Seizing The Air Waves A Free Radio Handbook:

Seizing the Airwaves Ron Sakolsky, 1998 The first book to document and emphasize the myriad voices of the free radio movement from Black Liberation Radio in Springfield Illinois to Free Radio Berkeley in Berkeley California The first section Media Monopoly And The Rise Of The Free Radio Movement includes contributions from Robert McChesney on the political economy of radio in North America and a history and analysis of the burgeoning pirate radio movement The second section On The Air includes interviews with and commentary by some of the key grassroots participants in micropower broadcasting worldwide from Canada Holland Haiti and Mexico as well as America The final section of the book consists of a comprehensive technical guide and how to manual for going on the air complete with schematics and sound advice

Communities of the Air Susan Merrill Squier, 2003-06-19 Affirms the importance of invention of radio and explores how radio creates sets of overlapping communities of the air including those who study and theorize radio as a technological social cultural and historical phenomenon **Islands of Resistance** Andrea Langlois, Ron Sakolsky, Marian van der Zon, 2010-05-14 Since radio's invention some Canadians have been concerned about the increasingly commercialized and centralized nature of medium Sometimes working alone more often in teams and always illegally these activists represent islands of resistance within the ocean of homogenous frequencies pirating radio signals for personal political and artistic expression In the first book published on the subject Islands of Resistance gives you a view from the crow's nest of the phenomenon of pirate radio in Canada Here is a collection of seventeen activist manifestos artistic treatises of intent historical essays on the development of radio and its regulatory bodies sociological examination of pirate radio's application in new social movements and personal anecdotes from behind the eyepatch Just as the new media ostensibly renders the old obsolete Islands of Resistance unveils the existence of a thriving clandestine counterculture An invaluable addition to an unscrutinized subject in Canadian media studies Islands of Resistance appeals to the anarchist anti authoritarian impulses in all of us Visit the Islands of Resistance website for more about the book and to hear audio clips of pirate radio **Tearing**

Down the Streets Jeff Ferrell, 2002-10 From New York to San Francisco Times Square to the Tenderloin graffiti artists young people radical environmentalists and the homeless clash with police on city streets in an attempt to take back urban spaces from the developers and Disneyfiers Drawing on more than a decade of first hand research this lively account goes inside the worlds of street musicians homeless punks militant bicycle activists high risk BASE jump parachutists skateboarders outlaw radio operators and hip hop graffiti artists to explore the day to day skirmishes in the struggle over public life and public space *Free Radio* Lawrence Soley, 2019-04-10 This book reviews the history of the microradio movement enabling readers to understand why and how it has captured momentum and power It discusses the anti Nazi underground stations and other resistance stations explaining how previous stations provided vehicles for democratic communications **KISS FM: From Radical Radio To Big Business: The Inside Story Of A London Pirate Radio**

