Levin, Lynn Mather, 2012-03-30 How do lawyers resolve ethical dilemmas in the everyday context of their practice What are the issues that commonly arise and how do lawyers determine the best ways to resolve them Until recently efforts to answer these questions have focused primarily on rules and legal doctrine rather than the real life situations lawyers face in legal practice The first book to present empirical research on ethical decision making in a variety of practice contexts including corporate litigation securities immigration and divorce law *Lawyers in Practice* fills a substantial gap in the existing literature Following an introduction emphasizing the increasing importance of understanding context in the legal profession contributions focus on ethical dilemmas ranging from relatively narrow ethical issues to broader problems of professionalism including the prosecutor's obligation to disclose evidence the management of conflicts of interest and loyalty to clients and the court Each chapter details the resolution of a dilemma from the practitioner's point of view that is in turn set within a particular community of practice Timely and practical this book should be required reading for law students as well as students and scholars of law and society      *Executed on a*

*Technicality* David R. Dow, 2005-05-01 When David Dow took his first capital case he supported the death penalty He changed his position as the men on death row became real people to him and as he came to witness the profound injustices they endured from coerced confessions to disconcertingly incompetent lawyers from racist juries and backward judges to a highly arbitrary death penalty system It is these concrete accounts of the people Dow has known and represented that prove the death penalty is consistently unjust and it's precisely this fundamental and lethal injustice Dow argues that should compel us to abandon the system altogether      *Codification in International Perspective* Wen-Yeu Wang, 2014-02-12 No

aspect of legal formalism has interested comparative jurists as much as the extent of legislative codification across legal systems This book looks at codification from a broad international perspective discussing general themes as well as various legal fields The first of two volumes on this subject begins with a general theoretical and historical view of codification followed by a series of other horizontal inquiries It encompasses papers focusing on several significant contemporary issues

in codification including codification of private law in post soviet times criminal law codification beyond the nation state and soft codification of private law In addition this volume consists of general reports and national reports on administrative procedure and human rights providing a comparative analysis of codification of law This book is developed from papers presented at the 2012 Thematic Congress of the International Academy of Comparative Law

**Political Institutions and Lesbian and Gay Rights in the United States and Canada** Miriam Smith,2008-08-18 Lesbian and gay citizens today enjoy a much broader array of rights and obligations and a greater ability to live their lives openly in both the U S and Canada However while human rights protections have been exponentially expanded in Canada over the last twenty years even basic protections in areas such as employment discrimination are still unavailable to many in the United States This book examines why these similar societies have produced such divergent policy outcomes focusing on how differences between the political institutions of the U S and Canada have shaped the terrain of social movement and counter movement mobilization It analyzes cross national variance in public policies toward lesbians and gay men especially in the areas of the decriminalization of sodomy the passage of anti discrimination laws and the enactment of measures to recognize same sex relationships For political science sociology and queer studies alike this book will prove vital as movements for lesbian and gay rights continue to recast the social landscape in North America and beyond
