Laws and Societies in the Canadian Prairie West, 1670-1940 Louis A. Knafla, Jonathan Swainger, 2006-07 Laws and Societies in the Canadian Prairie West 1670 1940 examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie exceptionalism the book explores the substance of prairie legal history and the degree to which the region s mentality is rooted in the historical experience of distinctive prairie peoples The chapters written by a cross section of established and emerging scholars working in the allied fields of law legal history sociology and criminology focus on what is distinctive in prairie legal culture By approaching the issue from a variety of perspectives those of colonial administrators fur company employees Native peoples women men entrepreneurs judges magistrates and the police among others the authors find evidence of a conscious effort to apply broad non regional experiences to seemingly familiar local issues The ways in which prairie peoples perceived themselves and their relationships to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history Legal history is not just about black letter law It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives By examining how central and important the law has been to individuals communities and societies in the Canadian Prairies this book makes an original contribution This collection will be of interest to students and scholars of Canadian history legal history sociology and criminology and anyone interested in the legal culture of the Canadian west from the frontier days to the present

The Canadian Prairies Gerald Friesen, 1987-01-01 A history of the Canadian prairie provinces from the days of Native European contact to the 1980s

New State-Making in the Pacific Rim, 1850-1974 Peter J. Aschenbrenner, 2024-08-21 European colonial empires were built on private wealth seeking gold silver and oil These extractive activities required massive public subsidies Drawing on the experience of three Pacific Rim nations Australia Japan and Canada and two territories in the US Hawaii and Alaska New State Making in the Pacific Rim 1850 1974 Gold Silver Oil Greed and Government demonstrates how 19th century colonialism contained the seeds of its own destruction Peter J Aschenbrenner identifies three factors that marked the turning point in the history of colonialism First governments demanded a greater return to the public treasury from private extractive activities and a reduced footprint measured in environmental devastation and obliteration of local cultures Second first residents acquired considerable skill in adaptation for survival that is fighting back against oppression manifested in programs of extermination forced population movement and hostility to language religion and traditional subsistence practices Third colonial nations participation in World War I required their armed forces to fill manpower needs by calling on minorities to perform military service This gave minorities significant leverage in their struggle to achieve equal political rights and access to their fair share of government benefits Rethinking colonial practices became a realistic option once national survival was at risk

the North American Arctic Dawn Alexandra Berry,Nigel Bowles,Halbert Jones,2016-04-08 Though it has been home for centuries to indigenous peoples who have mastered its conditions the Arctic has historically proven to be a difficult region for governments to administer Extreme temperatures vast distances and widely dispersed patterns of settlement have made it impossible for bureaucracies based in far off capitals to erect and maintain the kind of infrastructure and institutions that they have built elsewhere As climate change transforms the polar regions this book seeks to explore how the challenges of governance are developing and being met in Alaska the Canadian Far North and Greenland while also drawing upon lessons from the region s past Though the experience of each of these jurisdictions is unique their place within democratic federal

systems and the prominence within each of them of issues relating to the rights of indigenous peoples situates them as part of an identifiably North American Arctic Today as this volume shows their institutions are evolving to address contemporary issues of security environmental protection indigenous rights and economic development *Sears List of Subject Headings*

Negotiating the Numbered Treaties Robert Talbot, 2019-01-31 Alexander Morris Lieutenant Governor of Manitoba and the North West Territories in the 1870s was the main negotiator of many of the numbered treaties on the prairies and has often been portrayed as a parsimonious agent of the government bent on taking advantage of First Nations chiefs and councillors However author Robert J Talbot reveals Morris as a man deeply sympathetic to the challenges faced by Canada's Indigenous peoples as they sought to secure their future in the face of encroaching settlement and the disappearance of the buffalo Both Morris and the First Nations negotiators viewed the treaties as the basis of a new reciprocal arrangement but by the end of his appointment Morris was seriously at odds with a federal administration that preferred inaction over honouring its treaty promises
