Mitcham Jr., 2000-08-30 The Allied landings in Normandy on June 6 1944 marked the beginning of the German defeat in the West Military historian Samuel W Mitcham Jr vividly recaptures the desperation of the Wehrmacht as the thin gray line in Normandy finally snapped the 5th Panzer and 7th Armies collapsed and the survivors fled the Allied steamroller in a mad dash back to the Reich From the reactions of soldiers in the field to military decisions at the highest levels this is the story of the Reich's unraveling told from a German perspective Fighting hedgerow to hedgerow in the pitted Normandy landscape would delay the Allied Advance and make each small victory a costly one Western forces would achieve their first strategic objective the port of Cherbourg but they

would find it reduced to rubble a result of the best planned demolition in history Still the Allies did benefit from an ongoing anti Hitler conspiracy that relayed false information to Berlin While German forces would finally bring the Allied juggernaut to a halt on the borders of the Reich itself this brief success would only delay the inevitable With colorful descriptions and informative details Mitcham recounts the German military retreat and the erosion of Germany's stronghold on Europe as viewed through the eyes of a defiant but ultimately defeated Wehrmacht Reeds Nautical Almanac 2018 Perrin Towler,Mark Fishwick,2017-08-24 Available as an ebook Reeds Nautical Almanac is provided in Web PDF ePDF format for viewing on all compatible devices including tablets laptop and desktop computers Reeds Nautical Almanac is the indispensable trusted annual compendium of navigational data for yachtsmen and motorboaters and provides all the information required to navigate Atlantic coastal waters around the whole of the UK Ireland Channel Islands and the entire European coastline from the tip of Denmark right down to Gibraltar Northern Morocco the Azores and Madeira The 2018 edition continues the Almanac's tradition of year on year improvement and meticulous presentation of all the data required for safe navigation Now with an improved layout for easier reference and with over 45 000 annual changes it is regarded as the bible of almanacs for anyone going to sea The 2018 edition is updated throughout containing over 45 000 changes and includes 700 harbour chartlets tide tables and tidal streams buoyage and lights 7 500 waypoints invaluable passage notes distance tables radio weather and safety information first aid section The ebook incorporates the Reeds Marina Guide Also available free supplements of up to date navigation changes from January to June at www.reedsnauticalalmanac.co.uk
