Naumann, Hector Obalk, 2000 Marcel Duchamp left a large volume of correspondence a thousand documents that form a unique source for our knowledge of the artist's personality and work In his letters Duchamp talks of his latest plans and works in progress He discusses important projects including the ready made a concept that was radically to change the course of 20th century art **Marcel Duchamp** Caroline Cros, 2006 A fresh account of Marcel Duchamp that includes much material on his life after he stopped making art **The Duchamp Dictionary** Thomas Girst, 2014-05-20 Girst elegantly unravels the skeins of Duchamp's thinking An essential compendium for puzzling out an essential artist Richard Armstrong Director of the Solomon R Guggenheim Museum and Foundation Among the most influential artists of the last hundred years Marcel Duchamp holds great allure for many contemporary artists worldwide and is largely considered to be one of the founding fathers of modern art Despite this popularity books on Duchamp are often hyper theoretical rarely presenting the artist in an accessible way This new book explores the artist's life and work through short alphabetical dictionary entries that introduce his legacy in a clear and engaging way From alchemy and anatomy to Warhol and windows The Duchamp Dictionary offers a pithy and readable text that draws on in depth scholarship and the very latest research Thomas Girst includes close to 200 entries on the most interesting and important artworks relationships people and ideas in Duchamp's life from The Bicycle Wheel and Fountain to Walter and Louise Arensberg Peggy Guggenheim Katherine Dreier and Arturo Schwarz Delightful newly commissioned illustrations introduce each letter of the alphabet and accompany select entries capturing the irreverent spirit of the artist himself **Curious Disciplines** Sarah Hayden, 2018-04-15 Foregrounding Loy's critical interrogation of Futurist Dadaist Surrealist and Degenerate artisthood and exploring her poetic legacies today Curious Disciplines reveals Loy's importance in an entirely novel way **Robert Rauschenberg and Surrealism** Gavin Parkinson, 2023-03-23 The art of Robert Rauschenberg 1925 2008 is usually viewed as quite distinct from Surrealism a movement which the artist himself displayed some hostility towards However Rauschenberg had a very positive reception among Surrealists particularly across the period 1959 69 In the face of Rauschenberg's avowals of his own literalism and insistence on his art as facts this book gathers generous evidence of the poetic metaphorical allusive associative and connotative dimensions of the artist's oeuvre as identified by Surrealists and thus extrapolates new readings

from Rauschenberg's key works on that basis. By viewing Rauschenberg's art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954-62, Robert Rauschenberg and Surrealism shows how poetic inference of the artist's work was turned towards political interpretation. By analysing Rauschenberg's art in the context of Surrealism and drawing from it new interpretations and perspectives, this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history.

*Dada Culture*, 2016-08-01. How Dada is to break its cultural accommodation and containment today necessitates thinking the historical instances through revised application of critical and theoretical models. The volume *Dada Culture: Critical Texts on the Avant Garde* moves precisely by this motive, bringing together writings which insist upon the continuity of the early twentieth-century moment now at the start of the twenty-first. Engaging the complex and contradictory nature of Dada strategies instanced in the linguistic gaming and performativity of the movement's initial formation and subsequently isolating the specific from the general with essays focusing on Ball, Tzara, Serner, Hausmann, Dix, Heartfield, Schwitters, Baader, Cravan and the exemplary Duchamp, the political philosophy of the avant-garde is brought to bear upon our own contemporary struggle through critical theory to comprehend the cultural usefulness, relevance, validity and effective or otherwise oppositionality of Dada's infamous anti-stance. The volume is presented in sections that progressively point towards the expanding complexity of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink, realign and reconfigure itself in response to the analytical rigour and exercise of later twentieth-century animal-anarchic thought, the testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully unproblematic idea of expression. From the opening provocative proposition that historically Dada may have been the falsest of all false paths, the volume rounds to dispute such condemnation as demarcation continues not only of Dada's embeddedness in western culture but more precisely of the location of Dada culture. Ten critical essays by Cornelius Partsch, John Wall, T. J. Demos, Anna Schaffner, Martin I. Gaughan, Curt Germundson, Stephen C. Foster, Dafydd Jones, Joel Freeman and David Cunningham are supplemented by the critical bibliography prepared by Timothy Shipe, which documents the past decade of Dada scholarship and in so doing provides a valuable resource for all those engaged in Dada studies today.

