North China And Japanese Expansion 1933 1937 Regional Power And The National Interest:

North China and Japanese Expansion 1933-1937 Marjorie Dryburgh, 2013-11-05 This work draws on a wide range of Chinese and Japanese sources to analyse the uncertain loyalties and complex internal pressures that drove Sino Japanese interaction in prewar north China It examines the shifting understandings of the North China problem in its practical political and moral aspects and challenges existing assumptions concerning Chinese relations with Japan and their impact on domestic politics

The Capitalist Dilemma in China's Cultural Revolution Sherman Cochran, 2014-12-31 How can capitalists motivations during a Communist revolution be reliably documented and fully understood Up to now the answer to this question has generally eluded scholars who for lack of nonofficial sources have fallen back on Communist governments official explanations But the essays in this volume confirm that at least in the case of the Communist revolution in China it is finally possible to make new and fresh interpretations By focusing closely on individuals and probing deeply into their thinking and experience the authors of these essays have discovered a wide range of reasons for why Chinese capitalists did or did not choose to live and work under communism The contributors to this volume have all concentrated on the dilemma for capitalists in China s Communist revolution But their approach to their subject through archival research and rigorous analysis may also serve as a guide for future thinking about a variety of other historical figures This approach is well worth adopting to explain how any members of society not only capitalists have resolved comparable dilemmas in all revolutions the ones in China Russia Vietnam Cuba or anywhere else

A Springboard to Victory Sherman Xiaogang Lai, 2011-01-07 Did the Chinese Communists use money or banking systems during their struggle for national power In the West this question was not answered or even raised for sixty years after the Communists took over China in 1949 This book examines the Communists revenue and supply system during the Japanese occupation in Shandong a coastal province in northern China It explores how the Communists manipulated currency exchange rates to turn trade within the occupied zones into their principal source of revenue and transform the Japanese army and navy into their most important customers Thus enabling them to stockpile the materials needed for the race against the Nationalists into Manchuria China s only industrialized area immediately after Japan s surrender

Imperial Japan and National Identities in Asia, 1895-1945 Robert Cribb, Narangoa Li, 2020-08-26 Between 1895 and 1945 Japan was heavily engaged in other parts of Asia first in neighbouring Korea and northeast Asia later in southern China and Southeast Asia During this period Japanese ideas on the nature of national identities in Asia changed dramatically At first Japan discounted the significance of nationalism but in time Japanese authorities came to see Asian nationalisms as potential allies especially if they could be shaped to follow Japanese patterns At the same time the ways in which other Asians thought of Japan also changed Initially many Asians saw Japan as a useful but distant model but with the rise of Japanese political power this distant admiration

turned into both cooperation and resistance This volume includes chapters on India Tibet Siberia Mongolia Korea Manchukuo China Taiwan Vietnam Thailand the Philippines and Indonesia **General He Yingqin** Peter

Worthing,2016-03-29 A revisionist study of the career of General He Yingqin one of the most prominent military officers in China s Nationalist period 1928-49 and one of the most misunderstood figures in twentieth century China Western scholars have dismissed He Yingqin as corrupt and incompetent yet the Chinese archives reveal that he demonstrated considerable success as a combat commander and military administrator during civil conflicts and the Sino Japanese War His work in the Chinese Nationalist military served as the foundation of a close personal and professional relationship with Chiang Kai shek with whom he worked closely for more than two decades Against the backdrop of the Nationalist revolution of the 1920s through the 1940s Peter Worthing analyzes He Yingqin s rise to power alongside Chiang Kai shek his work in building the Nationalist military and his fundamental role in carrying out policies designed to overcome the regime s greatest obstacles during this turbulent period of Chinese history **Industrial Eden** Brett Sheehan,2015-04-09 Traces the efforts of Song

Chuandian and his son Song Feiqing to run the Dongya Corporation and other successful businesses in 20th century North China under Imperial Nationalist Japanese the post war Nationalists and Communist governments before retreating to Hong Kong **Trust in Troubled Times** Brett Sheehan,2003 This timely book traces the development of banking and paper money in republican Tianjin in order to explore the creation of social trust in financial institutions Framing the study around Bian Baimei a conscientious branch manager of the Bank of China Brett Sheehan analyzes the actions of bankers officials and local elites as they tried to overcome political and financial crises and instill trust in the banking system After early failures in promoting trust government authority as a regulator of the financial system gradually increased peaking in 1935 when the state unified the money supply for the first time in several hundred years Concurrently when local elites proved unable to develop successful strategies to make people trust the system their influence declined The need for trust in increasingly complex financial arrangements redefined state society relations simultaneously enhancing state power and creating new constraints on the actions of both elites and governments Trust in Troubled Times is a valuable new perspective on the economic social and political history of modern China **The Manchurian Crisis and Japanese Society, 1931-33** Sandra

