Mergers, Managers, and the Economy Samuel Richardson Reid, 1968 **Mergers and Economic Concentration** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust, Monopoly, and Business Rights, 1979 Mergers and Economic Efficiency: Industrial concentration, mergers, and growth, 1980 Mergers and Economic Efficiency, 1980 The Rise of the Corporate Economy Leslie Hannah, 2013-05-13 First published in 1976 this much acclaimed book looks at the story of how today's large corporations have superseded the small competing firms of the nineteenth century The long run analysis confirms that the crucial periods in the formulation of the modern corporate system were the 1920s and 1960s The merger wave of these decades was associated with a desire to improve the efficiency of Britain's industrial organization and the author shows that it was in a large measure responsible for the trend improvement by historical if not international standards in Britain's growth performance Students of business economic history and industrial economics will all welcome the return to print of a notable contribution to the continuing debate on the evolution and control of the corporate manufacturing sector *Mergers and Economic Performance* Keith Cowling, University of Warwick.
