Northern Lights on the Dead Sea Scrolls Anders Klostergaard Petersen, Torleif Elgvin, Cecilia Wassen, Hanne von Weissenberg, Mikael Winnige, 2010-01-01 Structured by four important themes the book discusses various aspects pertaining to the interpretation of the Dead Sea Scrolls The first theme is comprised by a number of essays that deal with different aspects of textual interpretation of particular Qumran writings The second theme centers on the question of historical referentiality How can the purported referentiality of particular Qumran writings be used in order to reconstruct an underlying historical reality The third theme includes essays that pertain to different dimensions concerning the methodology of interpretation The fourth theme focuses on problems relating to the textual reconstruction of specific Qumran texts In the final section of the book the perspective is widened to other writings outside the more specific Qumran context *Literature 1980, Part 1* Siegfried Böhme, Ute Esser, Professor Dr. Walter Fricke, Inge Heinrich, Wilfried Hofmann, Dietlinde Krahm, Dorothea Rosa, Dr. Lutz D. York, Ripon, Carlisle* Richard John King, 1869 **The Hasmoneans and Their Neighbors** Kenneth Atkinson, 2018-10-04 Kenneth Atkinson adds to an already impressive body of work on the Hasmoneans proposing that the history and theological beliefs of Jews during the period of the Hasmonean state cannot be understood without a close investigation of the histories of the Ptolemaic and Seleucid Empires as well as the Roman Republic Citing evidence from the Dead Sea Scrolls and classical

sources Atkinson offers a new reconstruction of this vital historical period when the Hasmonean family changed the fates of their neighbors the Roman Republic the religion of Judaism and created the foundation for the development of the nascent Christian faith Atkinson additionally provides reconstructions of events in classical history including the most detailed examination of Pompey the Great's assassination in light of Jewish sources by focusing on his death this volume uncovers new information that explains the discrepancies in the classical accounts of this pivotal event that shaped Middle Eastern and Roman history and which helped end the Republic Collecting sources ranging from the beginning of the Hasmonean monarchy through its religious strife and golden age to its eventual downfall Atkinson concludes that that Jewish sectarianism and messianism played far greater roles in the Hasmonean state than has previously be assumed Northern Lights A. Canada's Residential Schools: The History, Part 1, Origins to 1939 Commission de vérité et réconciliation du Canada,2016-01-01 Between 1867 and 2000 the Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission's final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada's Residential Schools The History Part 1 Origins to 1939 places Canada's residential school system in the historical context of European campaigns to colonize and convert Indigenous people throughout the world In post Confederation Canada the government adopted what amounted to a policy of cultural genocide suppressing spiritual practices disrupting traditional economies and imposing new forms of government Residential schooling quickly became a central element in this policy The destructive intent of the schools was compounded by chronic underfunding and ongoing conflict between the federal government and the church missionary societies that had been given responsibility for their day to day operation A failure of leadership and resources meant that the schools failed to control the tuberculosis crisis that gripped the schools for much of this period Alarmed by high death rates Aboriginal parents often refused to send their children to the schools leading the government adopt ever more coercive attendance regulations While parents became subject to ever more punitive regulations the government did little to regulate discipline diet fire safety or sanitation at the schools By the period's end the

government was presiding over a nation wide series of firetraps that had no clear educational goals and were economically dependent on the unpaid labour of underfed and often sickly children A New English Dictionary on Historical Principles: part 1. The world population is estimated to reach to more than 10 billion by the year 2050 These projections pose a challenging situation for the agricultural scientists to increase crops productivity to meet the growing food demands The unavailability and or inaccessibility to appropriate gene pools with desired traits required to carry out genetic improvement of various crop species make this task formidable for the plant breeders Incidentally most of the desired genes reside in the wild genetic relatives of the crop species Therefore exploration and characterization of wild genetic resources of important crop species is vital for the efficient utilization of these gene pools for sustainable genetic improvements to assure food security Further understanding the myriad complexities of genic and genomic interactions among species more particularly of wild relatives of crop species and or phylogenetically distant germplasm can provide the necessary inputs to increase the effectiveness of genetic improvement through traditional and or genetic engineering methods This book provides comprehensive and latest insights on the evolutionary genesis of diversity access and its utilization in the evolution of various crop species A comprehensive account of various crops origin exploitation of the primary secondary and tertiary gene pools through breeding biosystematical cytogenetical and molecular phylogenetical relationships and genetic enhancement through biotechnological interventions among others have been provided as the necessary underpinnings to consolidate information on the effective and sustainable utilization of the related genetic resources The book stresses upon the importance of wild germplasm exploration characterization and exploitation in the assimilation of important crop species The book is especially intended for students and scientists working on the genetic improvement of crop species Plant Breeders Geneticists Taxonomists Molecular Biologists and Plant Biotechnologists working on crop species are going to find this book very useful *Major General Robert E Rodes of the Army of Northern Virginia* Darrell Collins,2008-06-20 FINALIST FOR BIOGRAPHY 2008 ARMY HISTORICAL FOUNDATION DISTINGUISHED BOOK AWARD WINNER 2009 THE DOUGLAS

