Northern Ireland And Beyond:

Northern Ireland and Beyond E. Biagini, 2013-03-09 Northern Ireland's problems are rooted in physical and historical geography: small resource base, peripheral location, violent conquest, repression and ruthless emargination of the native population by the Protestant settlers. At the time of partition, many areas already had a Catholic majority and the Catholic population is increasing faster, thereby undermining the Protestant position. Britain gains no advantage by keeping Northern Ireland. Nevertheless, this solution is not going to be cheap, not merely because of opposition by Protestant loyalists but also because of the economic weakness of both Irelands. Unlike other books on the subject, this one goes to the heart of the matter. Britain would be serving her own interest by easing reunification of Ireland, albeit gradually and cautiously. In this perspective, the conclusion is that history is inexorably moving beyond Northern Ireland. Audience: European Community administrators and planners, diplomats, politicians, students in Political Science, Economics, History and Geography. **A Farewell to Arms?** Michael Cox, Adrian Guelke, Fiona Stephen, 2006-04-18 This comprehensive and original study is the first to explain in detail how the Good Friday Agreement ran into trouble, why we are still some way from a final settlement, but why a return to war is most unlikely even in an age where global terror now threatens world order more seriously than at any time in the past. This new edition of an established authoritative text will be essential reading for students, researchers and academics of Irish politics, conflict and peace studies and international relations. **Beyond Orange and Green** Belinda Probert, 1978 **The Politics of Northern Ireland** Arthur Aughey, 2005-01-27 In this book, one of the leading authorities on contemporary Northern Ireland politics provides an original, sophisticated and innovative examination of the post-Belfast Agreement political landscape. Written in a fluid, witty and accessible style, this book explores how the Belfast Agreement has changed the politics of Northern Ireland, whether the peace process is still valid, the problems caused by the language of politics in Northern Ireland, the conditions necessary to secure political stability, the inability of unionists and republicans to share the same political discourse, the insights that political theory can offer to Northern Irish politics, the future of key political parties and institutions. **Ireland Beyond Boundaries** Liam Harte, Yvonne Whelan, 2006-11-20 This is an authoritative up-to-date account of the development of Irish Studies over the past two decades. The authors examine the key debates that have underpinned recent scholarship and analyse critical concerns that have shaped the subject's remarkable growth. They trace the institutional fortunes of Irish Studies in Ireland, the USA, Canada, Australia and Britain and features in-depth critical accounts of specific trends and themes within Irish historiography, literary criticism, religion, migration, music, cultural geography, sport and media culture. **Religious Leaders and Conflict Transformation** Nukhet A. Sandal, 2017 The book introduces a theoretical framework to understand the role of religious leaders in conflict transformation and peacebuilding. **Democracy and Northern Ireland** A. Little, 2004-03-31 Democracy and Northern Ireland examines the influence of liberal theories of democracy on recent developments in the Northern Irish peace process. In so doing, it analyzes

the applicability of theories such as political liberalism multiculturalism and deliberative democracy to deeply divided societies Little contends that these models need to build upon recent critiques provided by feminists and civil society theorists in the construction of a more radical interpretation of democracy that can provide a framework for democratic politics in Northern Ireland

Northern Ireland a generation after Good Friday Colin Coulter, Niall Gilmartin, Katy Hayward, Peter Shirlow, 2021-07-20 The Good Friday Agreement is widely celebrated as a political success story one that has brought peace to a region that was once synonymous around the globe with political violence The truth as ever is rather more complicated than that In many respects the era of the peace process has seen Northern Irish society change almost beyond recognition Those incidents of politically motivated violence that were once commonplace have become thankfully rare and a new generation has emerged whose identities and interests are rather more fluid and cosmopolitan than those of their predecessors However Northern Ireland continues to operate in the long shadow of its own turbulent past Those who were victims of violence as well as those who were its agents have often been consigned to the margins of a society still struggling to cope with the traumas of the Troubles Furthermore the transition to peace has revealed the existence of new and not so new forms of violence in Northern Irish society directed towards women ethnic minorities and the poor Northern Ireland a generation after Good Friday sets out to capture the complex and often contradictory realities that have emerged more than two decades on from the region's vaunted peace deal Across nine original essays the authors offer a critical and comprehensive reading of a society that often appears to have left its violent past behind but at the same time remains subject to its gravitational pull

The Government of Great Britain and the Dominions Beyond the Seas Albert Edmond Hogan, Isabel G. Powell, 1925

Two Irelands Beyond the Sea Lindsey Flewelling, 2018 Uncovers the transnational movement by Ireland's unionists as they worked to maintain the Union during the Home Rule era The book explores the political social religious and Scotch Irish ethnic connections between Irish unionists and the United States as unionists appealed to Americans for support and reacted to Irish nationalism

A History of Western Public Law Bruno Aguilera-Barchet, 2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events

