Metapolitics: the Roots of the Nazi Mind Peter Viereck, 1961 Metapolitics , 1961 **Meta-politics, the Roots of the Nazi Mind** Peter Robert Edwin Viereck, 1965 **Metapolitics** Peter Viereck, 1961 **Metapolitics** Peter Viereck, 1965

Metapolitics Peter Viereck, 2017-07-12 More than half a century after the fall of the Third Reich Nazism its roots and its essential nature remain a central and unresolved enigma of the twentieth century During the period of Hitler s ascendancy most attempts at explaining this unprecedented phenomenon were framed in economic often Marxist sociological terms and concepts Peter Viereck s *Metapolitics* initially published in 1941 broke with this convention by indicting Hitler in terms of the Judaic Christian ethical tradition and locating certain elements of the Nazi worldview in German romantic poetry music and social thought Newly expanded *Metapolitics* remains a key work in the cultural interpretation of Nazism and totalitarianism and in the psychological interpretation of Hitler as a Wagnerite and failed artist The term *metapolitics* a coinage from Richard Wagner s nationalist circle signifies an ideology resulting from five distinct strands romanticism embodied chiefly in the Wagnerian ethos the pseudo science of race Fuehrer worship vague economic socialism and the alleged supernatural and unconscious force of the Volk collectivity Together those elements engendered an emphasis on irrationalism and hysteria and belief in a special German mission to direct the course of the world s history Viereck analyzes nineteenth century German thought s conflicting attitudes toward political procedures and social arrangements rooted in classical rational legalistic and Christian traditions This edition includes an appreciation by Thomas Mann and an exchange with Jacques Barzun debating Viereck s criticism of German romanticism Viereck s essays on the case of Albert Speer on Claus von Stauffenberg the German officer who led the army conspiracy to assassinate Hitler and on the poets Stefan George and Georg Heym appear here for the first time in book form **Metapolitics** Peter Viereck, 1965 **Metapolitics: the Roots of the Nazi Mind ... a Revised and Enlarged Edition of "Metapolitics: from the Romantics to Hitler," with ... a New Appendix of Unpublished Thomas Mann Material** Peter Viereck, 1961 Metascience and Politics A. James Gregor, 2020-03-25 A central problem in political inquiry is the conceptual and linguistic informality of political science For most of its history the discipline has been largely pursued with the analytic and logical machinery of ordinary language Likewise there has been little effort to standardize how language is used or to systematize theoretical procedures to insure methodological uniformity In an effort to better understand and defend the research processes that attend sustain and foster the systematic credibility of political science Gregor argues a special conceptual language is needed to enhance the rigor replicability articulation and interpretation of political science s empirical findings Gregor reviews the conceptual inventory of the social sciences in general with particular emphasis on distinctions between descriptive theoretical and normative language He analyzes what might count as objectivity and truth in a given set of circumstances in an effort to standardize how political scientists make such distinctions How theory and explanation might be assessed in less rigorous disciplines is also considered Gregor is

opposed to the postmodernist tendency to use language games in the social sciences that purport to close the gaps separating the discourses of knowledge ethics and politics but do so at the expense of clarity rigor and objectivity In Gregor's view these alternative perspectives have exploited vagueness and ambiguity in order to accomplish what they consider to be their political tasks A substantial postscript to this edition traces some of the postmodernist perspectives to their origins in the works of particular individuals and to their history in the thought of twentieth century Europe Metascience and Politics attempts to address all these issues with brevity and seriousness of purpose in order to provide a defensible rationale for the scientific character of social and political studies It will be of interest to political scientists sociologists philosophers and intellectual historians A James Gregor is professor of political science at the University of California at Berkeley and an adjunct professor at Command and Staff College U S Marine Corps University at Quantico Virginia He has also been awarded the Order of Merit by the President of the Italian Republic for his contribution to Italy as a nation through his published works He is the author of Giovanni Gentile Philosopher of Fascism Interpretations of Fascism Phoenix Fascism in Our Time and Marxism China and Development all published by Transaction *The Jewish Holocaust* Marty Bloomberg, Buckley Barry Barrett, 1995-01-01 This expanded edition of the guide to major books in English on the Holocaust is organized into ten subject areas reference materials European antisemitism background materials the Holocaust years Jewish resistance

Skepsis and Antipolitics: The Alternative of Gustav Landauer, 2022-12-12 Gustav Landauer was an unconventional anarchist who aspired to a return to a communal life His antipolitical rejection of authoritarian assumptions is based on a radical linguistic scepticism that could be considered the theoretical premise of his anarchism The present volume aims to add to the existing scholarship on Landauer by shedding new light on his work focussing on the two interrelated notions of skepsis and antipolitics In a time marked by a deep doubt concerning modern politics Landauer's alternative can help us to more seriously address the struggle for a different articulation of our communitarian and ecological needs **The**

Nietzsche Legacy in Germany Steven E. Aschheim, 1994-02-25 Countless attempts have been made to appropriate the ideas of Friedrich Nietzsche for diverse cultural and political ends but nowhere have these efforts been more sustained and of greater consequence than in Germany Aschheim offers a magisterial chronicle of the philosopher's presence in German life and politics *Metapolitics : the Roots of the Nazi Mind ; Being a Rev. and Enl. Politics and the Occult Gary Lachman,2012-12-16 The gritty business of politics is not something we usually associate with the occult But esoteric beliefs have influenced the destiny of nations since the time of ancient Egypt and China when decisions of state were based on portents and astrology to today when presidents and prime ministers privately consult self proclaimed seers Politics and the Occult offers a lively history of this enduring phenomenon Author and cultural pundit Gary Lachman provocatively questions whether the separation of church and state so dear to modern political philosophy should be maintained A few of his fascinating topics include the fate of the Knights Templar and the medieval Gnostic Cathars the occult roots of America and the French Revolution in Freemasonry Gurdjieff and the swastika Soviet interest in UFOs the CIA and LSD the Age of Aquarius the millenarian politics that inform the struggle with Islamic terrorism fundamentalism and more

Children's Literature in Hitler's Germany Christa Kamenetsky, 2019-06-17 Between 1933 and 1945 National Socialists enacted a focused effort to propagandize children s literature by distorting existing German values and traditions with the aim of creating a homogenous folk community A vast censorship committee in Berlin oversaw the publication revision and distribution of books and textbooks for young readers exercising its control over library and bookstore content as well as over new manuscripts so as to redirect the cultural consumption of the nation s children In particular the Nazis emphasized Nordic myths and legends with a focus on the fighting spirit of the saga heroes their community loyalty and a fierce spirit of revenge elements that were then applied to the concepts of loyalty to and sacrifice for the F hrer and the fatherland They also tolerated select popular series even though these were meant to be replaced by modern Hitler Youth camping stories In this important book first published in 1984 and now back in print Christa Kamenetsky demonstrates how Nazis used children s literature to selectively shape a Nordic Germanic worldview that was intended to strengthen the German folk community the F hrer and the fatherland by imposing a racial perspective on mankind Their efforts corroded the last remnants of the Weimar Republic s liberal education while promoting an enthusiastic following for Hitler
