Brien and Kate O'Brien this book analyses how and if the complex representational strategies of modernist fictions provide a window on historical events and realities Greaney deploys close reading formal analysis narratology and philosophical accounts of literature alongside historicist and materialist approaches as well as postcolonial and world literature paradigms to examine how modernist texts engage the cultural memories they supposedly transmit Emphasizing the proximities and the distances between modernist aesthetic practice and the history of modernity in Ireland and beyond this book enables a new model for narrating Irish modernism
