States of Nature Stuart George McCook, 2010-07-05 The process of nation building in Latin America transformed the relations between the state the economy and nature Between 1760 and 1940 the economies of most countries in the Spanish Caribbean came to depend heavily on the export of plant products such as coffee tobacco and sugar After the mid nineteenth century this model of export led economic growth also became a central tenet of liberal projects of nation building As international competition grew and commodity prices fell over this period Latin American growers strove to remain competitive by increasing agricultural production By the turn of the twentieth century their pursuit of export led growth had generated severe environmental problems including soil exhaustion erosion and epidemic outbreaks of crop diseases and pests This book traces the history of the intersections between nature economy and nation in the Spanish Caribbean through a history of the agricultural and botanical sciences Growers and governments in Venezuela Puerto Rico Cuba Colombia and Costa Rica turned to scientists to help them establish practical and ideological control over nature They hoped to use science to alleviate the pressing environmental and economic stresses without having to give up

their commitment to export led growth Starting from an overview of the relationship among science nature and development throughout the export boom of 1760 to 1930 Stuart McCook examines such topics as the relationship between scientific plant surveys and nation building the development of a creole science to address the problems of tropical agriculture the ecological rationalization of the sugar industry and the growth of technocratic ideologies of science and progress He concludes with a look at how the Great Depression of the 1930s changed the paradigms of economic and political development and the role of science and nature in these paradigms *From Fundamentals to Applications in Geotechnics* D. Hermanns,Alexander Strom,Gabriele Scarascia-Mugnozza,2011-08-26 In the last one hundred years a number of catastrophic events associated with rockslide dam formation and failure have occurred in the mountain regions of the world This book presents a global view of the formation characteristics and behaviour of natural and artificial rockslide dams Chapters include a comprehensive state of the art review of our global understanding natural and artificial rockslide dams overviews of approaches to rockslide dam risk mitigation regional studies of rockslide dams in India Nepal China Pakistan New Zealand and Argentina Rockslide dams associated with large scale instability of volcanoes are also examined Detailed case histories of well known historic and prehistoric rockslide dams provide examples of investigations of rockslide dam behaviour stability and characteristics The

formation and behaviour of rockslide dammed lakes Quake Lakes formed during the 2008 Wenchuan Earthquake China are also comprehensively summarised The formation sedimentology and stability of rockslide dams is examined in several analytical papers An analysis of break out floods from volcanogenic lakes and hydrological methods of estimating break out flood magnitude and behavior are reviewed The use of remote sensing data in rockslide dammed lake characterisation is explored and a new approach to the classification of rockslide dams is introduced Finally a unique section of the book summarises Russian and Kyrgyz experience with blast fill dam construction in two papers by leading authorities on the technology The volume contains 24 papers by 50 authors from 16 countries including most of the recognised world authorities on the subject Studies on Slavery in Brazilian and African History and Literature Roberto

Hofmeister-Pich,Stephan Conermann,2025-10-14 Historically Latin American political entities were structured by different forms of slave labor that until the 19th century depended on transatlantic slave trade from Africa to the Americas In this volume scholars from Brazil Germany and Africa characterize different forms of serfdom in colonial times picture slavery based societies and explore aspects of dependency relations that emerged in the aftermath of abolition in Brazil and Africa

Tropical Alpine Environments Philip W. Rundel,Alan P. Smith,F. C. Meinzer,1994-09 Plants growing in tropical alpine environments at altitudes above the closed canopy forest and below the limit of plant life have evolved distinct forms to cope with a hostile environment characterized by cold drought and fire Unlike temperate alpine environments where there are distinct seasons of favourable and unfavourable conditions for growth tropical alpine habitats present summer conditions every day and winter conditions every night Using examples from all over the tropics this fascinating account reviews for the first time the unique form and functional relationships of tropical alpine plants examining both their physiological ecology and population biology It will appeal to anyone interested in tropical vegetation and plant physiological adaptations to hostile environment as well as to researchers in biogeography and ecology
