses the aesthetics of the creative movement from a semiotic perspective In this theoretical context creation is described as a fallible process with tendencies supported by the logic of uncertainty encompassing the intervention of chance and opening space for the introduction of new ideas A continuous course in which you can not determine either a starting point or an end point These uncertain and indeterminate tendencies direct the artist in his search for the construction of works that satisfy his great poetic project which is also strongly influenced by communicative issues The search of the artist finds its possible concreteness in complex processes of constructions of works In a second moment the creative path is focused from five points of view as transforming action translation movement knowledge process construction of artistic truths and experimentation course In the Epilogue are presented the concepts of Peircean semiotics which base the reflections on the artistic creation developed throughout the book The Unfinished Gesture aims to offer a critical approach to the arts from the point of view of its production processes **The Nature of Space** Milton

Santos,2021-07-21 In The Nature of Space pioneering Afro Brazilian geographer Milton Santos attends to globalization writ large and how local and global orders intersect in the construction of space Santos offers a theory of human space based on relationships between time and ontology He argues that when geographers consider the inseparability of time and space they can then transcend fragmented realities and partial truths without trying to theorize their way around them Based on these premises Santos examines the role of space which he defines as indissoluble systems of objects and systems of actions in social processes while providing a geographic contribution to the production of a critical social theory *Seis propostas para o próximo milênio: lições americanas* ,1994 *A teoria geral do imaginário 50 anos depois: conceitos, noções, metáforas* Ana Taís Martins, Ao longo do século XX o imaginário deixou de ser sinônimo de fantasia ou de ser associado loucura para ocupar um lugar epistemológico e ontológico específico na produção de representações e de saberes ao ponto de constituir sua própria herística Deve-se isso ao trabalho de numerosos pensadores oriundos dos campos mais diversos das Ci

ncias Humanas e Sociais da filosofia psicanálise da antropologia literatura que desembocou na Teoria Geral do Imaginário lançada há quase 50 anos em Chamberlain sob a forma do primeiro CRI Centro de Pesquisas sobre Imaginário. Desde então os estudos sobre o imaginário se tornaram mais diversificados e complexos através do mundo e através das disciplinas. Diversos movimentos epistemológicos reivindicaram conceitos mais flexíveis que se tornaram novos e se dispersaram em metáforas. Se por um lado as novas e as metáforas apresentam a vantagem de admitir mais de uma ideia por vez, como as ideias contraditórias, por outro lado elas podem levar a imprecisões ou equivalência generalizada dos termos, tornando vazio o trabalho do pensamento.

Tempestade De Ideias Luiz Penna, 2019-04-04 Tempestade de Ideias Um Mergulho nas Simbologias do Cotidiano, uma coletânea de setenta e quatro mini-ensaios. Em essência, o livro analisa os significados da existência e a nossa representatividade perante o cosmo, tendo como referência obras marcantes da nossa civilização com reflexões literárias e artísticas de mentes geniais que nos tocam profundamente com as suas criações. Filosofia, mitologia, artes, economia, tecnologia e políticas são os elementos básicos na elaboração deste livro, que se articula a desfragmentar atitudes formuladas como absolutas com uma narrativa que transita distante do lugar comum. Mais que um desmistificador de imagens, Tempestade de Ideias Um Mergulho nas Simbologias do Cotidiano produz uma epítoca do saber e sinaliza outras vias mais compromissadas com a originalidade de um pensamento crítico. O livro nos provoca a mexer nas estruturas do sistema, trazendo tonalidades importantes tão necessárias para compreendermos o quanto a vida se torna bizarra no instante que surgem imposições autoritárias que como um vírus maldito se alastra e anula a nossa humanidade. Quando isso acontece, perde-se a vibração e as pessoas se tornam seres menores, sem brilho, e caem no abismo profundo da ignorância, seja ela ideológica ou religiosa. Por isso, precisamos das artes e das ciências. Somente elas podem ampliar a nossa visão de mundo, extinguir a precariedade do absoluto dos falsos dogmas e principalmente a doença do preconceito e da insensatez.
