**The Autobiography of Philosophy** Michael Davis, 1999 This is the most important book about the nature of philosophy and of the human soul published this year In making the condition for its own possibility its deepest concern philosophy is necessarily about itself\_it is autobiographical The first part of The Autobiography of

Philosophy interprets Heidegger's Being and Time Nietzsche's On the Genealogy of Morals Aristotle's Metaphysics and Plato's Lysis as examples of the implicitly autobiographical character of philosophy The second part is a reading of Rousseau's The Reveries of the Solitary Walker Although Rousseau's explicitly autobiographical writings are more often read for the tantalizing details of his rather eccentric life than for their philosophical import this work is an artful use of Rousseau's exile and isolation\_ the strangest position in which a mortal could ever find himself \_as a paradigm for the human soul in its relation to the world In powerfully articulating the activity that is at the core of all philosophy The Reveries articulates the nature of the human soul for which this activity is the defining possibility

**Seeking Passage** Rebecca A. Martusewicz, 2001 In this eloquent collection of essays Rebecca Martusewicz positions a philosophy of education that relies on what transpires between teachers and learners in various contexts She thoughtfully analyzes how in the relationship between teachers and learners all kinds of ideas beliefs interpretations and meanings are generated as a result of potent generative forces that depend as she demonstrates using post structuralist theories on difference as their fuel Ultimately she argues that to become educated requires an attention to the welfare of self and others and a willingness to confront and shift one's own habits practices and beliefs for that purpose This work contains clear translations of post structuralist theories such as those of Deleuze Serres and Derrida well written essays that blend good storytelling theory and ethical analysis to reconceptualize education as the means toward social justice and a clear argument for the drawing together of analyses of difference introduced by post structuralism with attention to ethics and social justice as they apply to education

**American Poetry as Transactional Art** Stephen Fredman, 2020-06-02 Explores the ways American poetry engages with visual art music fiction spirituality and performance art Many people think of poetry as a hermetic art as though poets wrote only about themselves or as if the subject of poetry were finally only poetry its forms and traditions Indeed much of what constitutes poetry in the lyric tradition depends on a stringently controlled point of view and aims for a timeless intransitive utterance Stephen Fredman's study proposes a different perspective American Poetry as Transactional Art explores a salient quality of much avant garde American poetry that has so far lacked sustained treatment namely its role as a transactional art Specifically Fredman describes this role as the ways it consistently engages in conversation talk correspondence going beyond the scope of its own subjects and forms

its existential interactions with the outside world Poetry operating in this vein draws together images ideas practices rituals and verbal techniques from around the globe and across time not to equate them but to establish dialogue to invite as many guests as possible to the World Party which Robert Duncan has called the symposium of the whole Fredman invites new readers into contemporary poetry by providing lucid and nuanced analyses of specific poems and specific interchanges between poets and their surroundings He explores such topics as poetry's transactions with spiritual traditions and practices over the course of the twentieth century the impact of World War II on the poetry of Charles Olson and George Oppen exchanges between poetry and other art forms including sculpture performance art and ambient music the battle between poetry and prose in the early work of Paul Auster and in Lyn Hejinian's *My Life* The epilogue looks briefly at another crucial transactional occasion teaching American poetry in the classroom in a way that demonstrates that it is at the center of the arts and at the heart of American culture
