История за каждой песней** Крис Ингэм+, 2020-02-12 Metallica *Metal Music* Nicole Horning, 2018-12-15 How did the popularity of the Beatles lead to the birth of metal music What do metal artists have in common with classical composers such as Bach and Vivaldi Readers will explore the answers to these questions and more as they journey through the history of metal music from Black Sabbath to Slipknot Readers will gain a deeper appreciation for this complex genre as they explore the evolution of metal and its sub genres through annotated quotes from musicians and critics full color photographs and a discography of some of the most influential albums in headbanging history [Call Me the Seeker](#) Michael J. Gilmour, 2005-06-24 One of very few books on religion and popular music Covers a wide range of musical styles from heavy metal and rap to country jazz and Broadway musicals The essays are written by academics and

informed by their enthusiasm for the music Many books have explored the relationship between religion and film but few have yet examined the significance of religion to popular music Call Me The Seeker steps into that gap Michael Gilmour's introductory essay gives a state of the discipline overview of research in the area He argues that popular songs frequently draw from and interpret themes found in the conceptual and linguistic worlds of the major religions and reveal underlying attitudes in those who compose and consume them He says these texts deserve more serious study The essays in the book start an on going conversation in this area bringing a variety of methodologies to bear on selected artists and topics Musical styles covered range from heavy metal and rap to country jazz and Broadway musicals