SOUTHALL FREEMAN AWARD FOR BEST BOOK ON SOUTHERN HISTORY J edediah Hotchkiss Stonewall Jackson s renowned mapmaker expressed the feelings of many contemporaries when he declared that Robert Rodes was the best division commander in the Army of Northern Virginia This well deserved accolade is all the more remarkable considering that Rodes a graduate of the Virginia Military Institute and a prewar railroad engineer was one of a very few officers in Lee s army to rise so high without the benefit of a West Point education Major General Robert E Rodes of the Army of Northern Virginia A Biography is the first deeply researched scholarly biography on this remarkable Confederate officer From First Manassas in 1861 to Third Winchester in 1864 Rodes served in all the great battles and campaigns of the legendary Army of Northern Virginia He quickly earned a reputation as a courageous and inspiring leader who delivered hard hitting attacks and rock steady defensive efforts His greatest moment came at Chancellorsville in the spring of 1863 when he spearheaded Stonewall Jackson s famous flank attack that crushed the left wing of General Hooker s Army of the Potomac Rodes began the conflict with a deep yearning for recognition and glory coupled with an indifferent attitude toward religion and salvation When he was killed at the height of his glorious career at Third Winchester on September 19 1864 a trove of prayer books and testaments were found on his corpse Based upon exhaustive new research Darrell Collins s new biography breathes life into a heretofore largely overlooked Southern soldier Although Rodes widow consigned his personal papers to the flames after the war Collins has uncovered a substantial amount of firsthand information to complete this compelling portrait of one of Robert E Lee s most dependable field generals Darrell L Collins is the author of several books on the Civil War including General William Averell s Salem Raid Breaking the Knoxville Supply Line 1999 and Jackson s Valley Campaign The Battles of Cross Keys and Port Republic The Virginia Civil War Battles and Leaders Series 1993 A native of Ann Arbor Michigan Darrell and his wife Judith recently relocated to Conifer Colorado

Qumran Interpretation of the Genesis Flood Jeremy D. Lyon, 2015-09-28 The Dead Sea Scrolls have opened up for modern readers the ancient world of Jewish interpretation of the Bible during the Second Temple period Among these scrolls are several manuscripts dating to the first century BC the oldest surviving texts dealing with interpretation of the Genesis Flood A literary analysis of the four primary Qumran Flood texts 1QapGen 4Q252 4Q370 and 4Q422 reveals how ancient Jews interpreted and employed the Genesis Flood narrative These texts contain commentary paraphrase and admonition among other things addressing issues such as the cause chronology and purpose of the Flood In addition these fragmentary treasures reveal such ancient understandings of the Flood as a reversal and renewal of creation a restoration of Eden and anticipation of the Promised Land and an archetype of eschatological judgment

author of the present work wants to throw new light on the intended readers of 1 Peter by investigating what it could possibly mean that they were to live as Strangers in the Light It is argued that the author of 1 Peter considers his readers as living a life influenced by social circumstances very much comparable to those of the Diaspora proselytes to Judaism Hence similar discussions in Jewish Diaspora works can illuminate his descriptions and exhortations Among these Diaspora works the works of Philo of Alexandria should be drawn into the discussions in a much more comprehensive way than has been done so far In addition to a study of the role of Silvanus in the making of the letter this volume contains four studies that carry out what the author calls philonic readings of central issues of 1 Peter 2 5 11 The study will demonstrate the usefulness of Jewish diaspora works for understanding the social life of the early Christians *On the Origin of Myths in Catastrophic Experience, vol. 1: Preliminaries* Marinus Anthony van der Sluijs,2019-01-01

Creation myths around the world reveal an intricate network of recurrent motifs Many of these are counterintuitive and not widely known describing a time when the sky was low the stars did not yet shine multiple suns appeared the moon was brighter than the sun no land existed deities and mortals maintained frequent contact a world axis in the form of a tree ladder or giant man connected the earth with the sky a devastating flood or fire ended the old order and so forth The present work in multiple volumes aims to find an origin for this cross culturally and internally consistent body of traditions in a series of extraordinary natural events relating especially to the earth s transition from the last glacial period to the Holocene This first volume sets the stage for the interdisciplinary hypothesis Essential lines of research receive a historical introduction comparative mythology catastrophism and the study of the mythical world axis in relation to the earth s rotation Various astronomical and meteorological interpretations that are not strictly catastrophist are explored for several types of myths about the sun the moon and the world axis but leave many of the most intriguing traditions unexplained It is argued that a structural core of the worldwide mythology of creation and destruction in which the cosmic axis takes pride of place points to a specific period of dramatic natural circumstances in real prehistoric time A new synopsis is provided of this universal mythological substrate It emerges that the mythical world axis cannot have been based on a single object seen or imagined at one of the poles as has usually been supposed This surprising conclusion paves the way for the innovative geomagnetic theory proposed in volume 2
