Dike, David H. Zucker, 1985 *Selected Poems and Essays of Delmore Schwartz* Delmore Schwartz, 1970 **Selected Essays of D. Schwartz** Delmore Schwartz, Donald A. Dike, 1970 *Once and for All* Delmore Schwartz, 2016-04-28 The publication of this book restores a missing chapter in the history of twentieth century American literature With his *New Directions* debut in 1938 the twenty five year old Delmore Schwartz was hailed as a genius and among the most promising writers of his generation Yet he died in relative obscurity in 1966 wracked by mental illness and substance abuse Sadly his literary legacy has been overshadowed by the story of his tragic life Among poets Schwartz was a prototype for the confessional movement made famous by his slightly younger friends Robert Lowell and John Berryman While his stories and novellas about Jewish American experience laid the groundwork for novels by Saul Bellow whose *Humboldt's Gift* is based on Schwartz's life and Philip Roth Much of Schwartz's writing has been out of print for decades This volume aims to restore Schwartz to his proper place in the canon of American literature and give new readers access to the breadth of his achievement Included are selections from the in print stories and poems as well as excerpts from his long unavailable epic poem *Genesis* a never completed book length work on T S Eliot and unpublished poems from his archives *Twentieth-Century and Contemporary American Literature in Context* Linda De Roche, 2021-06-04 This four volume reference work surveys American literature from the early 20th century to the present day featuring a diverse range of American works and authors and an expansive selection of primary source materials Bringing useful and engaging material into the classroom this four volume set covers more than a century of American literary history from 1900 to the present *Twentieth Century and Contemporary American Literature in Context* profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical cultural and political contexts that have shaped American writing *Twentieth Century and Contemporary American Literature in Context* provides wide coverage of authors works genres and movements that are emblematic of the diversity of modern America Not only are major literary movements represented such as the Beats but this work also highlights the emergence and development of modern Native American literature African American literature and other representative groups that showcase the diversity of American letters A rich selection of primary documents and background material provides indispensable information for student research **American and British Poetry** Harriet Semmes Alexander, 1984 **Gates of Eden: American Culture in the Sixties** Morris Dickstein, 2015-02-23 Widely admired as the definitive cultural history of the 1960s this groundbreaking work finally reappears in a new edition The turbulent 1960s almost from its outset produced a dizzying display of cultural images and ideas that were as colorful as the psychedelic T shirts that became part of its iconography It

was not however until Morris Dickstein's landmark *Gates of Eden* first published in 1977 that we could fully grasp the impact of this raucous decade in American history as a momentous cultural epoch in its own right as much as Jazz Age America or Weimar Germany. From Ginsberg and Dylan to Vonnegut and Heller this lasting work brilliantly re-creates not only the intellectual and political ferment of the decade but also its disillusionment. What results is an inestimable contribution to our understanding of twentieth century American culture. — *W.H. Auden* John Haffenden, 1983 This set comprises of 40 volumes covering nineteenth and twentieth century European and American authors. These volumes will be available as a complete set, mini-boxed sets by theme or as individual volumes. This second set complements the first 68 volume set of *Critical Heritage* published by Routledge in October 1995. — *The Cambridge History of Literary Criticism: Volume 7, Modernism and the New Criticism* George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction. — *The American Poet at the Movies* Laurence Goldstein, 1995 A timely and engaging exploration of cinema's influence on verse, a treat for poetry lovers and film buffs alike. — *Deconstructing Post-WWII New York City* Robert Bennett, 2013-12-02 Situating post WWII New York literature within the material context of American urban history, this work analyzes how literary movements such as the Beat Generation, the New York poets, and Black Arts Movement criticized the spatial restructuring of post WWII New York City. — *Republic of Dreams* Ross Wetzstein, 2007-11-01 If the twentieth century was the American century, it can be argued that it was more specifically the New York century, and Greenwich Village was the incubator of every important writer, artist, and political movement of the period. From the century's first decade through the era of beatniks and modern art in the 1950s and 60s, Greenwich Village was the destination for rebellious men and women who flocked there from all over the country to fulfill their artistic, political, and personal dreams. It has been called the most significant square mile in American cultural history for it holds the story of the rise and fall of American socialism, women's suffrage, and the commercialization of the avant-garde. One Villager went so far as to say that everything started in the Village except Prohibition, and in the 1940s the young actress Lucille Ball said, "The Village is the greatest place in the world. What other community could claim a spectrum ranging from Henry James to Marlon Brando, from Marcel Duchamp to Bob Dylan, from Gertrude Vanderbilt Whitney to Abbie Hoffman." The story of the Village is in large part the stories old Villagers have told new Villagers about former Villagers, and to tell its story is in large part to tell its legends. *Republic of Dreams* presents the remarkable, outrageous, often interrelated biographies of the giants of American journalism, poetry, drama, radical politics, and art who flocked to the Village for nearly half a century, among them Eugene O'Neill whose plays were first produced by the Provincetown Players on MacDougal Street for whom Edna St. Vincent Millay also wrote. Jackson Pollock, who moved to the Village from Wyoming in 1930 and was soon part of the group of 8th Street painters who would revolutionize Western painting. E.E. Cummings who lived for years on Patchin Place as did Djuna Barnes. Max Eastman who edited the groundbreaking literary and political journal *The Masses* which introduced Freud to the American public, and

