

North Of England In The Reign Of Richard Iii

Martin Collier, Rosemary Rees

North Of England In The Reign Of Richard Iii:

The North of England in the Age of Richard III A. J. Pollard, 1996 Distant lawless rebellious country the north of the fifteenth century imagination A particular feature is an appendix of selected previously unpublished documents **Church and Society in the Medieval North of England** R. B. Dobson, 1996-01-01 This collection of essays discusses aspects of church life in each of the three dioceses of Carlisle Durham and York identifying the main features of religion in the north and placing contemporary religious attitudes in both a social and a local context **Medieval and Early Modern Representations of Authority in Scotland and the British Isles** Kate Buchanan, Lucinda H.S. Dean, 2016-05-20 What use is it to be given authority over men and lands if others do not know about it Furthermore what use is that authority if those who know about it do not respect it or recognise its jurisdiction And what strategies and language written and spoken visual and auditory material cultural and political did those in authority throughout the medieval and early modern era use to project and make known their power These questions have been crucial since regulations for governance entered society and are found at the core of this volume In order to address these issues from an historical perspective this collection of essays considers representations of authority made by a cross section of society within the British Isles Arranged in thematic sections the 14 essays in the collection bridge the divide between medieval and early modern to build up understanding of the developments and continuities that can be followed across the centuries in question Whether crown or noble government or church burgh or merchant all desired power and influence but their means of representing authority were very different These essays encompass a myriad of methods demonstrating power and disseminating the image of authority including material culture art literature architecture and landscapes saintly cults speeches and propaganda martial posturing and strategic alliances music liturgy and ceremonial display Thus this interdisciplinary collection illuminates the variable forms in which authority was presented by key individuals and institutions in Scotland and the British Isles By placing these within the context of the European powers with whom they interacted this volume also underlines the unique relationships developed between the people and those who exercised authority over them **Encyclopedia of the Wars of the Roses** John A. Wagner, 2001-07-12 This authoritative A Z encyclopedia of the Wars of the Roses provides accurate and concise descriptions of the major battles and events and the principal historical figures and issues involved For centuries historians agreed about the Wars of the Roses seeing them as four decades of medieval darkness and chaos when the royal family and the nobility destroyed themselves fighting for control of the royal government Even Shakespeare got into the act dramatizing popularizing and darkening this viewpoint in eight plays Today based on new research this has become one of the most hotly controversial periods in English history Historians disagree on fundamental issues such as dates and facts as well as interpretation Most argue that the effects of the wars were not as widespread as once thought and some see the traditional view of the era as merely Tudor propaganda A few even claim that England during the late 15th century was a society

organized for peace Historian John A Wagner brings readers up to date on the latest research and thinking about this crucial period of England's history

Richard III Michael Hicks, 2019-11-26 The definitive biography and assessment of the wily and formidable prince who unexpectedly became monarch the most infamous king in British history The reign of Richard III the last Yorkist king and the final monarch of the Plantagenet dynasty marked a turning point in British history But despite his lasting legacy Richard only ruled as king for the final two years of his life While much attention has been given to his short reign Michael Hicks explores the whole of Richard's fascinating life and traces the unfolding of his character and career from his early years as the son of a duke to his violent death at the battle of Bosworth Hicks explores how Richard villainized for his imprisonment and probable killing of the princes applied his experience to overcome numerous setbacks and adversaries Richard proves a complex conflicted individual whose Machiavellian tact and strategic foresight won him a kingdom He was a reformer who planned big changes but lost the opportunity to fulfill them and to retain his crown Provided by publisher

Richard III Josephine Wilkinson, 2008-12-15 A major new biography of the young Richard III

The Red Rose and the White John Sadler, 2014-01-14 If Richard III had not charged to his death at Bosworth how different might the history of Britain have been Beginning in 1453 and ending in 1487 The Red Rose and the White provides a gripping overview of the bitter dynastic struggle for supremacy that raged between the houses of York and Lancaster for thirty years culminating in the dramatic events on Bosworth Field in 1485 As well as offering a comprehensive account of the campaigns battles and sieges of the conflict the book also assesses the commanders and men involved and considers the weapons and tactics employed Photographs maps and portraits of the principal characters help to bring the period to life whilst the fast paced narrative conveys a sense of what it was actually like to fight in battles such as Towton or Tewkesbury the effect of the arrow storm and the grim realities of hand to hand combat with edged and bladed weapons Skilfully weaving in political and social events to place the conflict in its context The Red Rose and the White is a fascinating exploration of the turbulent period that would change the course of British history forever

Kingship, Lordship and Sanctity in Medieval Britain Steven Boardman, David Ditchburn, 2022 Essays reconsidering key topics in the history of late medieval Scotland and northern England The volume celebrates the career of the influential historian of late medieval Scotland and northern England Dr Alexander Sandy Grant Its contributors engage with the profound shift in thinking about this society in the light of his scholarship and the development of the New Orthodoxy both attending to the legacy of this discourse and offering new research with which to challenge or amend our understanding of late medieval Scotland and northern England Dr Grant's famously wide and diverse historical interests are here reflected through three main foci kingship lordship and identity The volume includes significant reassessments of the reputations of two kings Alexander I of Scotland and Henry V of England an examination of Richard III's relationship to the lordship of Pontefract and a study of the development of royal pardon in late medieval Scotland Further chapters consider the social influence and legal and tenurial rights vested in aristocratic lineages

regional gentry communities and the leaders of burghal corporations Finally the relationship between saints cults piety and regnal and regional identity in medieval Scotland is scrutinised in chapters on St Margaret and St Ninian

The Fourteenth-century Sheriff Richard Gorski,2003 A study of the careers of over 1200 sheriffs appointed in England during the fourteenth century

Richard III Charles Ross,2011-05-28 Richard III ruled England for a mere twenty six months yet few English monarchs remain as compulsively fascinating and none has been more persistently vilified In his absorbing and universally praised account Charles Ross assesses the king within the context of his violent age and explores the critical questions of the reign why and how Richard Plantagenet usurped the throne the belief that he ordered the murder of the Princes in the Tower the events leading to the battle of Bosworth in 1485 and the death of the Yorkist dynasty with Richard himself In a new foreword Professor Richard A Griffiths identifies the attributes that have made Ross s account the leading biography in the field and assesses the impact of the research published since the book first appeared in 1981 A fascinating study on a perennially fascinating topic the base against which will be measured any future research Times Higher Education Supplement

North-eastern England During the Wars of Roses A. J. Pollard,1990 For a brief period in the late fifteenth century the North was the dominant region in England it was both the adopted home and the base of power of Richard III In this study Pollard analyzes the regional politics of this area and the interrelationship between province and center from the beginning of the Neville Percy feud in the 1450s to the establishment of Tudor authority by 1500 Covering such topics as Anglo Scottish relations local government the structure of landed society the wealth power and outlook of lords and gentry and the economy of the region Pollard offers a first rate history of lay society at the end of the middle ages
