Greek Prostitutes in the Ancient Mediterranean, 800 BCE-200 CE Allison Glazebrook, Madeleine M. Henry, 2011-01-06 Greek Prostitutes in the Ancient Mediterranean 800 BCE 200 CE challenges the often romanticized view of the prostitute as an urbane and liberated courtesan by examining the social and economic realities of the sex industry in Greco Roman culture Departing from the conventional focus on elite society these essays consider the Greek prostitute as displaced foreigner slave and member of an urban underclass The contributors draw on a wide range of material and textual evidence to discuss portrayals of prostitutes on painted vases and in the literary tradition their roles at symposia Greek drinking parties and their place in the everyday life of the polis Reassessing many assumptions about the people who provided and purchased sexual services this volume yields a new look at gender sexuality urbanism and economy in the ancient Mediterranean world

The Oxford Handbook of Social Relations in the Roman World Michael Peachin, 2011 The study of Roman society and social relations blossomed in the 1970s By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted There simply is however no overview that takes into account the multifarious progress that has been made in the past thirty odd years The purpose of this handbook is twofold On the one hand it synthesizes what has heretofore been accomplished in this field On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed The book opens with a substantial general introduction that portrays the current state of the field indicates some avenues for further study and provides the background necessary for the following chapters It lays out what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society

A Study of the Circulation of Ceramics in Cyprus from the 3rd Century BC to the 3rd Century AD John

Lund, 2015-10-26 This is the first monograph devoted solely to the ceramics of Cyprus in the Hellenistic and Roman Periods The island was by then no longer divided into kingdoms but unified politically first under Ptolemaic Egypt and later as a province in the Roman Empire Submission to foreign rule was previously thought to have diluted if not obliterated the time honoured distinctive Cypriot character The ceramic evidence suggests otherwise The distribution of local and imported pottery in Cyprus points to the existence of several regional exchange networks a division that also seems reflected by other evidence The similarities in material culture exchange patterns and preferential practices are suggestive of a certain level of regional collective self awareness From the 1st century BC onwards Cyprus became increasingly engulfed by mass produced and standardized ceramic fine wares which seem ultimately to have put many of the indigenous makers of similar products out of business or forced them to modify their output Also the ceramic record gradually became less diverse during the Roman Period than before developments which we today might be inclined to view as symptoms of an early form of globalisation

Paul, Apostle of Grace Frank Thielman, 2025-03-27 An engaging and accessible introduction to the life and world of Paul In this fresh and engaging survey Frank Thielman introduces readers to the life and world of the apostle Paul Drawing on the Acts of the Apostles and Paul's canonical letters as well as noncanonical sources and archaeological records Thielman constructs a vivid picture of the complex historical period and fascinating cultures in which Paul worked At the same time Thielman guides readers toward a deeper understanding of who Paul was what he believed and how he carried out his ministry Solidly grounded in Paul's own writings as well as scholarly research the book explores a wide range of compelling questions What drove Paul to endure often treacherous journeys of hundreds of miles to establish like minded communities around the world as he knew it What spurred him to recruit a network of co workers who were willing to help him in this vast project What kept him at the task even when it landed him in prison What prompted him to produce a body of letters to these communities of such depth that millions of people still read them with profit today Addressing these questions through careful and conservative research Paul Apostle of Grace is a worthy successor to F F Bruce's classic study and an essential resource for scholars and students of the Bible today

The Decline and Fall of the Ptolemies John D

Grainger, 2024-12-30 The death of Ptolemy VI brought his younger brother Ptolemy VIII to the kingship This was the start of a prolonged if intermittent turbulent period of family strife punctuated by rebellions plots and wars One king Ptolemy VII was

murdered Ptolemy VIII's two simultaneous wives plotted and rebelled and when he died one of these Kleopatra III was his effective successor Ptolemy VIII was in fact not a bad king in some ways and encouraged the exploitation of the discovery of the monsoon climate of the Indian Ocean to develop trade with India as well as using his much reduced navy to maintain contact with the lands of the Mediterranean Kleopatra III made a renewed effort to reconquer Palestine but failed Eighth Syrian War From the death of Ptolemy IX in 180 BC there were two overriding problems Ptolemy IX was the last legitimate Ptolemy and the succession was constantly in dispute from then on And looming over all was the rising power of Rome This had been largely absent from the eastern Mediterranean until the Mithradatic wars brought its power repeatedly into the East Egypt gradually became drawn into the republic's orbit mainly as a source of cash to fund its wars and the greed of the Roman aristocracy until choosing the side of Mark Antony the final Ptolemy Kleopatra VII went down to defeat before Octavian's forces

The Straits from Troy to Constantinople John D. Grainger, 2022-01-31 In ancient times the series of waterways now known as the Turkish Straits comprising the Dardanelles or Hellespont Sea of Marmara and the Bosphorus formed both a divide and a bridge between Europe and Asia Its western and eastern entrances

Seafaring and Mobility in the Late Antique Mediterranean Antti Lampinen, Emilia Mataix Ferrándiz, 2022-07-14

More than any other type of environment with the possible exception of mountains the sea has been understood since antiquity as being immovable to a proverbial degree Yet it was the sea's capacity for movement both literally and figuratively through such emotions as fear hope and pity that formed one of the primary means of conceptualizing its significance in Late Antique societies This volume advances a new and interdisciplinary understanding of what the sea as an environment and the pursuit of seafaring meant in antiquity drawing on a range of literary legal and archaeological evidence to explore the social economic and cultural factors at play The contributions are structured into three thematic parts which move from broad conceptual categories to specific questions of networks and mobility Part One takes a wide view of the Mediterranean as an environment with great metaphorical and symbolic potential Part Two looks at networks of seaborne communication and the role of islands as the characteristic hubs of the Mediterranean Finally Part Three engages with the practicalities of tackling the sea as a challenging environment that needs to be challenged politically legally and for the means of travel **The**

