The Routledge Anthology of British Women Playwrights, 1777-1843 Thomas C. Crochunis, Michael E. Sinatra, 2019-06-10 The Routledge Anthology of British Women Playwrights 1777-1843 brings together ten eclectic plays by female dramatists and writers to stimulate a rich discussion of women writing and theatre history. Ranging through tragedy, comedy, musical theatre, and mixed genre texts, this volume celebrates the breadth and experimental spirit of women's eighteenth and nineteenth century dramatic writing. Each play is accompanied by an introductory essay that addresses its sociopolitical and theatrical contexts and outlines its performance and reception history. The selections included here invite teachers and their students to study particular works by authors of note but also to consider the differences between works written for page and stage. While many of the plays are recognizable as published dramas, they have been placed alongside textual artifacts that suggest plays or theatrical events of which no definitive record exists, as well as supplementary materials that invite teachers to engage their students in exploring women's dramatic writing in this era. Organized in chronological order, The Routledge Anthology of British Women Playwrights 1777-1843 traces a history of women's writing across genres and styles, offering an invaluable resource to students and teachers alike

Eighteenth-Century Women Playwrights, vol 6 Derek Hughes, 2024-11-01 This six volume anthology documents the history of women's drama throughout the 18th century, starting with the emergence in 1695 of the second generation of women dramatists to Aphra Behn. Eighteenth-Century Authorship and the Play of Fiction Emily Hodgson Anderson, 2009-05-15 This study looks at developments in eighteenth century drama that influenced the rise of the novel. It begins by asking why women writers of this period experimented so frequently with both novels and plays. Here Eliza Haywood, Frances Burney, Elizabeth Inchbald, Maria Edgeworth, and Jane Austen explore theatrical frames from the playhouse to the social conventions of masquerade to the fictional frame of the novel itself that encourage audiences to dismiss what they contain as feigned. Yet such frames also as a

result create a safe space for self expression These authors explore such payoffs both within their work through descriptions of heroines who disguise themselves to express themselves and through it Reading the act of authorship as itself a form of performance Anderson contextualizes the convention of fictionality that accompanied the development of the novel she notes that as the novel like the theater of the earlier eighteenth century came to highlight its fabricated nature authors could use it as a covert yet cathartic space Fiction for these authors like theatrical performance for the actor thus functions as an act of both disclosure and disguise or finally presents self expression as the ability to oscillate between the two in the play of fiction

Mothers of the Nation Anne K. Mellor, 2000-05-22 A survey of British women s writings of the late eighteenth and early nineteenth centuries and the revolutionary New Woman they promoted British women writers were enormously influential in the creation of public opinion and political ideology during the years from 1780 to 1830 Anne

Mellor demonstrates the many ways in which they attempted to shape British public policy and cultural behavior in the areas of religious and governmental reform education philanthropy and patterns of consumption She argues that the theoretical paradigm of the doctrine of the separate spheres may no longer be valid According to this view British society was divided into distinctly differentiated and gendered spheres of public versus private activities in the eighteenth and nineteenth centuries Surveying all the genres of literature drama poetry fiction non fiction prose and literary criticism Mellor shows how women writers promoted a new concept of the ideal woman as rationally educated sexually self disciplined and above all virtuous This New Woman these writers said was better suited to govern the nation than were its current fiscally irresponsible lecherous and corruptible male rulers Beginning with Hannah More Mellor argues that women writers too often dismissed as conservative or retrogressive instead promoted a revolution in cultural mores or manners She discusses writers as diverse as Elizabeth Inchbald Hannah Cowley and Joanna Baillie as Charlotte Smith Anna Barbauld and Lucy Aikin as Mary Wollstonecraft Charlotte Reeve and Anna Seward and concludes with extended analyses of Charlotte Smith's *Desmond* and Jane Austen's *Persuasion* She thus documents women writers full participation in that very discursive public sphere which Habermas so famously restricted to men of property Moreover the new career of philanthropy defined by Hannah More provided a practical means by which women of all classes could actively construct a new British civil society and thus become the mothers not only of individual households but of the nation as a whole Intellectual and social historians and not just feminists have long believed that the late 18th and early 19th centuries in Britain saw an increasing separation of the male public and female domestic realms with the result that the public sphere theorized by Jurgen Habermas and others to have emerged in the Enlightenment almost entirely excluded women With energy wit and admirable command of her sources Mellor author of distinguished books on Romanticism demonstrates that just the opposite was true in the years around 1800 women became the primary producers and consumers of writing in Britain and vitally participated in the discursive public sphere many arguing in their different ways for what Hannah More the most popular author of the period called a moral revolution in the national manners and principles A splendid survey of women novelists poets critics playwrights and social theorists this bracing and important work of revision deserves a place in serious academic libraries serving both undergraduates and advanced scholars D L Patey Choice [I'll Tell You What](#) Annibel Jenkins, 2021-12-14 Elizabeth Simpson Inchbald 1753 1821 was one of the leading literary figures of the late eighteenth century an actress a successful playwright and editor of several collections of plays a popular novelist and a drama critic Considered a beautiful independent woman Inchbald was much involved in the theatrical literary and publishing life of London Elizabeth Simpson ran away from home at age eighteen to seek fame as an actress in London and quickly married Joseph Inchbald an actor twice her age They toured the stage together until his sudden death in 1779 She made her London stage debut a year later and her writing debut came in 1784 with the play *The Mogul Tale Or The Descent of the Balloon* Over the next two decades she wrote or

adapted twenty one plays comedies farces and works from French and German including the version of Kotzebue's *Lovers Vows* later used in Jane Austen's *Mansfield Park* Inchbald's acclaimed first novel *A Simple Story* prefigured the work of later women writers such as Austen Using material from Inchbald's own pocket books detailing her daily life she destroyed most of her letters and journals late in her life at the advice of her Catholic confessor as well as a wealth of other sources Annibel Jenkins tells for the first time not only the full story of Mrs Inchbald's life but also provides a fascinating look at the society and politics both public and private of London in the late eighteenth and early nineteenth centuries *Towards a Standard English* Dieter Stein, Ingrid Tieken-Boon van Ostade, 2012-10-25 The future of English linguistics as envisaged by the editors of *Topics in English Linguistics* lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The *TiEL* series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics
