## **Northern Ireland In Pictures:**

*Northern Ireland-- in Pictures*, 1991 Introduces the topography history society economy and governmental structure of Northern Ireland     **Irish Postmodernisms and Popular Culture** Wanda Balzano, 2007-05-16 This collection explores popular culture in Ireland and Ireland in popular culture from Fanfic to Orange Parades from boybands to the Blessed Virgin Mary from celebrity tourism to the Gaelic Athletic Association The essays examine local and global Irishness focusing on how gender sexuality and race shape Irish postmodernity     Statistical Register Australia. Commonwealth Bureau of Census and Statistics. New South Wales Office, 1926 Included also as a part of some vols of the office s annual Statistical register until it ceased publication with vol for 1954 55     **Irish Railways in the 1950s and 1960s** Kevin McCormack, 2017-06-30 In the 1950s and 1960s the railway system in Ireland became a magnet for enthusiasts from Great Britain who realized that as on the mainland a way of life was fast disappearing as diesel traction replaced steam and the size of the rail network across Ireland was shrinking Much of the interest stemmed from the similarity with the railways in Great Britain Also the existence of several narrow gauge systems two railway owned tramways and some cross border operators added to the fascination This album covers those main line and narrow gauge railways in Northern Ireland and the Republic of Ireland during the 1950s and 1960s which were photographed in color and the images used are believed never to have appeared in print before Although most of the pictures depict individual locomotives or ones hauling trains the opportunity has been taken to show some of the railway infrastructure of the period as well since this is of particular interest to railway modelers There has been a very active preservation movement in Ireland over the years with many wonderful steam hauled rail tours being operated that continue to this day however this book will focus on the normal every day operations     *The Film Renter and Moving Picture News*, 1926     *World Book's Our Earth*,     **Researching History Education** Linda S. Levstik, Keith C. Barton, 2018-02-06 The authors research is well known and among the most important American works being done on how children learn history It is thus a great idea to gather this pivotal research in one place The volume offers a new perspective through the authors reflections on the research process It is profound without pomposity ideal for the intended audience the tone is just right There really isn t another book that does what this one does Stephen J Thornton University of South Florida Researching History Education combines a selection of Linda Levstik s and Keith Barton s previous work on teaching and learning history with their reflections on the process of research These studies address students ideas about time evidence significance and agency as well as classroom contexts of history education and broader social influences on students and teacher s thinking These pieces widely cited in history and social studies education and typically required reading for students in the area were chosen to illustrate major themes in the authors own work and trends in recent research on history education In a series of new chapters written especially for this volume the authors introduce and reflect on their empirical studies and address three issues suggested in the title of the volume theory method and context Although research on

children s and adolescents historical understanding has been the most active area of scholarship in social studies in recent years as yet there is little in depth attention to research methodologies or to the perspectives on children history and historical thinking that these methodologies represent This book fills that need The authors hope is that it will help scholars draw from the existing body of literature in order to participate in more meaningful conversations about the teaching and learning of history Researching History Education provides a needed resource for novice and experienced researchers and will be especially useful in research methodology courses both in social studies and more generally because of its emphasis on techniques for interviewing children the impact of theory on research and the importance of cross cultural comparisons
