Dickon,2014-07-31 The role of Americans in the two world wars is well known but with a glaring exception one that reveals a little known aspect of the common history of the United States and Canada By the time of the American entrance into World War I in April 1917 and World War II in December 1941 tens of thousands of Americans had already fought and died in those conflicts in the uniforms of other nations Most had quietly traveled over the northern border to join the ground air and naval forces of the Commonwealth nations others to France Poland China and the other nations and armed forces that played a role in the continuing world conflict of the first half of the century In preceding their own nation to war they influenced the course of events in those years and though threatened with loss of citizenship were ultimately met with the acceptance of their own government This book tells the story of who these Americans were why they took the actions they did their experiences in war and the effects of their presence as Americans in foreign forces [The Encyclopedia Britannica](#) ,1922

Psychological Warfare and India Dr Arunkumar Bhatt, 2015-03-16 Wars are born in human mind Great military leaders belonging to all times and cultures have always tried to influence the minds of their foes and friends alike to facilitate their own victories by making their enemies hesitant The minds concerned could be influenced with a variety of overt and covert actions that send right signals to the target audiences In the words of Allied Supreme Commander of the World War II Gen Dwight Eisenhower these actions are anything from the singing of a beautiful anthem to the most extraordinary kind of physical sabotage This is Psychological Warfare and the most preferred action is communication Dr Arunkumar Bhatt who being a defence journalist knows nuances of communication and unfolds here this soft kill strategy and its tactics He traces the history of the psychological warfare to establish how steadily its importance has grown It became a war winning factor in the Great War and its role further expanded in the World War II The Psywar as it has come to be known among many names has not looked back since then The advances in science and technology revolution in communication and information technologies have greatly enhanced the range and effectiveness of the psychological warfare in terms of both time and space The Revolution in Military Affairs has been further sharpening the Psywar weapons Dedicated Psywar units and even commands backed by elements in formation staff are in the vogue The Psychological Warfare has now found a place among war by other means It is recognised as a command function and is factored in planning at all levels It is so important that the decision to deploy the psy weapons is taken at the top echelon of the high command and this is done much ahead of the breaking out of hostilities Where does India that has a poor strategic culture and still poorer awareness about its security stand vis vis Psywar Indian culture has instances of the Psywar It was being practised in the ancient period Kautilya recommends it strongly Different invaders used it The British practised it in an institutionalised fashion to rule India India did counter the British psywar but in a rather irregular way India used it successfully in some of the post independence wars but the country needs to do much more to protect itself against Psywar attacks and to use it effectively to enhance its own security in the present day multi threat scenario This is an attempt to table a calling attention motion before the nation