Cultural Memories Peter Meusbürger, Michael Heffernan, Edgar Wunder, 2011-05-11 The revival of interest in collective cultural memories since the 1980s has been a genuinely global phenomenon Cultural memories can be defined as the social constructions of the past that allow individuals and groups to orient themselves in time and space The investigation of cultural memories has necessitated an interdisciplinary perspective though geographical questions about the spaces places and landscapes of memory have acquired a special significance The

essays in this volume written by leading anthropologists geographers historians and psychologists open a range of new interpretations of the formation and development of cultural memories from ancient times to the present day The volume is divided into five interconnected sections The first section outlines the theoretical considerations that have shaped recent debates about cultural memory The second section provides detailed case studies of three key themes the founding myths of the nation state the contestation of national collective memories during periods of civil war and the oral traditions that move beyond national narrative The third section examines the role of World War II as a pivotal episode in an emerging European cultural memory The fourth section focuses on cultural memories in postcolonial contexts beyond Europe The fifth and final section extends the study of cultural memory back into premodern tribal and nomadic societies **Ireland's History**

Kenneth L. Campbell, 2013-12-05 Ireland's History provides an introduction to Irish history that blends a scholarly approach to the subject based on recent research and current historiographical perspectives with a clear and accessible writing style All the major themes in Irish history are covered from prehistoric times right through to present day from the emergence of Celtic Christianity after the fall of the Roman Empire to Ireland and the European Union secularism and rapprochement with the United Kingdom By avoiding adopting a purely nationalistic perspective Kenneth Campbell offers a balanced approach covering not only social and economic history but also political cultural and religious history and exploring the interconnections among these various approaches This text will encourage students to think critically about the past and to examine how a study of Irish history might inform and influence their understanding of history in general *The Annual Practice*, 1950 A collection of the statutes orders and rules relating to the general practice procedure and jurisdiction of the Supreme Court [Education Across the United Kingdom 1944-2017](#) Robert McCloy, 2018-09-06 This book provides a comprehensive understanding of how education has developed over the last 70 years within the United Kingdom As education in Wales and Scotland continues to develop following increasing devolution the contributors draw from personal accounts and practical experience to provide a comparison and evaluation of these differences A critical stage in the history of education has been reached particularly in light of the decision for Britain to leave the European Union the authors explore the emergent fault lines and identify practical reforms While this book will undoubtedly be of interest to educational historians it will also be a valuable reference point for educationalists practitioners and politicians The contributors unpick the larger role of education in the United Kingdom and propose practical ways forward amid a time of crisis **The**

Handbook on Peace Education Gavriel Salomon, Ed Cairns, 2011-02-25 This handbook encompasses a range of disciplines that underlie the field of peace education and provides the rationales for the ways it is actually carried out The discipline is a composite of contributions from a variety of disciplines ranging from social psychology to philosophy and from communication to political science That is peace education is an applied subject which is practiced in differing ways but must always be firmly based on a range of established empirical disciplines The volume is structured around contributions from expert scholars in various fields that underpin peace education plus contributions from experts in applying peace education in a range of settings all complemented by chapters which deal with issues related to research and evaluation of peace education

Recognition, Equality and Democracy Jurgen De Wispelaere, Cillian McBride, Shane O'Neill, 2013-10-18 This volume brings together a range of theoretical responses to issues in Irish politics Its organising ideas recognition equality and democracy set the terms of political debate within both jurisdictions For some there are significant tensions between the grammar of recognition concerned with esteem respect and the symbolic aspects of social life and the logic of equality which is primarily concerned with the distribution of material resources and formal opportunities while for others tensions are produced rather by certain interpretations of these ideas while alternative readings may by contrast serve as the basis for a systematic account of social and political inequality The essays in this collection will explore these interconnections with reference to the politics of Northern Ireland and the Republic The Republic has gone through a period in which its constitution was the focus for a liberal politics aimed at securing personal autonomy while Northern Ireland's political landscape has been shaped by the problem of securing political autonomy and democratic legitimacy While the papers address key questions facing each particular polity the issues themselves have resonances for politics on each side of the border

The Media and the Tourist Imagination David Crouch, Rhona Jackson, Felix Thompson, 2005-06-15 Tourism studies and media studies both address key issues about how we perceive the world They raise acute questions about how we relate local knowledge and immediate experience to wider global processes and they both play a major role in creating our map of national and international cultures Adopting a multidisciplinary

approach this book explores the interactions between tourism and media practices within a contemporary culture in which the consumption of images has become increasingly significant. A number of common themes and concerns arise and the contributions included are divided between those written from a media studies awareness perspective concerned with the way the media imagines travel and tourism, written from the point of view of the study of tourism considering how tourism practices are affected or altered by the media, and those that attempt a direct comparison between the practices of tourism and the media. Incorporating case study material from the UK, the Caribbean, Australia, the US, France, and Switzerland, this significant text is ideal for students of culture, media, and tourism studies. It discusses tourism and the media as separate processes through which identity is constructed in relation to space and place.
