Agricultural and Agribusiness Law Theodore A. Feitshans, 2019-02-21 This introductory textbook provides an overview of the concepts necessary for an understanding of agricultural and agribusiness law The text will help students of land based industries with little or no legal background to appreciate and identify issues that may require referral or consultation with legal counsel This new edition is fully revised and updated particularly addressing developments in taxation and trade and includes a new chapter on criminal law an area of increasing relevance to agriculture Each concise chapter addresses a different legal issue that those employed in agriculture and agribusiness may face and both federal law and representative examples of state law are included In addition to traditional topics such as contracts property law and estate planning the book also covers more contemporary issues such as organic certification animal law genetically engineered crops and food safety Agricultural law extends beyond those directly engaged in farming to those in agribusiness who provide services and inputs to farmers buy farmers products

store or transport products manufacture food products and serve as intermediaries between farmers and consumers The book will therefore also serve as a reference and a guide for those employed in agribusiness and agriculture and International Relations Christian Ploberger, 2023-06-08 This book argues that river basins represent a particular structural setting in international relations with the potential for generating a dynamic of cooperation among the involved countries The volume applies the concept of regional cooperation to international river basins to highlight their relevance as a particular space in international relations emphasizing both the inter connectivity and transnationalism of international river basins It addresses the challenges related to resource distribution between up and down stream countries showcasing a variety of examples of cooperation and conflictual relations within various international river basins Case studies are drawn from across the globe and include the Mekong the Indus the Euphrates Tigris and the Danube international river basins Each chapter outlines the different aspects which support or undermine cooperation in each case taking into consideration key areas surrounding resource sharing national development environmental considerations and national security This book will be of great interest to students and scholars with an interest in international river basins regional cooperation water resource competition international relations and environmental politics **Outlines of Elementary Economics** Herbert Joseph Davenport, 1897 Economics and the Law Nicholas Mercuro, Steven G. Medema, 2020-07-21 This is an expanded second edition of Nicholas Mercuro and Steven Medema's influential book Economics and the Law whose publication in 1998 marked the most comprehensive overview of the various schools of thought in the burgeoning field of Law and Economics Each of these competing yet complementary traditions has both redefined the study of law and exposed the key economic implications of the legal environment. The book remains true to the scope and aims of the first edition but also takes account of the field's evolution At the book's core is an expanded discussion of the Chicago school Public Choice Theory Institutional Law and Economics and New Institutional Economics A new chapter explores the Law and Economics literature on social norms today an integral part of each of the schools of thought The chapter on the New Haven and Modern Civic Republican approaches has likewise been expanded These chapters are complemented by a discussion of the Austrian school of Law and Economics Each chapter now includes an At Work section presenting applications of that particular school of thought By providing readers with a concise noncritical description of the broad contours of each school this book illuminates the fundamental insights of a field with important implications not only for economics and the law but also for political science philosophy public administration and sociology Handbook of the Economics of Education Stephen J. Machin, Ludger Woessmann, 2011-08-15 With contributions from leading researchers this handbook presents an accurate self contained survey of the current state of the economics of education It summarises the most recent discussions in journals and elucidates new developments Engineering Economics John Charles Lounsbury Fish, 1915
