Merde Excursions In Scientific Cultural And Socio Historical Coprology:

Merde Ralph A. Lewin,1999 Merde Ralph A. Lewin,2009-03-04 Merde is an unusual very unusual and witty investigation into a subject you may always have wondered about but didn't know quite what to ask History biology anthropology culture animal behavior all of these are the real subjects of Merde Why can some animals do it on the run and others can't Why does camel dung make good fires What are the fascinating stories of the dung beetles Myths and legends physical features health and disease uses for construction and as fertilizers even nutritional values Ralph Lewin writes about them all in the most ingratiating and sophisticated and yet scientific way Merde is also full of personal adventures and observations as well as anecdotes and examples The scattered literature on this subject is voluminous but until now no one has perused and compiled it all and given it a personal touch so to speak It will be hard not to talk about this treasure trove of a book after you've finished it or perhaps even when you're in the middle of it Merde Ralph A. Lewin,1999 In this highly anecdotal yet scientifically accurate book Ralph A Lewin takes the reader on a coprological tour showing how much of the world can be understood through Merde The Literature of Waste S. Morrison,2015-06-03 Tracing material and metaphoric waste through the Western canon ranging from Beowulf to Samuel Beckett Susan Signe Morrison disrupts traditional perceptions of waste to better understand how we theorize manage and are implicated in what is discarded and seen as garbage Engaging a wide range of disciplines Morrison addresses how the materiality of waste has been sedimented into a variety of toxic metaphors If scholars can read waste as possessing dynamic agency how might that change the ethics of refuse ing and ostracizing wasted humans A major contribution to the growing field of Waste Studies this comparative and theoretically innovative book confronts the reader with the ethical urgency present in waste literature itself Sacred and Profane in Chaucer and Late Medieval Literature Will Robins,2010-01-01 Literary depictions of the sacred and the secular from the Middle Ages are representative of the era's widely held cultural understandings related to religion and the nature of lived experience Using late Medieval English literature including some of Chaucer's writings these essays do not try to define a secular realm distinct and separate from the divine or religious but instead analyze intersections of the sacred and the profane suggesting that these two categories are mutually constitutive rather than antithetical With essays by former students of John V Fleming the collection pays tribute to the Princeton University professor emeritus through wide ranging scholarship and literary criticism Including reflections on depictions of Bathsheba Troilus and Criseyde the Legend of Good Women Chaucer's Pardoner and Margery Kempe these essays focus on literature while ranging into history philosophy and the visual arts Taken together the work suggests that the domain of the sacred as perceived in the Middle Ages can variously be seen as having a hierarchical or a complementary relationship to the things of this world Tree-kangaroos of Australia and New Guinea Roger Martin,2005-07-04 To many people the suggestion that a kangaroo could live up a tree is fantasy Yet in the rainforests of Far North Queensland and New Guinea there are extraordinary kangaroos that do just that Many aspects

of these marsupials anatomy and biology suggest a terrestrial kangaroo ancestor Yet no one has so far come forward with a convincing explanation of how why and when mammals that was so superbly adapted for life on the ground should end up back in the trees This book reviews the natural history and biology of tree kangaroos from the time of their first discovery by Europeans in the jungles of West Papua in 1826 right up to the present day covering the latest research being conducted in Australian and New Guinea Combining information from a number of disparate disciplines the author sets forth the first explanation of this apparent evolutionary conundrum **Lesser Flamingos** Lothar Krienitz,2018-12-31 This book provides insights into the fascinating life of the Lesser Flamingo *Phoeniconaias minor* and describes how this enigmatic bird has adapted to the extreme conditions of tropical soda lakes and can even withstand the caustic effects of brine However humans are increasingly disrupting the natural cycles of these wetlands and for these pink birds characteristic of these salt lakes it is becoming more and more difficult to find suitable habitats food and breeding grounds Their fate is considered a cautionary example of man's dealings with nature Will the Lesser Flamingo survive in a man made world Flamingos are considered to be an embodiment of the Phoenix and the author interweaves his personal experiences with and observations of the flamingos unusual habitats with the Phoenix motif in order to stimulate reflection on the circle of life Written in an accessible style that combines science biological information and the author's own travels and fieldwork the book also includes a wealth of captivating images As such it offers a unique resource for biologists and nature loving Africa and Asia enthusiasts alike

The City and the Senses Dr Alexander Cowan,Dr Jill Steward,2013-06-28 How do we experience a city in terms of the senses What are the inter relations between human experience and behaviour in urban space This volume examines these questions in the context of European urban culture between the fifteenth and twentieth centuries exploring the institutions and ideologies relating to the range of sensual experience and its interpretation Spanning pre industrial and modern cities in Britain France Germany and the United States it enables the reader to establish major contrasts and continuities in what is still an evolving urban experience Divided into sections corresponding to the five senses noise vision taste touch and smell each sections allows for comparisons which act as reminders that the experience of the city was a multi sensual one and that these experiences were as much intellectual as physical in their nature **Delicious Prose: Reading the Tale of Tobit**

with Food and Drink Naomi S.S. Jacobs,2018-10-02 In Delicious Prose Reading the Tale of Tobit with Food and Drink Naomi S S Jacobs explores how the numerous references to food drink and their consumption within The Book of Tobit help tell its story promote righteous deeds and encourage resistance against a hostile dominant culture Jacobs commentary includes up to date analyses of issues of translation text criticism source criticism redaction criticism and issues of class and gender Jacobs situates Tobit within a wide range of ancient writings sacred to Jews and Christians as well as writings and customs from the Ancient Near East Ugarit Greece Rome including a treasure trove of information about ancient foodways and medicine **Pornography, Sex, and Feminism** Alan Soble,2011-02 In this unabashed defense of pornography from a

utilitarian hedonist perspective philosopher Alan Soble strongly rebuts both feminist and conservative critics Soble demonstrates that neither conservative nor feminist critics of pornography show much acquaintance with the genre they criticize This suggests that purely political motives underlie their critiques instead of reasoned objective arguments based on thorough empirical research Soble also faults critics of pornography for their failure of empathy they refuse to see pornographic images from the various perspectives of their viewers In approaching these images literally detractors promulgate the worst possible interpretation of pornography Further they do not do justice to the social and psychological research about pornography and its purported harms Conservatives and feminists manufacture their case against pornography and its consumers based on oversimplified interpretations of the images and a poor understanding of scientific studies This sardonic and well reasoned critique of feminist and conservative moral outrage over pornography is sure to be controversial

Sexuality at the Fin de Siècle Peter Maxwell Cryle, Christopher E. Forth, 2008 It has come to be widely accepted that sexuality as we know it took shape at the end of the nineteenth century This is when Krafft Ebing asserted that sexual feeling is really the root of all ethics and no doubt of aestheticism and religion and Havelock Ellis declared sexuality to be the central problem of life Yet however self evident Ellis s claim about sexuality might seem the act of placing something at the center is the consequence of insistent cultural work that engages with competing views about bodies and indeed about the life of society This volume examines how this work was carried out and what resulted from such efforts **BOOK JACKET**

Excrement in the Late Middle Ages S. Morrison, 2008-09-15 This interdisciplinary book intergrates the historical practices regarding material excrement and its symbolic representation concluding that excrement is a moral and ethical category deserving scrutiny
