Metaphor & Memory Cynthia Ozick, 1991 **Metaphor & Memory** Cynthia Ozick, 2021-04-13 From the author of *The Messiah of Stockholm* and *Art and Ardor* comes a new collection of supple provocative and intellectually dazzling essays In *Metaphor Memory* Cynthia Ozick writes about Saul Bellow and Henry James William Gaddis and Primo Levi She observes the tug of war between written and spoken language and the complex relation between art s contrivances and its moral truths She has given us an exceptional book that demonstrates the possibilities of literature even as it explores them Body Memory, Metaphor and Movement Sabine C. Koch, Thomas Fuchs, Michela Summa, 2012-01-01 *Body Memory Metaphor and Movement* is an interdisciplinary volume with contributions from philosophers cognitive scientists and movement therapists Part one provides the phenomenologically grounded definition of body memory with its different typologies Part two follows the aim to integrate phenomenology conceptual metaphor theory and embodiment approaches from the cognitive sciences for the development of appropriate empirical methods to address body memory Part three inquires into the forms and effects of therapeutic work with body memory based on the integration of theory empirical findings and clinical applications It focuses on trauma treatment and the healing power of movement The book also contributes to metaphor theory application and research and therefore addresses metaphor researchers and linguists interested in the embodied grounds of metaphor Thus it is of particular interest for researchers from the cognitive sciences social sciences and humanities as well as clinical practitioners *Memory, Metaphors, and Meaning* Nicolae Babuts, 2017-07-05 Literature explores the human condition the mystery of the world life and death as well as our relations with others and our desires and dreams It differs from science in its aims and methods but Babuts shows in other respects that literature has much common ground with science Both aim for an authentic version of truth To this end literature employs metaphors and it does so in a manner similar to that of scientific inquiry The cognitive view does not imply that there is a one to one correlation between the world and text that meaning belongs to the author or that literature is equivalent to perception What it does maintain is that meaning is crucially dependent on mnemonic initiatives and that without memory the world remains meaningless Nicolae Babuts claims that at the interface with the printed page readers process texts in a manner similar to the way they explain the visible world in segments or units of meaning or dynamic patterns Babuts argues that humans achieve recognition by integrating stimulus sequences with corresponding patterns that recognize and interpret each segment of a text Memory produces meaning from these patterns In harmony with its goals memory may adopt specific strategies to deal with different stimuli Dynamic patterns link the unit of processing with the unit of meaning In sum Babuts proposes that meaning is achieved through metaphors and narrative and that both are ways to reach cognitive goals This original study offers perspectives that will interest cognitive psychologists as well as those simply interested in the process through which literature stirs the human imagination **Review of Biblical Literature, 2023** Alicia J. Batten, 2024-01-30 The annual Review of Biblical Literature

Theses on the Metaphors of Digital-Textual History Martin Paul Eve, 2024-07-16 Digital spaces are saturated with metaphor we have pages sites mice and windows Yet in the world of digital textuality these metaphors no longer function as we might expect Martin Paul Eve calls attention to the digital textual metaphors that condition our experience of digital space and traces their history as they interact with physical cultures Eve posits that digital textual metaphors move through three life phases Initially they are descriptive Then they encounter a moment of fracture or rupture Finally they go on to have a prescriptive life of their own that conditions future possibilities for our text environments even when the metaphors have become untethered from their original intent Why is whitespace white Was the digital page always a foregone conclusion Over a series of theses Eve addresses these and other questions in order to understand the moments when digital textual metaphors break and to show us how it is that our textual softwares become locked into paradigms that no longer make sense Contributing to book history literary studies new media studies and material textual studies *Theses on the Metaphors of Digital Textual History* provides generative insights into the metaphors that define our digital worlds

The Metaphoric Process Gemma Corradi Fiumara, 2005-08-16 Metaphor is much more than just a linguistic phenomena argues Gemma Corradi Fiumara it is in fact the key process by which we construct and develop our ability to understand the world and the people we share it with Rationality as understood by philosophers has led to a disembodied view of ourselves in which interaction between life and language has been downplayed By looking at the metaphoric process in an interpersonal rather than a formal way its importance in allowing us access to new worlds of experience is revealed The metaphoric potential in us all exposes us to the world and initiates our involvement in it
