The background of the cover is a painting of a rural landscape. A large, mature tree with dense green foliage dominates the right side of the frame. Its trunk is thick and gnarled. In the background, behind the tree, is a small, simple house with a gabled roof. The foreground is a grassy field with a dirt path leading towards the house. The sky is a pale, hazy blue.

Emerson Ralph Waldo Emerson, 2005 This is the first and only comprehensive selection of lectures by Ralph Waldo Emerson his era's most prominent American man of letters and one of the foremost architects of our intellectual culture Based on authoritative texts selected and edited by Ronald A. Bosco and Joel Myerson the most experienced Emerson editors working today these twenty-five addresses collectively exemplify the lecture style for which Emerson was famed in his day Best known to his contemporaries as a lecturer Emerson delivered some 1,500 addresses over the course of his career Because his most important ideas were worked out in his lectures they provide the best record we have of his evolving thought and thus are a key to our understanding of his essays and other printed works Gathered here are lectures on American culture literary theory and aesthetics moral and as Emerson called it intellectual philosophy and social and political reform They are taken

from speaking engagements in the United States and the British Isles over the period 1833-1871 during which Emerson often spent four to six months a year on the lecture circuit. Lectures from the earliest years of Emerson's career (1833-1842) have been newly edited for this volume. The volume's introduction draws on contemporary accounts to describe Emerson's idiosyncratic but utterly memorable manner of speaking. A headnote provides context to the composition and delivery of each lecture, and footnotes identify Emerson's allusions to persons, places, occasions, quotations, and books. By examining his lectures and how they were delivered, say, in Boston and Myerson, we can look into the laboratory of Emerson's intellectual and compositional process and see his published writings gestating.

Nature and Selected Essays Ralph Waldo Emerson, 2003-05-27 An indispensable look at Emerson's influential life philosophy. Through his writing and his own personal philosophy, Ralph Waldo Emerson unburdened his young country of Europe's traditional sense of history and showed Americans how to be creators of their own circumstances. His mandate, which called for harmony with rather than domestication of nature and for a reliance on individual integrity rather than on materialistic institutions, is echoed in many of the great American philosophical and literary works of his time and ours and has given an impetus to modern political and social activism. Larzer Ziff's introduction to this collection of fifteen of Emerson's most significant writings provides the important backdrop to the society in which Emerson lived during his formative years. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world.
