Ancestors Olivier Hekster, 2015 Ancestry played a continuous role in the construction and portrayal of Roman emperorship in the first three centuries AD Emperors and Ancestors is the first systematic analysis of the different ways in which imperial lineage was represented in the various media through which images of emperors could be transmitted Looking beyond individual rulers Hekster evaluates evidence over an extended period of time and differentiates between various types of sources such as inscriptions sculpture architecture literary text and particularly central coinage which forms the most convenient source material for a modern reconstruction of Roman representations over a prolonged period of time The volume explores how the different media in use sent out different messages The importance of local notions and traditions in the choice of local representations of imperial ancestry are emphasized revealing that there was no monopoly on image forming by the Roman centre and far less interaction between central and local imagery than is commonly held Imperial ancestry is defined through various parallel developments at Rome and in the provinces Some messages resonated outside the centre but only when they were made explicit and fitted local practice and the discourse of the medium The construction of imperial ancestry was constrained by the local expectations of how a ruler should present himself and standardization over time of the images and languages that could be employed in the media at imperial disposal Roman emperorship is therefore shown to be a constant process of construction within genres of communication representation and public symbolism

New Testament Theology Philip Francis Esler, 2005 Esler s innovative proposal features a cutting edge combination of theology exegesis and social analysis He argues for new thinking about New Testament theology in light of the early social history of Christian communities His detailed analysis of Paul s letters to the Romans and 1 Corinthians validates his thesis and clarifies its significance for scholarship Using both the tradition of the communion of the saints and social scientific methods Esler brings the discipline of New Testament theology back to its theological core He argues that interpreters also need to take into account both the history of interpretation and the multitude of voices within the contemporary church

Linguistic Equity and Procedural Justice through an Interpreter in Court Ran Yi, 2025-06-02 This book presents the findings from original research about court interpreting in the disciplines of humanities and social sciences from a linguistic perspective It argues that the interpretations of the manner of speech in court can have implications for the accuracy of court interpreting and thus procedural justice The right to a fair representation in one s language of choice is a crucial aspect of linguistic equity and procedural justice However little has been researched about how lawyer questions and the defendant s responses are interpreted in courtroom examinations Drawing on questionnaires and interpreting performance data this mixed methods study adopts a practice informed and evidence based approach to showcase how linguistic evidence can be altered and under represented through an interpreter in court This book has three main contributions 1 increasing the awareness of interpreting accuracy through the manner of speech linguistic equity and procedural justice through a court interpreter 2

promoting effective multilingual legal communication through interprofessional understanding and researcher practitioner collaboration and 3 compassing future pedagogies about the interpreting accuracy of the manner of speech in court interpreter training Readers interested in applied linguistics and translation studies would benefit from reading this book This interdisciplinary work focuses on language policy court interpreting and linguistic human rights policy and qualitative research methods