Journey of Christianity to India in Late Antiquity Nathanael J. Andrade, 2018-04-19 How did Christianity make its remarkable voyage from the Roman Mediterranean to the Indian subcontinent By examining the social networks that connected the ancient and late antique Mediterranean to the Indian Ocean central Asia and Iran this book contemplates the social relations that made such movement possible It also analyzes how the narrative tradition regarding the apostle Judas Thomas which originated in Upper Mesopotamia and accredited him with evangelizing India traveled among the social networks of an interconnected late antique world In this way the book probes how the Thomas narrative shaped Mediterranean Christian beliefs regarding co religionists in central Asia and India impacted local Christian cultures took shape in a variety of languages and experienced transformation as it traveled from the Mediterranean to India and back again

Matriarchy, Patriarchy, and Imperial Security in Africa Marsha R. Robinson, 2012-01-01 Matriarchy Patriarchy and Imperial Security in Africa is an interdisciplinary treatment of a topic that is usually addressed by political scientists and military strategists Rather than follow Thomas P M Barnett s Samuel Huntington s and Edward Sa d s top down approach to the turn of the twenty first century clash of the West and the Rest this book takes readers on a three thousand year grassroots journey through imperialism linguistics and applied critical theory to show readers that peace eludes us because we are not all working with the same definition of national security By adding a Saharan world trade system to the conventional Oriental Occidental binary of traditional Western Civilization narratives this book opens a view of Western Europe as a colonized territory of a medieval Roman empire that never died A parallel imperial reorganization occurred in West Asia Both systems deployed patriarchy as a gender bomb to implode and conquer matriarchal economies This clash of European West Asian and African matriarchal and patriarchal empires was the crucible that produced the United States of America as elder sibling of the family of post colonial frontier nations The author argues that patriarchal imperialists of Africa Western Asia and Western Europe tempted matriarchal men to betray the rights of women in exchange for the benefits of patria potestas Patriarchal empires then corrupt definitions of fatherhood and dehumanize the conquered men until they suffer from a societal malaise that the author calls patria impotestas Such economically castrated men revolted in the past and they respond now with twenty first century mass protests against austerity measures in Europe and protests against Wall Street in the U S as well as with acts of terrorism and tragically war crimes against women In this book the most insecure people are the elite The author concludes that terrorism piracy and acts of sabotage against industrial physical plants will continue in Africa Asia and the West until ordinary people around the world have positive answers to the Primordial Question Will my family eat today and sleep peacefully through the night

Rome and Judaea Linda Zollschan, 2016-12-08 Rome and Judaea explores the nature of Judaea s first diplomatic mission to Rome during the Maccabean revolt did it result in a sanctioned treaty or was it founded instead on amity This book breaks new ground in this debate by bringing to light the Roman Jewish Friendship tablet a newly discovered piece of evidence that challenges the theory Rome ratified an official

treaty with Judaea Incorporating interdisciplinary research and this new textual evidence the book argues that Roman Jewish relations during the Maccabean revolt were motivated by the Roman concept of diplomatic friendship or amicitia *The Oxford Handbook of Warfare in the Classical World* Brian Campbell, Lawrence A. Tritle, 2017-07 This Handbook gathers 38 leading historians to describe analyze and interpret warfare and its effects in classical Greece and Rome **The Oxford Handbook of Hellenic Studies** George Boys-Stones, Barbara Graziosi, Phiroze Vasunia, 2009-08-20 The Oxford Handbook of Hellenic Studies is a unique collection of some seventy articles which together explore the ways in which ancient Greece has been is and might be studied It is intended to inform its readers but also importantly to inspire them and to enable them to pursue their own research by introducing the primary resources and exploring the latest agenda for their study The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today Naval Warfare and Maritime Conflict in the Late Bronze and Early Iron Age Mediterranean Jeffrey P. Emanuel, 2020-11-04 In *Naval Warfare and Maritime Conflict in the Late Bronze and Early Iron Age Mediterranean* Jeffrey P Emanuel examines the evidence for maritime violence in the Mediterranean region during both the Late Bronze Age and the tumultuous transition to the Early Iron Age in the years surrounding the turn of the 12th century BCE There has traditionally been little differentiation between the methods of armed conflict engaged in during the Late Bronze and Early Iron Ages on both the coasts and the open seas while polities have been alternately characterized as legitimate martial actors and as state sponsors of piracy By utilizing material documentary and iconographic evidence and delineating between the many forms of armed conflict Emanuel provides an up to date assessment not only of the nature and frequency of warfare raiding piracy and other forms of maritime conflict in the Late Bronze Age and Late Bronze Early Iron Age transition but also of the extent to which modern views about this activity remain the product of inference and speculation The Economies of Hellenistic Societies, Third to First Centuries BC Zosia Archibald, John K. Davies, Vincent Gabrielsen, 2011-06-09 This selection of essays by key names in the field of ancient economies in the Hellenistic age c 330-30 BCE provides essential reading for anyone interested in the evolutionary building blocks of economic history in the eastern Mediterranean and neighbouring regions Case studies look at management and institutions human mobility and natural resources the role of different agents temples and cities as well as rulers in enhancing resources and circulating wealth the levers exerted by monopolies and by disparate status groups including slaves An introductory essay summarizes the operational elements that drove the engines of these economies
