magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea Traces of Trauma Boreth Ly, 2019-11-30 How do the people of a morally shattered culture and nation find ways to go on living? Cambodians confronted this challenge following the collective disasters of the American bombing, the civil war, and the Khmer Rouge genocide. The magnitude of violence and human loss, the execution of artists and intellectuals, the erasure of individual and institutional cultural memory, all caused great damage to Cambodian arts, culture, and society. Author Boreth Ly explores the traces of this haunting past in order to understand how Cambodians at home and in the diasporas deal with trauma on such a vast scale. Ly maintains that the production of visual culture by contemporary Cambodian artists and writers, photographers, filmmakers, court dancers, and poets embodies traces of trauma, scars leaving an indelible mark on the body and the psyche. Her book considers artists of different generations and family experiences: a Cambodian American woman whose father sent her as a baby to the United States to be adopted; the Cambodian French filmmaker Rithy Panh, himself a survivor of the Khmer Rouge whose film *The Missing Picture* was nominated for an Oscar in 2014; a young Cambodian artist born in 1988, part of the post-memory generation. The works discussed include a variety of materials and remnants from the historical past: the broken pieces of a shattered clay pot, the scarred landscape of bomb craters, the traditional symbolism of the checkered scarf called *krama*, as well as the absence of a visual archive. Boreth Ly's poignant book explores obdurate traces that are fragmented and partial, like the acts of remembering and forgetting. Her interdisciplinary approach, combining art history, visual studies, psychoanalysis, cultural studies, religion, and philosophy, is particularly attuned to the diverse body of material discussed, including photographs, video, installations, performance art, poetry, and mixed media. By analyzing these works through the lens of trauma, she shows how expressions of a national trauma can contribute to healing and the reclamation of national identity. *New York Magazine*, 1983-11-14. *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.
