will shatter the world order that has existed for almost a century. Thereafter, against the background of mass migration in Europe, a complex story emerges linking Nazi-occupied France in 1943 and London in the near future and from Beirut in 1982 to the plains of Kansas and the suburbs of Paris as a conspiracy unfolds that will change history and alter the lives of millions. As the end game is played out during the preparations of the coronation ceremony of King Charles III at Westminster Abbey, life or death for millions hangs in the balance.

Federal Claims Reporter, 2007 *Against Wind and Tide* Ousmane K. Power-Greene, 2014-09-05 How and why free blacks resisted relocation to Liberia: A fine contribution to the story of African colonization movements in early American history. The *Journal of American History* *Against Wind and Tide* tells the story of African Americans' battle against the American Colonization Society (ACS), founded in 1816 with the intention to return free blacks to its colony, Liberia. Although ACS members considered free black colonization in Africa a benevolent enterprise, most black leaders rejected the ACS, fearing that the organization sought forced removal. As Ousmane K. Power-Greene's story shows, these African American anticolonizationists did not believe Liberia would ever be a true black American homeland. In this study of anticolonization agitation, Power-Greene draws on newspapers, meeting minutes, and letters to explore the concerted effort on the part of nineteenth-century black activists, community leaders, and spokespersons to challenge the American Colonization Society's attempt to make colonization of free blacks federal policy. The ACS insisted the plan embodied empowerment. The United States, they argued, would never accept free blacks as citizens, and the only solution to the status of free blacks was to create an autonomous nation that would fundamentally reject racism at its core. But the activists and reformers on the opposite side believed that the colonization movement was itself deeply racist and, in fact, one of the greatest obstacles for African Americans to gain citizenship in the United States. Power-Greene synthesizes debates about colonization and emigration, situating this complex and enduring issue into an ever-broader conversation about nation building and identity formation in the Atlantic world.
