academic and community archaeology sectors which have fundamentally changed our perspective on the Neolithic of the area. Much of this was new work and much is still not published has been overlooked in the national discourse. The papers cover a wide geographical area from Lancashire north into the Scottish Lowlands recognising the irrelevance of the England Scotland Border. They also take a broad chronological sweep from the Mesolithic Neolithic transition to the introduction of Beakers into the area. The key themes are the nature of transition, the need for a much improved chronological framework, regional variation linked to landscape character, links within northern England and with distant places, the implications of new dating for our understanding, the axe trade, the changing nature of settlement and agriculture, the character of early Neolithic enclosures, the need to integrate rock art into wider discourse.

North-East England, 1569-1625 Diana Newton, 2006. This study of England's north eastern parts examines counties Durham and Northumberland as well as Newcastle upon Tyne with its central theme, the extent to which the county gentry and urban elites possessed a sense of regional identity. It concentrates on these elites' social, political, religious and cultural connections which extended beyond the purely administrative jurisdictions of the county or town. By concentrating on a series of seismic changes in the area, the demise of its great regional magnates, the rapid upsurge of the coal industry and the union of the crowns, it offers a distinctive chronological coverage from the latter half of the sixteenth century through to the early seventeenth century. Old stereotypes of the north eastern landed elites as isolated and backward are overturned while their response to state formation reveals their political sophistication. Traditional views of the religious conservatism of the north eastern parts are reassessed to demonstrate its multi-faceted complexion. And contrasting cultural patterns are analysed through ballad literature, the cult of St Cuthbert and increasing exposure to metropolitan civility to reveal a series of sub-regions within the north eastern reaches of the kingdom. This guide describes 10 shorter hut-to-hut treks showcasing southern Norway's wild natural beauty with highlights including Galdhøpiggen, Norway's highest peak at 2469m, and the iconic Pulpit Rock and Kjeragbolten on the Lysefjord. The routes range from 3 to 8 days, although many can be adapted or combined to create longer or shorter routes and cover Jotunheimen, Rondane, Dovrefjell, Trollheimen and Ryfylke.

They are suitable for experienced hikers with a good level of fitness and can be walked from mid July to the end of September. Clear route description and mapping are provided for each hike. Stages are graded according to difficulty although all of the routes follow waymarked trails some cross remote and challenging terrain which may include exposed sections calling for a sure foot and a good head for heights. However in many instances alternatives are provided avoiding the most demanding sections. The North Downs Way Kev Reynolds, 2017-07-31. The North Downs Way National Trail is a 130 mile 208km between the high downland of Farnham and the historic city of Dover on the Kent coast. The route is described in 11 day stages from west to east with an optional detour via Canterbury. Step by step route descriptions are fully illustrated with colour photographs and extracts from OS 1:50,000 mapping for every stage. The guidebook comes with a separate map booklet of 1:25,000 scale OS maps showing the full route of the North Downs Way. *The Book of the Bivvy* Ronald Turnbull, 2021-07-15

They are the best of nights, they are the worst of nights. Bivvyng offers a chance to experience a whole new level of immersion in the outdoors with just a lightweight bag between you and the elements. The Book of the Bivvy provides an informed, humorous, instructive, wry insight into the world of the bivouac, drawing upon Ronald Turnbull's own extensive experience. The book is a half and half mix of how to do it and why to do it or how not to do it and why not to do it. Accounts of bivvybag nights and expeditions, both nice and nasty, are interspersed with practical tips about types of membrane sites, techniques, and minimalist kit. There are stories and anecdotes from all over the UK, plus a few from abroad. The rich and colourful history of the bivvy is also explored in Ronald's own inimitable style, with descriptions of how Diogenes the Cynic bivvied under timber and how the Eigerwand was climbed only through improved bivvyng technique. The Book of the Bivvy is a celebration of back-to-basic camping, the perfect antidote to our fast-paced, comfort-based modern life. Honest and entertaining, there is every chance it will inspire you to find a remote hilltop, roll out your bag, and watch the sunset.
