Northern Isles Connection:

The Northern Earldoms Barbara E. Crawford, 2013-08-08 The medieval earldoms of Orkney and Caithness were positioned between two worlds the Norwegian and the Scottish They were a maritime lordship divided or united by the turbulent waters of the Pentland Firth This unlikely combination of island and mainland territory survived as a single lordship for 600 years against the odds Growing out of the Viking maelstrom of the early Middle Ages it became an established and wealthy principality which dominated northern waters with a renowned dynasty of earls Despite their peripheral location these earls were fully in touch with the kingdoms of Norway and Scotland and increasingly subject to the rulers of these kingdoms How they maintained their independence and how they survived the clash of loyalties are themes explored in this book from the early Viking age to the late medieval era when the powerful feudal Sinclair earls ruled the islands and regained possession of Caithness This is a story of the time when the Northern Isles of Scotland were part of a different national entity which explains the background to the non Gaelic culture of this locality when links across the North Sea were as important as links with the kingdom of Scotland to the south *The Chapel and Burial Ground on St Ninian's Isle, Shetland: Excavations Past and Present: v. 32* Rachel C. Barrowman, 2017-12-02 This volume is the definitive account of the excavation which led to the discovery of the magnificent hoard of 28 pieces of Pictish silverware on St Ninian's Isle Shetland in 1958 It includes a reassessment of the original archives and finds including an ogham stone found on the site in 1876 and a fantastic collection of glass beads as well as several new small scale excavations on the site of the chapel and its burial ground Taken together this work reveals a long sequence of settlement beginning in the Iron Age The first church was built on the site in the 8th century and accompanied by a long cist cemetery with cross incised stones and shrine sculpture The church may have continued in use into the 9th or 10th centuries and the recent work has confirmed that the famous hoard was buried into its floor There was a degree of continuity between the pre Christian and Christian burials with evidence that the site was a special place for burial before the advent of Christianity The report describes these burials in detail ending the story sometime between the 11th and end of the 12th centuries when an adult male who had died a violent death was moved to be buried on the site Thereafter the site was inundated with wind blown sand A new chapel with an accompanying long cist cemetery was then built above the earlier church and a chancel was added later The associated graveyard continued in use until around 1840 long after the building was demolished *The Origins and Development of Emigrant Languages* Hans Frede Nielsen, Lene Schøsler, 1996-01-01 *The Origins and Development of Emigrant Languages* is the proceedings from the Second Rasmus Rask Colloquium held at Odense University November 1994 **The Northern Isles** Alexander Fenton, 1997 The Northern Isles stand at a crossroads of North Atlantic Europe subject to the competing influences of Scandinavia and Scotland Sandy Fenton's detailed study of the material culture of Orkney and Shetland is combined with thorough linguistic analysis and is based on years of study and sifting of a mass of detail Much of the material is new based on extensive

research by the author on manuscript and other written sources and on knowledge freely imparted by many local inhabitants It illuminates the complexity of numerous interlocking factors draws a picture of a fascinating and varied existence and reveals the past not as a static tableau but a process of continuous change This book recreates the physical environment in which the people lived their crops and livestock the harvest of the sea their houses the food they ate These things dominated their lives and form the background which is the key to understanding the character of these fascinating islands This major work has earned its place as a key contribution to European ethnology and won the Dag Stromback Award of the Royal Gustav Academy Sweden *Denmark and Scotland* Gillian Fellows-Jensen,2001 **The Norwegian Domination and the**

Norse World, C. 1100-c. 1400 Steinar Imsen,2010 This book is the first of four planned volumes on the Norwegian realm and its dependencies in the central Middle Ages As with future volumes the underlying theme of this book is the transformation of Norway and parts of the Norse world into a monarchic state in the 12th and 13th centuries The collection provides a presentation of the Norse world the Norse community the Norgesvelde the Norwegian domination along with highlights of geographical political and cultural aspects Series ROSTRA Books Trondheim Studies in History No 3 **The Isle of Man with the Means of Access Thereto and an Introduction to Its Scenery...** Joseph George Cumming,1861

A Contribution to the Zoögeography of the East Indian Islands Thomas Barbour,1914 **Picts** Gordon Noble,Nicholas Evans,2022-11-03 Shortlisted for the EAA Book Prize and the Current Archaeology Book of the Year Award The Picts have fascinated for centuries They emerged c ad 300 to defy the might of the Roman empire only to disappear at the end of the first millennium ad yet they left major legacies They laid the foundations for the medieval Scottish kingdom and their captivating carved stones are some of the most eye catching yet enigmatic monuments in Europe Until recently the Picts have been difficult to trace due to limited archaeological investigation and documentary sources but innovative new research has produced critical new insights into the culture of a highly sophisticated society which defied the might of the Roman Empire and forged a powerful realm dominating much of northern Britain This is the first dedicated book on the Picts that covers in detail both their archaeology and their history It examines their kingdoms culture beliefs and everyday lives from their origins to their end not only incorporating current thinking on the subject but also offering innovative perspectives that transform our understanding of the early history of Scotland **Land, Sea and Home** John Hines,Alan Lane,Mark

