U2's Songs of Trauma and Hope Ingunn Røysland,2024-03-18 In U2 s Songs of Trauma and Hope Between the Midnight and the Dawning Ingunn R ysland and Charles Ivan Armstrong show that trauma is an important theme for U2 While this leads the band to confront extreme instances of grief and suffering this does not prevent them to cross in the words of their song A Sort of Homecoming the fields of mourning to a light that s in the distance Theories from trauma and memory studies are deployed in the examination of song lyrics and performances by U2 spanning from the early days of the band to more recent times In their exploration of light and dark of hope and trauma within the U2 catalogue R ysland and Armstrong acknowledge the complexity of the songs addressing different layers including romantic as well as divine allegory The authors also address the band s troublesome lyrics with an entire chapter devoted to Sunday Bloody Sunday as well as the role of multidirectional memory and significant places so called lieux de m moire in U2 s dealings with a ranger of historical conflicts and crises They further examine how music plays an important part in the path of healing from traumatic wounds analysing the reception of the songs Ultimately it is suggested U2 shows us how to get through the night

**A Social History of Amateur Music-Making and Scottish National Identity: Scotland's Printed Music, 1880-1951** Karen E. McAulay,2024-10-30 Late Victorian Scotland had a flourishing music publishing trade evidenced by the survival of a plethora of vocal scores and dance tune books and whether informing us what people actually sang and played

at home danced to or enjoyed in choirs or reminding us of the impact of emigration from Britain for both emigrants and their families left behind examining this neglected repertoire provides an insight into Scottish musical culture and is a valuable addition to the broader social history of Scotland The decline of the music trade by the mid twentieth century is attributable to various factors some external but others due to the conservative and perhaps somewhat parochial nature of the publishers output What survives bears witness to the importance of domestic and amateur music making in ordinary lives between 1880 and 1950 Much of the music is now little more than a historical artefact Nonetheless Karen E McAulay shows that the nature of the music the song and fiddle tune books contents the paratext around the collections its packaging marketing and dissemination all document the social history of an era whose everyday music has often been dismissed as not significant or indeed properly old enough to merit consideration The book will be valuable for academics as well as folk musicians and those interested in the social and musical history of Scotland and the British Isles Lessons from the Northern Ireland Peace Process Timothy J. White, 2013 This book incorporates recent research that emphasizes the need for civil society and a grassroots approach to peacebuilding while taking into account a variety of perspectives including neoconservatism and revolutionary analysis The contributions which include the reflections of those involved in the negotiation and implementation of the Good Friday Agreement also provide policy prescriptions for modern conflicts Terrorist Histories Caoimhe Nic Dhaibheid, 2016-11-03 This book addresses provides a series of in depth portraits of men and women who have been labelled terrorists from the 19th 20th and 21st centuries Bridging historical methodologies and theoretical approaches to terrorism studies it seeks to contribute to the developing historicising of terrorism studies This is achieved principally through a prosopographical approach In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence the individuals who participate in terrorist acts are often obscured While ideologies and organisations have attracted much scholarly interest less is known of the personal trajectories into political violence particularly from a historical perspective The focus on a relatively narrow cast of high profile terrorist villains to a large part driven by popular and media attention results in a somewhat skewed picture of equal value arguably is a more sustained reflection on the lives of lesser known individuals The book sits at the juncture between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of

migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general      **The Foundations of the British Conservative Party** Bradley W. Hart, Richard Carr, 2013-08-01 This book provides a range of essays on aspects of the British Conservative Party from the late 19th century to the present day It offers fresh perspectives on Margaret Thatcher and Thatcherism Britain and Europe UK policy towards Ireland Conservatism and reform and the conservative ideology to name only a few of the key issues explored An accessible and concise overview this book is an important primer for anyone studying British politics history or social and political theory Included are contributions by leading scholars in British political history think tank commentators and a former Prime Minister It offers insights into the Conservative Party's staying power in spite of great social and political changes in the UK and the world It looks at how the party has functioned historically and what its future might be discussing its ideology and identity with reference to both Labour and Liberal opponents Fundamentally it considers the conservative appeal to the electorate conservative policy in both theory and practice and debates that have taken place within and outside the party itself Whether interested in Winston Churchill and David Lloyd George or David Cameron and Nick Clegg this work is intended to inform and challenge scholars and political practitioners alike      Religion and Contemporary Politics Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography      *Historical Dictionary of Ireland* Frank A. Biletz, 2013-11-14 All places undergo change but in few has this change been quite as sweeping as Ireland both the

independent Republic of Ireland and dependent Northern Ireland so it is good to see where it is heading at present Obviously that has to be judged on the background of where it is coming from not only over the past decade or so but over centuries and indeed millennia This new edition of Historical Dictionary of Ireland is an excellent resource for discovering the history of Ireland This is done through a chronology an introductory essay and an extensive bibliography The cross referenced dictionary section has over 600 entries on significant persons places and events political parties and institutions including the Catholic church with period forays into literature music and the arts This book is an excellent resource for students researchers and anyone wanting to know more about Ireland Irish Quaker Hybrid Identities Maria Kennedy,2019-09-02

Dr Kennedy's work is a sociological study of Quakers that investigates the impact that sectarianism has had on identity construction within the Religious Society of Friends in Ireland The research highlights individual Friends complex and hybrid cultural national and theological identities mirrored by the Society's corporate identity This monograph focuses specifically on examples of political and theological hybridity These hybrid identities resulted in tensions which impact on relationships between Friends and the wider organisation How Friends negotiate and accommodate these diverse identities is explored It is argued that Irish Quakers prioritise relational unity and have developed a distinctive approach to complex identity management Kennedy asserts that in the two Irish states Quaker represents a meta identity that is counter cultural in its non sectarianism although this is more problematic within the organisation Furthermore by modelling an alternative non sectarian identity Quakers in Ireland contribute to building capacity for transformation from oppositional binary identities to more fluid and inclusive ones **Political Ideology in Ireland** Olivier Coquelin,Patrick Galliou,Thierry Robin,2020-10-27

First delivered as part of an international conference held at Brest University in November 2007 under the aegis of the Centre de Recherche Bretonne et Celtique CRBC this collection of essays essentially aims at interrogating history in order to better understand the political and ideological complexity of early XXIst century Ireland This complexity reflects in many respects Ireland's uniqueness among the Western European nations Some of the multiple persuasions within the gamut of Irish political ideology from the Enlightenment to the present are thus explored from diverse angles of approach dialectical taxonomic theoretical practical individual collective and through a diverse range of disciplines human sciences political science social sciences literature philosophy and art history and themes from Jonathan Swift's rhetorical complexity to the evolution of Irish republicanism after 9 11 including the reassessment of Daniel O Connell's political ideology Owenism in Ireland Oscar Wilde's socialistic ideology the ideological development of the Republican and Loyalist prisoners This unique collection of essays far from being a static historiographical description provides food for thought and sheds light on the fascinating ambivalent dynamics lying at the heart of the building process of a modern nation resulting from the aggregate of individual will collective ideals and Zeitgeist The impressive variety of issues raised by authors of diverse origins United States Ireland Britain France including leading experts in the above mentioned areas Richard English Robert Mahony
