Sibley, 2016-03-02 This volume explores more than two centuries of literature on the First Ladies from Martha Washington to Michelle Obama providing the first historiographical overview of these important women in U S history Underlines the growing scholarly appreciation of the First Ladies and the evolution of the position since the 18th century Explores the impact of these women not only on White House responsibilities but on elections presidential policies social causes and in shaping their husbands legacies Brings the First Ladies into crisp historiographical focus assessing how these women and their contributions have been perceived both in popular literature and scholarly debate Provides concise biographical treatments for each First Lady AI and the Bomb James Johnson, 2023-01-24 Will AI make accidental nuclear war more likely If so how might these risks be reduced AI and the Bomb provides a coherent innovative and multidisciplinary examination of the potential effects of AI technology on nuclear strategy and escalation risk It addresses a gap in the

international relations and strategic studies literature and its findings have significant theoretical and policy ramifications for using AI technology in the nuclear enterprise The book advances an innovative theoretical framework to consider AI technology and atomic risk drawing on insights from political psychology neuroscience computer science and strategic studies In this multidisciplinary work James Johnson unpacks the seminal cognitive psychological features of the Cold War era scholarship and offers a novel explanation of why these matter for AI applications and strategic thinking The study offers crucial insights for policymakers and contributes to the literature that examines the impact of military force and technological change

Mass Media in 2025 Erwin K. Thomas, Brown H. Carpenter, 2001-08-30 The future of mass media may appear unpredictable and too complex to fathom but Mass Media in 2025 takes a scholarly theoretical approach to identifying trends and explaining their possibilities Noted contributors approach a variety of media with a solid grounding in the history of each and an eye for which may be vulnerable and which may thrive in the new technological age Trends such as interactivity and niche building will affect everything from the newspaper to public relations and this collection of essays provides a fascinating guide to where the next decades may take us Regardless of the visual aural or printed form Mass Media in 2025 illustrates the degree to which older media will have to incorporate the level of interaction and specialization offered by newer media if they are to survive These effects can already be seen in the proliferation of television channels in the ironic bent of advertising in the rise of infotainment in news organizations This book shows not only how all of this has come to be but also more importantly where it will go

Echo Chambers of Conflict Jonathan Matusitz, Jonah Lynne, 2025-10-20 This volume offers a detailed description of how media propaganda shapes public perception in conflict zones drawing on key communication theories like framing and agenda setting It analyzes disinformation campaigns by Hamas and Israel showing how psychological warfare plays out on social media platforms The book delves into polarization and radicalization emphasizing social media's role in exacerbating these processes and exploring how individuals especially youths are radicalized online through gradual stages of desensitization This discussion is expanded through an analysis of digital activism and the role of social media in facilitating global protest movements