Redknap,2024-11-15 The twenty eight papers in this volume explore the practical life domestic settings landscapes and seascapes of the Viking world Their geographical horizons stretch from Iceland to Russia with particular emphasis on new discoveries in the Scandinavian homelands and in Britain and Ireland With a rich combination of disciplinary perspectives new interpretations are presented of evidence for buildings and technology navigation trade and military organization the ideology of place and cultural interactions and comparisons between Viking and native groups Together these reveal the multivalent importance of settlement archaeology and history for an understanding of the pivotal phase within the Middle

Ages that was the Viking Period *Contact* Robert McColl Millar,2016-09-28 Much has been written on dialect formation through contact between dialects of the same language but the question of what happens when closely related but linguistically discrete varieties come into contact with each other has largely been neglected Here Robert McColl Millar sets out to redress this imbalance giving the reader the opportunity to analyse and consider a variety of different contact scenarios where the language varieties involved are close relatives and to explore the question are the results of contacts of this type different by their nature from where linguistically distant or entirely different varieties come into contact Bringing together the diverse theoretical positions associated with the production of new dialects as well as those associated with contact between closely related but discrete language varieties the volume invites the reader to evaluate different scholarly views using analysis from a range of different case studies largely derived from the history and diversity of English It then goes on to demonstrate the similarities in process and end result between contact involving discrete but closely related languages and between dialects of the same language and in doing so offers a new and insightful approach to issues of language contact *Into the Ocean* Kristján Ahronson,2015-01-01 With *Into the Ocean* Kristjan Ahronson makes two dramatic claims that there were people in Iceland almost a century before Viking settlers first arrived c AD 870 and that there was a tangible relationship between the early Christian Irish communities of the Atlantic zone and the Scandinavians who followed them Book jacket *Course of Lectures on Subjects Connected with Religion, Chiefly Intended for the Young, by Ministers of Various Evangelical Denominations, Delivered in the South Secession Church, Perth* Course,1846 *Senate documents* ,1881 *The Birsay Bay Project* Christopher D. Morris,2021-06-23 The Brough of Birsay was the power center of the Viking earldom of Orkney and is one of Historic Environment Scotland's key monuments and visitor attractions on the islands This publication is the culmination of 60 years of investigations that took place on the site between 1954 and 2014 This new volume incorporates comprehensive accounts of work undertaken by Dr Raleigh Radford and Mr Stewart Cruden between 1954 and 1964 excavations by the Viking and Early Settlement Research Project under the direction of the author on site between 1974 and 1981 a rescue excavation in 1993 a geophysical survey in 2007 and archival research up to 2014 Specialist artefactual and palaeobiological studies of metallurgical material ogham inscriptions and a gilt bronze mount of Insular origin are included together with re analysis of the radiocarbon dates from all sites in Birsay Bay and a re assessment of the architecture and dating of the church and related buildings on the Brough itself The final two chapters put the Brough as both a Pictish power center and the hub of the Viking earldom in the overall context of Birsay Bay and Viking and late Norse Orkney and the wider world between the Pictish and late Norse Medieval periods As well as being the author's third and final volume reporting on work for the Birsay Bay Project this volume completes a trilogy of studies of the Brough itself alongside Mrs Cecil Curle's and Prof John Hunter's earlier monographs **Exploring Iberian Counterpoints in the Eighteenth- and Nineteenth-Century Pacific** Rainer F. Buschmann,David Manzano Cosano,2024-04-01 Through a number

of significant case studies this volume examines changing Iberian dynamics in the Pacific bridging the gaps between English and Spanish speaking scholarship to highlight understudied actors and debates in the eighteenth and nineteenth centuries The book shifts the predominant emphasis on Anglo American studies and the historical neglect of Iberian endeavors in this ocean by focusing on several episodes that illuminate Spanish engagement in the Pacific It describes Spain s treatment of this sea from its discovery to the end of the overseas empire in 1899 becoming the first book to place its analytical focus in the heart of the islands rather than the Pacific Rim In tracing shifting Spanish positions and policies the book cautions against making generalities about the distinct histories of Pacific islands and their Indigenous populations uncovering a much more heterogeneous world than previous research may convey Exploring Iberian Counterpoints in the Eighteenth and Nineteenth Century Pacific is the perfect resource for students and researchers of the Iberian world Hispanic studies and the Pacific Ocean in early modern and modern eras Annual Report of the Director U.S. Coast and Geodetic Survey,1881