Wilson,2003-08-27 This book explores the reactions to the Manchurian crisis of different sections of the state and of a number of different groups in Japanese society particularly rural groups women s organizations and business associations It thus seeks to avoid a generalized account of public relations to the military and diplomatic events of the early 1930s offering instead a nuanced account of the shifts in public and popular opinion in this crucial period **Technology of Empire** Daqing Yang,2011-04-18 Nearly half a century ago the economic historian Harold Innis pointed out that the geographical limits of empires were determined by communications and that historically advances in the technologies of transport and communications have enabled empires to grow This power of communications was demonstrated when Japanese Emperor

Hirohito's radio speech announcing Japan's surrender and the dissolution of its empire was broadcast simultaneously throughout not only the Japanese home islands but also all the territories under its control over the telecommunications system that had in part made that empire possible. In the extension of the Japanese empire in the 1930s and 1940s, technology, geo strategy and institutions were closely intertwined in empire building. The central argument of this study of the development of a communications network linking the far flung parts of the Japanese imperium is that modern telecommunications not only served to connect these territories but more important made it possible for the Japanese to envision an integrated empire in Asia. Even as the imperial communications network served to foster integration and strengthened Japanese leadership and control, its creation and operation exacerbated long standing tensions and created new conflicts within the government, the military and society in general.

Contending for the "Chinese Modern" Xiaoping Wang, 2019-05-15. In *Contending for the Chinese Modern*, Xiaoping Wang studies the writing of fiction in 1940s China. Through a practice of political hermeneutics of fictional texts and social subtexts, it explores how social modernity and literary modernity intertwined with and interacted upon each other in the development of modern Chinese literature. It not only makes critical reappraisal of some renowned modern Chinese writers but also sheds fresh lights on a series of theoretical problems pertaining to the issue of plural modernities in which the problematic of subjectivity, class consciousness and identity politics are the key words as well as the concrete procedures that it employs to undertake the ideological analysis. The manuscript signifies a new paradigm in studies of modern Chinese literature.

Prelude to Pearl Harbor John Gripenrot, 2021-03-04. In this absorbing account of the origins of the Asia Pacific War, historian John Gripenrot argues that competing ideologies of world order, chiefly the rift between liberal internationalism and Pan Asian regionalism, lay at the heart of the conflict. Drawing from a rich diversity of primary and secondary sources, the author also examines the Japanese government's vigorous cultural diplomacy in the U.S. which sought to win over American hearts and minds and soft pedal its imperialist ambitions in Asia. The result is a book that both challenges and amplifies standard interpretations of U.S.-Japan relations in the interwar era while weaving diplomatic, political, intellectual and cultural history. Moreover, the author's wide angle lens offers readers insights into a fascinating assemblage of historical actors from Japanese and American diplomats, politicians and military leaders to cosmopolitan art enthusiasts and major league baseball players.

The Perils of Proximity Richard C. Bush, 2010-10-01. The rivalry between Japan and China has a long and sometimes brutal history and they continue to eye each other warily as the balance of power tips toward Beijing. They cooperate and compete at the same time but if competition deteriorates into military conflict, the entire world has much to lose. *The Perils of Proximity* evaluates the chances of armed conflict between China and Japan, presenting in stark relief the dangers it would pose and revealing the steps that could head off such a disastrous turn of events. Richard Bush focuses his on the problematic East China Sea region. Although Japan's military capabilities are more considerable than some in the West realize, its defense budget has remained basically

flat in recent years Meanwhile Chinese military expenditures have grown by double digits annually Moreover that the emphasis of China's military modernization is on power projection the ability of its air and naval forces to stretch their reach to the east thus encroaching on its island neighbor Tokyo regards the growth of Chinese power and its focus on the East China Sea with deep anxiety How should they respond The balance of power is changing and Japan must account for that uncomfortable fact in crafting its strategy It is incumbent on China Japan and the United States to take steps to reduce the odds of clash and conflict in the East China Sea and veteran Asia analyst Bush presents recommendations to that end The steps he suggests won't be easy and effective political leadership will be absolutely critical If implemented fully and correctly however they have the potential of reducing the perils of proximity in Asia *K. K. Kawakami and U.S.-Japan Relations* William D. Hoover, 2023-09-19 K K Kawakami the most prolific journalist writing on U S Japan relations in the forty years before Pearl Harbor analyzed and described the interaction between the country of his birth and his adopted country His more than 2 000 publications show a gradual decline in US Japan relations from the early twentieth century to Japan's attack on the US K K Kawakami and U S Japan Relations The Forty Year Road to Pearl Harbor provides a careful reading of his analysis of U S Japan relations to show that both countries bear responsibility for the tragic clash in Hawaii From the Russo Japanese War 1904-05 until the Japanese attack on Manchuria 1931 the United States bore a major responsibility with its anti Japanese policies racial discrimination and failure to recognize Japan's role in the world but with Japan's aggression in Manchuria Japan became the primary actor Relations between Japan and the U S declined gradually over a long period with both sides bearing responsibility **Stalin, Japan, and the Struggle for Supremacy over China, 1894-1945** Hiroaki Kuromiya, 2022-12-27 Stalin was a master of deception disinformation and camouflage by means of which he gained supremacy over China and defeated imperialism on Chinese soil This book examines Stalin's covert operations in his hunt for supremacy By the late 1920s Britain had ceded place to Japan as Stalin's main enemy in Asia By seducing Japan deeply into China Stalin successfully turned Japan's aggression into a weapon of its own destruction The book examines Stalin's covert operations from the murder of the Manchurian warlord Zhang Zuolin in 1928 and the publication of the forged Tanaka Memorial in 1929 to Stalin's hidden role in Japan's invasion of Manchuria in 1931 the outbreak of all out war between China and Japan in 1937 and Japan's defeat in 1945 In the shadow of these and other events we find Stalin and his secret operatives including many Chinese and Japanese collaborators most notably Zhang Xueliang and K moto Daisaku the self professed assassin of Zhang Zuolin The book challenges accounts of the turbulent history of inter war East Asia that have ignored or minimized Stalin's presence and instead exposes and analyzes Stalin's secret modus operandi modernized as hybrid war in today's Russia The book is essential for students and specialists of Stalin China the Soviet Union Japan and East Asia **Crossing Empire's Edge** Erik Esselstrom, 2020-02-29 For more than half a century the Japanese Ministry of Foreign Affairs Gaimusho possessed an independent police force that operated within the space of Japan's informal empire