also published Sherwood Anderson Amy Lowell Upton Sinclair Maksim Gorky and John Reed's reporting on the Russian Revolution Republic of Dreams is beautifully researched outspoken wise hip exuberant a monumental definitive history that will endure for decades to come **Henry Miller** Lawrence J. Shifreen, 1979 No descriptive material is available for this title **Affect, Psychoanalysis, and American Poetry** John Steen, 2018-07-12 Poetry has often been defined by its closure its condensation of meaning and value into discrete self-referential textual objects Affect Psychoanalysis and American Poetry challenges the dominant metaphor of poetic containers by turning to recent poetic texts that represent the contagious and uncontainable feelings of anxiety grief shame and rage From modernists Wallace Stevens to mid-century poets Randall Jarrell Robert Creeley and Ted Berrigan and finally to contemporary practitioners Aaron Kunin and Claudia Rankine John Steen argues that new poetic techniques arise from the poetic productivity of negative affects and that a new model of poetic value can be found in poems that are instead of containers permeable social spaces of intimacy attachment and withdrawal Drawing from object relations psychoanalysis queer theory and affect theory Affect Psychoanalysis and American Poetry finds poetry's singularity in its unique capacity to represent anew the transmissible relational and uncontainable valences of feeling that structure and destabilize social life **Ezra Pound** Eric Homberger, 2013-07-04 This set comprises 40 volumes covering nineteenth and twentieth-century European and American authors These volumes will be available as a complete set mini-boxed sets by theme or as individual volumes This second set complements the first 68-volume set of Critical Heritage published by Routledge in October 1995 Joyce in America Jeffrey Segall, 2023-04-28 When James Joyce's Ulysses was first published in America it quickly became a dynamic symbol of both modern art and the modern age Jeffrey Segall skillfully demonstrates how various political ideological and religious allegiances influenced the critical reception and eventual canonization of what is perhaps the twentieth century's greatest novel In re-creating the polemical debates that erupted Segall provides a dramatic reminder of just how challenging and controversial Ulysses was and is Seventy years after Ulysses was first banned the novel remains at the center of contemporary debates among feminist neo-Marxist and poststructuralist critics Segall allows us the opportunity to view Ulysses from the perspective of its early readers and he also elucidates key moments in recent American cultural history When James Joyce's Ulysses was first published in America it quickly became a dynamic symbol of both modern art and the modern age Jeffrey Segall skillfully demonstrates how various political ideological and religious allegiances influenced the **The Politics of Irony in American Modernism** Matthew Stratton, 2013-11-01 Shortlisted for the 2015 Modernist Studies Association Book Prize This book shows how American literary culture in the first half of the twentieth century saw irony emerge as a term to describe intersections between aesthetic and political practices Against conventional associations of irony with political withdrawal Stratton shows how the term circulated widely in literary and popular culture to describe politically engaged forms of writing It is a critical commonplace to acknowledge the difficulty of defining irony before stipulating a particular definition as a stable point of

departure for literary cultural and political analysis This book by contrast is the first to derive definitions of irony inductively showing how writers employed it as a keyword both before and in opposition to the institutionalization of New Criticism It focuses on writers who not only composed ironic texts but talked about irony and satire to situate their work politically Randolph Bourne Benjamin De Casseres Ellen Glasgow John Dos Passos Ralph Ellison and many others
