*A Treatise of Legal Philosophy and General Jurisprudence* Enrico Pattaro, Corrado Roversi, 2016-07-13 A Treatise of Legal Philosophy and General Jurisprudence is the first ever multivolume treatment of the issues in legal philosophy and general jurisprudence from both a theoretical and a historical perspective. The work is aimed at jurists as well as legal and practical philosophers. Edited by the renowned theorist Enrico Pattaro and his team this book is a classical reference work that would be of great interest to legal and practical philosophers as well as to jurists and legal scholars at all levels. The work is divided in two parts. The theoretical part published in 2005 consisting of five volumes covers the main topics of the contemporary debate. The historical part consisting of six volumes Volumes 6-8 published in 2007 Volumes 9 and 10 published in 2009 Volume 11 published in 2011 and Volume 12 forthcoming in 2016 accounts for the development of legal thought from ancient Greek times through the twentieth century. Volume 12 Legal Philosophy in the Twentieth Century The Civil Law World Volume 12 of *A Treatise of Legal Philosophy and General Jurisprudence* titled Legal Philosophy in the Twentieth Century The Civil Law World functions as a complement to Gerald Postema's volume 11 titled Legal Philosophy in the Twentieth Century The Common Law World and it offers the first comprehensive account of the complex development that legal philosophy has undergone in continental Europe and Latin America since 1900. In this volume leading international scholars from the different language areas making up the civil law world give an account of the way legal philosophy has evolved in these areas in the 20th century the outcome being an overall mosaic of civil law legal philosophy in this arc of time. Further specialists in the field describe the development that legal philosophy has undergone in the 20th century by focusing on three of its main subjects namely legal positivism natural law theory and the theory of legal reasoning and discussing the different conceptions that have been put forward under these labels. The layout of the volume is meant to frame historical analysis with a view to the contemporary theoretical debate thus completing the Treatise in keeping with its overall methodological aim namely that of combining history and theory as a necessary means by which to provide a comprehensive account of jurisprudential thinking.

**A metafísica do conceito: sobre o problema do conhecimento de Deus na Encyclopédia das Ciências Filosóficas de Hegel , A queda da interpretação** James K. A. Smith, 2021-06-15 No princípio a hermenutica Jacques Derrida Vrios filhos do culto passado tiveram como foco o problema da hermenutica um interesse também partilhado pelos teólogos os quais buscavam interpretar os textos bíblicos. Como os cristãos modernos desafiaram a possibilidade de compreender quaisquer textos a questão de como contestar tornou-se central. Entre uma mirada de abordagens hermenutica tanto os teólogos seculares quanto os cristãos frequentemente assumiram a mesma coisa que a necessidade de interpretação lamentável e até mesmo cética. Em um mundo ideal não haveria necessidade de interpretação que a comunicação seria imediata instantânea e sem falhas. Em A queda da interpretação James K. A. Smith examina a discussão hermenutica contemporânea identificando três modelos e como eles lidam com esse problema imediato presente no
