**Creating the Land of the Sky** Richard D. Starnes,2010-03-12 A sophisticated inquiry into tourism s social and economic power across the South In the early 19th century planter families from South Carolina Georgia and eastern North Carolina left their low country estates during the summer to relocate their households to vacation homes in the mountains of western North Carolina Those unable to afford the expense of a second home relaxed at the hotels that emerged to meet their needs This early tourist activity set the stage for tourism to become the region s New South industry After 1865 the development of railroads and the burgeoning consumer culture led to the expansion of tourism across the whole region Richard Starnes argues that western North Carolina benefited from the romanticized image of Appalachia in the post Civil War American consciousness This image transformed the southern highlands into an exotic travel destination a place where both climate and culture offered visitors a myriad of diversions This depiction was further bolstered by partnerships between state and federal agencies local boosters and outside developers to create the attractions necessary to lure tourists to the region As tourism grew so did the tension between leaders in the industry and local residents The commodification of regional culture low wage tourism jobs inflated land prices and negative personal experiences bred no small degree of animosity among mountain residents toward visitors Starnes s study provides a better understanding of the significant role that tourism played in shaping communities across the South

Immigrants Outside Megalopolis Richard C. Jones,2008-01-01 The booming 1990s saw a new demographic pattern emerging in the United States the shift of immigrants toward smaller towns and metropolitan areas in ethnically homogenous or traditionally bicultural areas These places offer growing specialized economies in need of unskilled or semi skilled and occasionally skilled labor they also offer for some immigrants a favorable physical and social climate Immigrants Outside Megalopolis documents this trend with case studies including Hmong in Wisconsin Iranians in Iowa Mexicans in Kansas and Colorado Vietnamese in coastal Louisiana Mexicans in North Carolina and south Texas Cubans in Arizona Bosnians in upstate New York Asian Indians in north Texas and Ukrainians and Russians in the Willamette Valley of Oregon Truly this process is resulting in a cultural transformation of the U S heartland The implantation of new features on the cultural landscape businesses homes churches schools possessions and the peoples themselves is giving many Americans a world geography lesson at a time when increased world understanding is something the country cannot do without This geography lesson comes at a cost however the difficult process of social adjustment playing out on a daily basis between immigrant and host populations which remains largely unresolved This process is an important focus of Jones s book

**Carolina** Larry E. Tise, Jeffrey J. Crow, 2017-09-14 *New Voyages to Carolina* offers a bold new approach for understanding and telling North Carolina's history. Recognizing the need for such a fresh approach and reflecting a generation of recent scholarship, eighteen distinguished authors have sculpted a broad inclusive narrative of the state's evolution over more than four centuries. The volume provides new lenses and provocative possibilities for reimagining the state's past. Transcending traditional markers of wars and elections, the contributors map out a new chronology encompassing geological realities, the unappreciated presence of Indians, blacks, and women, religious and cultural influences, and abiding preferences for industrial development within the limits of progressive politics. While challenging traditional story lines, the authors frame a candid tale of the state's development. Contributors: Dorothea V. Ames, East Carolina University; Karl E. Campbell, Appalachian State University; James C. Cobb, University of Georgia; Peter A. Coclanis, University of North Carolina at Chapel Hill; Stephen Feeley, McDaniel College; Jerry Gershenhorn, North Carolina Central University; Glenda Elizabeth Gilmore, Yale University; Patrick Huber, Missouri University of Science and Technology; Charles F. **Linthead Stomp** Patrick Huber, 2008-10-20 Contrary to popular belief, the roots of American country music do not lie solely on southern farms or in mountain hollows. Rather, much of this music recorded before World War II emerged from the bustling cities and towns of the Piedmont South. No group contributed more to the commercialization of early country music than southern factory workers. In *Linthead Stomp*, Patrick Huber explores the origins and development of this music in the Piedmont's mill villages. Huber offers vivid portraits of a colorful cast of Piedmont millhand musicians, including Fiddlin' John Carson, Charlie Poole, Dave McCarn, and the Dixon Brothers, and considers the impact that urban living, industrial work, and mass culture had on their lives and music. Drawing on a broad range of sources, including rare 78 rpm recordings and unpublished interviews, Huber reveals how the country music recorded between 1922 and 1942 was just as modern as the jazz music of the same era. *Linthead Stomp* celebrates the Piedmont millhand fiddlers, guitarists, and banjo pickers who combined the collective memories of the rural countryside with the upheavals of urban industrial life to create a distinctive American music that spoke to the changing realities of the twentieth-century South.

**The North Carolina Historical Review**, 2001 *North Carolina: A History* William Powell, 1977-11-17 Described by an early visitor as the Goodliest Soile Under the Cope of Heaven, the land that would become North Carolina presented its first settlers with the promise of prosperity, wealth, and with luck, liberty too. Since North Carolina's beginnings in the age of Queen Elizabeth I, the people who came here and stayed found that while life may not always have been easy between two richer and more powerful neighbors, it has at least been a challenge they were willing to meet.
