EARTH IS HISTORY. Dariusz is an engineer whose career ended years ago; now a man he's never met sits in a bar that doesn't exist and offers him a fresh start at a price. Cassandra Sand, to her friends, is a space pilot who itches to get her hands on the controls and actually fly a ship rather than watch computers do it for her. The Pointers, the elite 0.01% who control virtually all wealth, have seen the limitations of a plundered Earth and set their eyes on the stars. And now Dariusz and Sand and a half million ambitious men and women just like them are sent out to extend the Pointers and the Market's influence across the galaxy. But the colony fleet is sabotaged and the ESS Adam Mickiewicz crashes on an alien planet where one hemisphere is seared by perpetual daylight and the other shrouded in eternal night. The castaways have the chance to create society from scratch if they're not destroyed by the hostile planet or their own leaders before they can even begin. Alone Out Here Riley Redgate, 2022-04-05 What do you stand for when you're one of the last left standing? The year is 2072. Soon a volcanic eruption will trigger catastrophic devastation and the only way out is up. While the world's leaders, scientists and engineers oversee the frantic production of a space fleet meant to save humankind, their children are brought in for a weekend of touring the Lazarus, a high-tech prototype spaceship. But when the apocalypse arrives months ahead of schedule, first Daughter Leigh Chen and a handful of teens from the tour are the only ones to escape the planet. This is the new world: a starship loaded with a catalog of human artifacts, a frozen menagerie of animal DNA and fifty-three terrified survivors. From the panic arises a coalition of leaders spearheaded by the pilot's enigmatic daughter, Eli, who takes the wheel in their hunt for

a habitable planet But as isolation presses in their uneasy peace begins to fracture The struggle for control will mean the difference between survival and oblivion and Leigh must decide whether to stand on the side of the mission or of her own humanity With aching poignancy and tense heart in your mouth action this enthralling saga will stay with readers long after the final page

Lieutenant Thomas Walker's mission was successful but he will not be thanked for it His rediscovery of the colony's now repentant ancient enemy is not the salvation they hoped for and may have arrived too late The increasing threat of the monstrous alien Others coupled with fear fueled unrest over a supposed alliance with the beings who forced the colony to rebuild from nothing could all too easily spell their doom Worse yet it seems that Earth has not forgotten about the colony after all and their intentions are at best unclear
