Americans of every color and background Index to America ,1976 Women and the Historical Enterprise in America: Gender, Race and the Politics of Memory Julie Des Jardins,2004-07-21 In Women and the Historical Enterprise in America Julie Des Jardins explores American women s participation in the practice of history from the late nineteenth century through the end of World War II a period in which history became professionalized as an increasingly masculine field of scientific inquiry Des Jardins shows how women nevertheless transformed the profession during these years in their roles as writers preservationists educators archivists government workers and social activists Des Jardins explores the work of a wide variety of women historians both professional and amateur popular and scholarly conservative and radical white and nonwhite Although their ability to earn professional credentials and gain research access to official documents was limited by their gender and often by their race these historians addressed important new questions and represented social groups traditionally omitted from the historical record such as workers African Americans Native Americans and religious minorities Assessing the historical contributions of Mary Beard Zora Neale Hurston Angie Debo Mari Sandoz Lucy Salmon Mary McLeod Bethune Dorothy Porter Nellie Neilson and many others Des Jardins argues that women working within the broadest confines of the historical enterprise collectively brought the new perspectives of social and cultural history to the study of a multifaceted American past In the process they not only developed the field of women s history but also influenced the creation of our national memory in the twentieth century **The Curriculum Foundations Reader** Ann Marie Ryan,Charles Tocci,Seungho Moon,2019-12-06 This book brings readers into classrooms and communities to explore critical curriculum issues in the United States throughout the twentieth century by focusing in on the voices of teachers administrators students and families Framed by an enduring question about curriculum each chapter begins with an essay briefly reviewing the history of topics such as student resistance sociopolitical and culturally centered curricula curriculum choice the place and space of curriculum linguistic policies for sustaining cultural heritages and grading and assessment Multiple archival sources follow each essay which allow readers to directly engage with educators and others in the past This promotes an in depth historical analysis of contemporary issues on teaching for social justice in the fields of curriculum studies and curriculum history As such this book considers educators in the past their struggles successes and daily work to help current teachers develop more historically conscious practices in formal and informal education settings **Hoax** Edward Steers,2013-04-01 A lively yet thoroughly researched look at persistent myths and stubborn scams and how historians try to combat them The Courier Journal Did a collector with a knack for making sensational discoveries really find the first document ever printed in America Did Hitler actually pen a revealing set of diaries Has Jesus burial cloth survived the ages Can the shocking true account of Abraham Lincoln s assassination be found in lost pages from his murderer s diary Napoleon famously observed that history is a set of lies agreed upon and Edward Steers Jr investigates six of the most amazing frauds ever to gain wide acceptance in this engrossing book Hoax examines the legitimacy of the Shroud of Turin

perhaps the most hotly debated relic in all of Christianity and the fossils purported to confirm humanity's missing link the Piltdown Man Steers also discusses two remarkable forgeries the Hitler diaries and the Oath of a Freeman and famous conspiracy theories alleging that Franklin D Roosevelt had prior knowledge of the planned attack on Pearl Harbor and that the details of Lincoln's assassination are recorded in missing pages from John Wilkes Booth's journal The controversies that Steers presents show that there are two major factors involved in the success of a hoax or forgery greed and the desire to believe Though all of the counterfeits and conspiracies featured in Hoax have been scientifically debunked some remain fixed in many people's minds as truth As Steers points out the success of these frauds highlights a disturbing fact If true history fails to entertain the public it is likely to be ignored or forgotten Political Assassins, Terrorists and Related Conspiracies in American History Scott P. Johnson, 2020-11-11 Political assassinations and terrorism have both outraged and fascinated the public throughout American history particularly in the modern era Providing biographical summaries of more than 100 assassins and terrorists this book aims at a more complete understanding of the motivations behind violent extremism The lives of the subjects are analyzed with a focus on psychological and ideological factors along with details of investigations and criminal trials Conspiracy theories are evaluated for credibility Social media features prominently in explaining political violence by members of extremist groups in the 21st century including radical Islamic terrorists anti abortion activists and white supremacists **The Journal of Negro History, Volume 1, January 1916** Various, 2021-01-18 *Fugitive Movements* James O'Neil Spady, 2022-01-28 In 1822 White authorities in Charleston South Carolina learned of plans among the city's enslaved and free Black population to lead an armed antislavery rebellion Among the leaders was a free Black carpenter named Denmark Vesey After a brief investigation and what some have considered a dubious trial Vesey and thirty five others were convicted of attempted insurrection and hanged Although the rebellion never came to fruition it nonetheless fueled Black antislavery movements in the United States and elsewhere To this day activists politicians writers and scholars debate the significance of the conspiracy how to commemorate it and the integrity of the archival records it left behind *Fugitive Movements* memorializes this attempted liberation movement with new interpretations of the event as well as comparisons to other Black resistance throughout the Atlantic World including Africa the Caribbean and the Northern United States This volume situates Denmark Vesey and antislavery rebellion within the current scholarship on abolition that places Black activists at the center of the story It shows that Black antislavery rebellion in general and the 1822 uprising by Black Charlestonians in particular significantly influenced the history of slavery in the Western Hemisphere The essays collected in this volume explore not only that history but also the ongoing struggle over the memory of slavery and resistance in the Atlantic World Manisha Sinha James L and Shirley A Draper Chair in American History at the University of Connecticut and author of *The Slave's Cause A History of Abolition* provides the foreword *Defenders Of Liberty* Lt.