Station's Path To Success Grant Goddard, 2011-06-09 This comprehensive meticulously researched work offers a rare glimpse into the dark and secretive world of pirate radio in London revealing the ambition and greed of some of those involved as well as the duplicity and deceit deployed to destroy others who got in their way *Micro Radio and the FCC* Andrew Opel, 2004-05-30 Micro Radio became a lightning rod for the emerging Media Activism and Reform Movement Like the environmental movement in the 1960s and 70s that focused on specific issues like nuclear power the Media Activism Movement discovered a significant formative issue in micro radio at the turn of the millennium This book is a close examination of the struggle over micro radio Throughout this research micro radio is viewed as a site of social activity a unique cultural and historical bond where ideas about the relationship between media and democracy are explored This work is the first to spotlight this emerging social movement and uses critical historical analysis to provide a description of it The information in this book shows the struggle over micro radio as the most recent manifestation of a growing social movement a movement of media activism and reform As local people took to the airwaves illegally broadcasting the frivolous to the serious theoretical concepts such as localism and public access suddenly became grounded in a real world radio show Micro radio broadcasters were able to demonstrate what is left out of most mainstream media They showed what could happen when a diverse public is allowed to access the most universal telecommunications of the day This look at micro radio will be valuable to communications students who are interested in the strategies behind media and social movements alternative media and news media practices Cultural Protest in Journalism, Documentary Films and the Arts Daniel H. Mutibwa, 2019-02-13 Cultural Protest in Journalism Documentary Films and the Arts Between Protest and Professionalisation entails a comprehensive account of the history and trajectory of contemporary journalistic documentary film and arts and cultural actors rooted partially or wholly in radical alternative community voluntary participatory and independent movements primarily in Britain and Germany It focuses particularly on the examination of production and organisational contexts of selected case studies some of which date from the countercultural era The book takes a transnational and interdisciplinary approach encompassing a range of theoretical perspectives drawn from the political economy of communication tradition alternative media scholarship journalism studies critical sociological and cultural studies of media industries cultural industries research and critical and social theory in conjunction with extensive ethnographic fieldwork It does so to reveal the obscure nature of media and cultural production and organisation at seventeen media and cultural actors based in Britain and Germany including South Africa and Nigeria A particular focus is placed on how such actors balance competing imperatives of a civic socio political professional artistic and commercial nature as well as various systemic pressures and on how they navigate the resultant ambivalences paradoxes and tensions in their day to day work In essence the book highlights key insights into a changing nature and quality of engagement with social and political realities in protest cultures Joe Hill Franklin Rosemont, 2015-12-18 A monumental work expansive in scope covering the life times

and culture of that most famous of the Wobblies songwriter poet hobo thinker humorist martyr Joe Hill It is a journey into the Wobbly culture that made Hill and the capitalist culture that killed him Many aspects of the life and lore of Joe Hill receive their first and only discussion in IWW historian Franklin Rosemont's opus In great detail the issues that Joe Hill raised and grappled with in his life capitalism white supremacy gender religion wilderness law prison and industrial unionism are shown in both the context of Hill's life and for their enduring relevance in the century since his death Collected too is Joe Hill's art plus scores of other images featuring Hill inspired art by IWW illustrators from Ralph Chaplin to Carlos Cortez as well as contributions from many other labor artists As Rosemont suggests in this remarkable book Joe Hill never really died He lives in the minds of young and old rebels as long as his songs are sung his ideas are circulated and his political descendants keep fighting for a better day

DIY Utopia Amber Day, 2016-12-22 At first glance contemporary popular culture filled with bleak images of the future seems to have given up on the possibility of positive collective change Below the surface however alternative culture is rife with artist led projects activist movements and subcultural communities of interest that seek to spark the collective imagination and to encourage hunger for alternatives More playfully self conscious than past utopian movements today's are often whimsical or ironic but are still entirely earnest Artists invite us to re author city maps or archive individual ideas for the future while maker collectives urge us to rethink our relationship to consumer goods All seem to have grown out of a similar do it yourself ethos and alternative culture One of the central conflicts informing these case studies is that while it remains immensely difficult to envision anything outside of the current system of consumer capitalism there is nevertheless a powerful desire to take it apart in piecemeal ways We see the longing for new social and political narratives new forms of communion and sociability and new imaginings of the possible longings that are currently unmet by mainstream culture but that are taking expression in myriad ways at the local level Taken as a whole this collection examines what our grand ideals and playful daydreams tell us about ourselves

Do It Yourself The Trapeze Collective, 2007-05-20 Do you really want to change the world If the answer is YES then this book shows you how Ethical consumerism is now big business But leading a sustainable and truly radical life encompasses a whole variety of things that challenge the mainstream This book shows how we can make real changes to the way we live In simple steps it describes how you can create sustainable and equitable ways of living that can help transform not just your own life but the culture around you The book weaves together analysis stories and experiences It combines in depth analytical chapters followed by easy to follow How to Guides with practical ideas for change Taken together these small steps can move us towards taking back control of our lives from governments and corporations