on the Asian continent Charged with protecting and controlling local Japanese communities first in Korea and later in China these consular police played a critical role in facilitating Japanese imperial expansion during the late nineteenth and twentieth centuries Remarkably however this police force remains largely unknown Crossing Empire's Edge is the first book in English to reveal its complex history Based on extensive analysis of both archival and recently published Japanese sources Erik Esselstrom describes how the Gaimusho police became deeply involved in the surveillance and suppression of the Korean independence movement in exile throughout Chinese treaty ports and the Manchurian frontier during the 1920s and 1930s It had in fact evolved over the years from a relatively benign public security organization into a full fledged political intelligence apparatus devoted to apprehending purveyors of dangerous thought throughout the empire Furthermore the history of consular police operations indicates that ideological crime was a borderless security problem Gaimusho police worked closely with colonial and metropolitan Japanese police forces to target Chinese Korean and Japanese suspects alike from Shanghai to Seoul to Tokyo Esselstrom thus offers a nuanced interpretation of Japanese expansionism by highlighting the transnational links between consular colonial and metropolitan policing of subversive political movements during the prewar and wartime eras In addition by illuminating the fervor with which consular police often pressed for unilateral solutions to Japan's political security crises on the continent he challenges orthodox understandings of the relationship between civil and military institutions within the imperial Japanese state While historians often still depict the Gaimusho as an inhibitor of unilateral military expansionism during the first half of the twentieth century Esselstrom's exposé on the activities and ideology of the consular police dramatically challenges this narrative Revealing a far greater complexity of motivation behind the Japanese colonial mission Crossing Empire's Edge boldly illustrates how the imperial Japanese state viewed political security at home as inextricably connected to political security abroad from as early as 1919 nearly a decade before overt military aggression began and approaches northeast Asia as a region of intricate and dynamic social economic and political forces In doing so Crossing Empire's Edge inspires new ways of thinking about both modern Japanese history and the modern history of Japan in East Asia

The Wars for Asia, 1911-1949 S. C. M. Paine, 2012-08-20 This book shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War misrepresents their connections and causes

Constructing Empire Bill Sewell, 2019-02-15 Civilians play crucial roles in building empires Constructing Empire shows how Japanese urban planners architects and other civilians contributed often enthusiastically to constructing a modern colonial enclave in northeast China their visions shifting over time Japanese imperialism in Manchuria before 1932 developed in a manner similar to that of other imperialists elsewhere in China but the Japanese thereafter sought to surpass their rivals by transforming the city of Changchun into a grand capital for the puppet state of Manchukuo putting it on the cutting edge of Japanese propaganda Providing a thematic assessment of the evolving nature of planning architecture economy and society in Changchun Bill Sewell examines the key organizations involved in developing Japan's

empire there as part of larger efforts to assert its place in the world order This engaging book sheds light on evolving attitudes toward empire and perceptions of national identity among Japanese in Manchuria in the first half of the twentieth century

Making China Modern Klaus Mühlhahn, 2019-01-14 Thoughtful probing a worthy successor to the famous histories of Fairbank and Spence that will be read by all students and scholars of modern China William C Kirby coauthor of *Can China Lead* It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy But China has a long history of creative adaptation In the eighteenth century the Qing Empire dominated a third of the world's population Then as the Opium Wars and the Taiping Rebellion ripped the country apart China found itself verging on free fall More recently after Mao China managed a surprising recovery rapidly undergoing profound economic and social change A dynamic story of crisis and recovery failure and triumph *Making China Modern* explores the versatility and resourcefulness that guaranteed China's survival powered its rise and will determine its future Chronicles reforms revolutions and wars through the lens of institutions often rebutting Western impressions *New Yorker* A remarkable accomplishment Unlike an earlier generation of scholarship *Making China Modern* does not treat China's contemporary transformation as a postscript It accepts China as a major and active player in the world places China at the center of an interconnected and global network of engagement links domestic politics to international dynamics and seeks to approach China on its own terms Wen hsin Yeh author of *Shanghai Splendor*
