The deeply rooted value system and way of life of Islam calls for a different system especially when western democracy has its own problems and has failed to bring justice for all at home Liberal democracy as a secular system negates the role of faith in the political system of the Middle East and this negation is the main concern for many Muslims worldwide The question arises as to why the United States of America tries to impose its brand of political system in the Middle East while knowing that it is not a workable idea Democracy in Afghanistan and Iraq proved to be fatal The first objective of any political system should be to bring peace for its people Unfortunately not only is peace in these countries an elusive idea but also the needs of the underprivileged the destitute and the poor are not met This study provides an alternative approach for Muslim countries an Islamic political system from a fresh view point An Islamic system could be an ideal system for Muslim countries if Muslims would make an effort to not only meet the needs of their people but also meet the needs of the international community The purpose presumably of all parties is peace in the region and that peace is not possible if Islamic economic social and political ideas are ignored and replaced by a manifesto of globalization