**Dressing and Undressing Duchamp** Ingrid E. Mida, 2022-08-25 Fashion is a subject that has long been marginalized in art history and in museums And yet one of the most well known artists in the twentieth century Marcel Duchamp created works that challenge the notion that fashion does not belong in the museum As well there is material evidence of his engagement with clothing as part of his oeuvre This book reveals that clothing and dressing are significant themes that recur in Duchamp's life and his work including his drawings his fashioning of his body his readymades and in his curatorial gestures In examining the items of clothing worn by Duchamp and the related traces of his wardrobe management Duchamp is unmasked as a dandy His waistcoat readymade series *Made to Measure* 1957 1961 is in fact a remarkable and deliberate effort to recalibrate the definition of the readymade to include clothing With this little studied readymade series Duchamp established a precedent for sartorial art as a valid form of artistic expression In considering the material traces of Duchamp's fashioning of his body and identity in his work and life this book makes a highly original contribution to the understanding of Duchamp's work as well as the significance of the clothed body in the vanguard of Modernism Ultimately this book explains the relevance of fashion in the museum to modern audiences today *Four Metaphors of Modernism* Jenny Anger, 2018-02-20 Exploring the significance of metaphor in modern art Where do the roots of art lie asked Der Sturm founder Herwarth Walden In the people Behind the mountains Behind the planets He who has eyes to hear feels Walden's Der Sturm the journal gallery performance venue press theater bookstore and art school in Berlin 1910 1932 has never before been the subject of a book length study in English *Four Metaphors of Modernism* positions Der Sturm at the center of

the avant garde and as an integral part of Euro American modern art theory and practice Jenny Anger traces Walden's aesthetic and intellectual roots to Franz Liszt and Friedrich Nietzsche forebears who led him to embrace a literal and figurative mixing of the arts She then places Der Sturm in conversation with New York's Soci t Anonyme 1920 1950 an American avant garde group modeled on Der Sturm and founded by Katherine Sophie Dreier Marcel Duchamp and Man Ray Working against the tendency to examine artworks and artist groups in isolation Anger underscores the significance of both organizations to the development and circulation of international modernism Focusing on the recurring metaphors of piano glass water and home Four Metaphors of Modernism interweaves a historical analysis of these two prominent organizations with an aesthetic analysis of the metaphors that shaped their practices reconceiving modernism itself Presented here is a modernism that is embodied gendered multisensory and deeply committed to metaphor and a restoration of abstraction's connection with the real

**Infrathin** Marjorie Perloff,2021-09-03

Esteemed literary critic Marjorie Perloff reconsiders the nature of the poetic examining its visual grammatical and sound components The infrathin was Marcel Duchamp s playful name for the most minute shade of difference that between the report of a gunshot and the appearance of the bullet hole or between two objects in a series made from the same mold Eat is not the same thing as ate The poetic Marjorie Perloff suggests can best be understood as the language of infrathin For in poetry whether in verse or prose words and phrases that are seemingly unrelated in ordinary discourse are realigned by means of sound visual layout etymology grammar and construction so as to make it new In her revisionist micropoetics Perloff draws primarily on major modernist poets from Stein and Yeats to Beckett suggesting that the usual emphasis on what this or that poem is about does not do justice to its infrathin possibilities From Goethe s eight line Wanderer s Night Song to Eliot s Four Quartets to the minimalist lyric of Rae Armantrout Infrathin is designed to challenge our current habits of reading and to answer the central question what is it that makes poetry poetry

*The Art of Mechanical Reproduction* Tamara Trodd, 2015-09-25 The Art of Mechanical Reproduction presents a striking new approach to how traditional art mediums painting sculpture and drawing changed in the twentieth century in response to photography film and other technologies Countering the modernist view that the medium provides advanced art with resistance against technological pressures Tamara Trodd argues that we should view art and its practices as imaginatively responding to the potential that artists glimpsed in mechanical reproduction putting art into dialogue with the commercial cultures of its time The Art of Mechanical Reproduction weaves a rich history of the experimental networks in which artists as diverse as Paul Klee Hans Bellmer Ellsworth Kelly Robert Smithson Gerhard Richter Chris Marker and Tacita Dean have worked and it shows for the first time how extensively technological innovations of the moment have affected their work Original and broad ranging The Art of Mechanical Reproduction challenges some of the most respected and entrenched criticism of the past several decades and allows us to think about these artists anew
