ATLANTIC LINERS CUNA Neil McCart,1990 **Sea Breezes** ,2000 **The Encyclopedia of U-boats** Eberhard Möller,Werner Brack,2004 A comprehensive reference book **Bibliography of Nautical Books** Alan Obin,2000-02 This is the 15th annual edition of the Bibliography of Nautical Books a reference guide to over 14 000 nautical publications It deals specifically with the year 2000 **Ships Monthly** ,1999 Marine News ,1997 *The World Almanac and Book of Facts* ,1912 Lists news events population figures and miscellaneous data of an historic economic scientific and social nature

The British National Bibliography Arthur James Wells,2003 *The Engineering Index* ,1922 **The American Year Book** ,1911 **Olympic Titanic Britannic** Simon Mills,2022-10-13 The Titanic The Britannic The Olympic They are some of the most famous ships in history but for the wrong reasons The Olympic Class liners were conceived as the largest grandest ships ever to set sail Of the three ships built the first only lost the record for being the largest because she was beaten by the second and they were both beaten by the third The class was meant to secure the White Star Line s reputation as the greatest shipping company on earth Instead with the loss of both the Titanic and the Britannic in their first year of service it guaranteed White Star s infamy This unique book tells the extraordinary story of these three extraordinary ships from the bottom up starting with their conception and construction and later their modification and following their very different careers Behind the technical details of these magnificent ships lies a tragic human story not just of the lives lost aboard the Titanic and Britannic but of the designers pushing the limits beyond what was actually possible engineers unable to prepare for every twist of fate and ship owners and crew who truly believed a ship could be unsinkable This fascinating story is told with rare photographs new computer generated recreations of the ships and unique wreck images that explore how well the ships were designed and built Simon Mills offers unparalleled access to shipbuilders Harland Wolff s specification book for the Olympic Class including original blueprints and being made widely available for the first time large fold out technical drawings showing how these extensive plans were meant to be seen **RMS Olympic** Mark Chirnside,2015-09-07 Launched as the pride of British shipbuilding and the largest vessel in the world Olympic was more than 40 per cent larger than her nearest rivals almost 900ft long and the first ship to exceed 40 000 tons She was built for comfort rather than speed and equipped with an array of facilities including Turkish and electric baths one of the first ships to have them a swimming pool gymnasium squash court la carte restaurant large first class staterooms and plush public rooms Surviving from 1911 until 1935 she was a firm favourite with the travelling public carrying hundreds of thousands of fare paying passengers and retained a style and opulence even into her twilight years During the First World War she carried more troops than any other comparable steamship and was the only passenger liner ever to sink an enemy submarine by ramming it Overshadowed frequently by her sister ships Titanic and Britannic Olympic s history deserves more attention than it has received She was evolutionary in design rather than revolutionary but marked an ambition for the White Star Line to

dominate the North Atlantic express route Rivals immediately began trying to match her in size and luxury The optimism that led to her conception was rewarded whereas her doomed sisters never fulfilled their creators dreams This revised and expanded edition of the critically acclaimed RMS Olympic Titanic s Sister uses new images and further original research to tell the story of this remarkable ship 80 years after her career ended Merchant Marine Bulletin ... United States. Bureau of Marine Inspection and Navigation,1936 *The New Volumes of the Encyclopaedia Britannica* ,1902 **The New Volumes of the Encyclopaedia Britannica** ,1902 **The New York Times Index** ,1919 *Commerce Reports* ,1924

The Atlantic Transport Line, 1881-1931 Jonathan Kinghorn,2012-01-27 In 1881 the dynamic Baltimorean Bernard N Baker established the Atlantic Transport Line an American owned but British operated steamship company with service from London to New York that became famous for shipping expensive livestock and for carrying only first class passengers Although moderately sized the company remained a significant presence in international shipping until World War I caused major business disruptions followed by changed priorities during peacetime Finally the Great Depression led to its closure This volume chronicles the history of the line and its absorption into J P Morgan s gargantuan and ill conceived International Mercantile Marine Company against the background of efforts to revive the American mercantile marine Descriptions of life on board Atlantic Transport Line vessels individual histories of every vessel owned by the line and biographies of key figures associated with the company make this the most complete account of this important player in the history of American trade
