Humanities Timothy R. Mahoney,Wendy J. Katz,2008-12-01 Although the framework of regionalist studies may seem to be
crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating
regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers
literary historians musicologists and historians of architecture agriculture and women this volume implements some of the
most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the
humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she
constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for
comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada
Whether considering a writer s connection to region or the idea of place in exploring what is meant by regionalism these
essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the
fundamental premise of the humanities the search to understand what it means to be human **The Mythical West**
Richard W. Slatta,2001-11-20 This cultural journey down memory lane showcases how major Western figures events and
places have been portrayed in folk legends art literature and popular culture Ever since the days of the 49ers and George
Armstrong Custer the Old West has been America s most potent source of legend But it is sometimes hard to separate fact
from fiction Did you know for example that Annie Oakley was a talented marksman who shot an estimated 40 000 rounds per
year while practicing and performing for Buffalo Bill Cody s Wild West Show in the late 1800s Or that many interpreters
believe that The Wonderful Wizard of Oz is not just a fairy tale but also a Populist allegory These are just two of the folk
legends dissected and examined in this veritable cultural geography The volume covers everything from billionaire Howard
Hughes and composer Aaron Copeland to Aztlan the legendary first city of the Aztecs and Area 51 the top secret U S Air
Force base at Groom Lake Nevada that has fascinated UFO and conspiracy buffs
