

A photograph of two men sitting on a rocky shore, looking out at a large body of water. In the background, a city skyline with several tall buildings is visible under a hazy sky. The man on the left has short brown hair and is wearing a light-colored shirt. The man on the right has dark, curly hair and is wearing a grey hoodie, with his arm around the other man's shoulder.

The two hardest things to
say in life are hello for the
first time and goodbye for
the last.

McCabe, 2025-10-21 Draws attention to the importance of support networks for students as they make keep and lose friends throughout college and beyond We re all familiar with the sentiment that college is the best time of your life Along with a newfound sense of freedom students have a unique opportunity to forge lifelong friendships at a point in life when friendship is particularly important Why is it then that so many college students are falling victim to what the US Surgeon General termed an epidemic of loneliness and isolation How do different aspects of college life help or hinder students ability to form deep connections In *Making Keeping and Losing Friends How Campuses Shape College Students Networks* sociologist Janice M McCabe shows that the way a college is structured whether students live in dorms or commute study abroad or stay close to campus have plentiful common areas for clubs to meet or not can either encourage or hinder the making of meaningful friendships Based on interviews with 95 students on three distinct campuses a small private college Dartmouth College a large public university University of New Hampshire and a non residential community college Manchester Community College McCabe captures a wide range of experiences and discovers how features of the campuses make it easier or harder for students to make and keep friends She shows how and why across all three institutions some students thrive in deep and lasting friendships with their peers As McCabe s research reveals we need to look at the structures of students networks the institutions they attend and the importance of their identities in these places if we are to truly uncover and address the loneliness epidemic facing today s young adults
